*Proceedings of the Government of Mysore,*

READ AGAIN—

Government Proceedings No. 5188-216—Mis. 995, dated the 8th November 1897, publishing papers regarding direct correspondence between Durbar Officers and Officers of the British Government.

READ—

*Letter No. 3387—469-95, dated 14th July 1900, from the First Assistant to the Resident in Mysore.*

Copy of the following letter forwarded to the Dewan of Mysore. The Resident will be glad to know at an early date what orders (if any) have recently issued, and what the general practice is.

*Letter No. 4834, dated 7th July 1900, from the Collector of Dharwar, to the Resident in Mysore.*

In forwarding herewith copy of a letter from the Mamlatdar of Hangal, I have the honor to request that you will be so good as to move the Mysore Durbar to withdraw the ruling by which its Amildars are prohibited from corresponding direct with Mamlatdars of the talukas of this district lying on the borders of the Mysore Territory. If the ruling were withdrawn, it would minimize clerical labour, save delays and tend generally to the convenience of both parties, from an administrative point of view. In heirship and other enquiries, the Mamlatdars of this district have constantly to correspond with the Amildars of Mysore and it would, I think, be a waste of time and energy to address every paper to the Collectors (Deputy Commissioners) of Mysore.

2. The matter being important, I have the honor to commend it to your special attention.

*Copy of letter No. 231, dated the 28th June 1900, from the Mamlatdar of Hangal, to the Collector of Dharwar.*

Referring to your No. 4481, dated 26th instant, I have the honor to report that it is a custom now, and no one has objected to it, that the Amildars of the adjoining talukas (Sorab, Sagar, &c.) of the Mysore Territory, directly correspond with the Mamlatdars of this and the Kod talukas on several matters connected with land revenue and heirship enquiry. The Mamlatdars of this and Kod talukas are also in the habit of following the same procedure. I therefore have the honor of soliciting instructions whether I must stop the standing practice and write to the Collector when occasion arises of asking the Amildars of those and other talukas on any such matters. These being the adjoining talukas every day we have to ask them to serve notices and to take depositions of persons concerned in the heirship enquiry. This will increase clerical work in this office and in the office of the Collector. Many of the land-owners and Jamadars of this taluka reside in the Mysore Territory and land-owners of it reside here and it is of every day occurrence that one or two papers on such matters I have to deal with.

*Letter No. 3768—Pol. 160, dated 10th September 1900, to the First Assistant to the Resident in Mysore.*

I am directed to acknowledge the receipt of your Memo No. 3387—469-95, dated the 14th July last, forwarding copy of a letter from the Collector of Dharwar, requesting that the Mysore Durbar be moved to withdraw the ruling by which its Amildars are prohibited from corresponding direct with the Mamlatdars of the talukas of his district lying on the borders of the Mysore Territory, as the same would tend generally to the convenience of both parties from an administrative point of view, and stating that the Resident would be glad to know at an early date what orders (if any) have recently been passed by the Durbar and what the general practice is.

2. In reply, I am directed to append below the information obtained from the Deputy Commissioners of the several districts in the State on the question mentioned above:—

The Deputy Commissioners of Chitaldrug, Shimoga, Kadur and Tumkur report that all the Amildars in their district correspond direct with the Mamlatdars and Tahsildars of British Territory on ordinary matters, especially in those connected with land revenue. The Deputy Commissioners of Kolar, Mysore and Hassan report that only certain Amildars in their districts carry on such correspondence. In the case of the Bangalore district, such direct correspondence is reported to be rare and the Deputy Commissioner states that he found fault with the Amildar of Bangalore for having replied direct to a Mamlatdar in Bombay to a reference concerning some revenue processes, his opinion being that such correspondence could be carried on only between *District* Officers and not between *Taluk* Officers.

3. I am to submit for the perusal of the Honorable the Resident a collection of orders on the subject of direct correspondence and to add that in addition to the matters referred to therein, the Durbar agree with the Collector of Dharwar that it would greatly facilitate the despatch of business if on revenue and heirship matters generally (involving of course no enforcement of coercive measures), direct correspondence were permitted between the Durbar and British Officers *of and above the rank of Amildar or Mamlatdar or Tahsildar.*

*3. Letter No. 4852, dated 22nd September 1900, from the First Assistant to the Resident in Mysore.*

I am directed to invite a reference to your office letter No. 3768—Pol. 160, dated the 10th instant, on the subject of direct correspondence between the Amildars of the Mysore State and the Mamlatdars of the Bombay Presidency.

2. The Resident agrees that there is no objection to permitting direct correspondence on revenue and heirship matters, involving no enforcement of coercive measures, between the Officers of the Durbar and of the British Government of and above the rank of Amildar or Mamlatdar.

3. It is not clear from your office letter, cited in the first paragraph, that, as is apparently assumed in letter No. 4834, dated 7th July 1900, from the Collector of Dharwar, any recent orders have been issued on the subject of direct communication between Mamlatdars and Amildars. If any such orders have issued, the Resident presumes that, in the light of the present expression of opinion by the Durbar, they will now be modified. It is of course possible that the Amildars in the Shimoga district may labour under some misapprehension as to extent of their powers in this respect, and in order to meet this contingency the issue of suitable orders to the Deputy Commissioner of Shimoga, might perhaps be desirable.

No. 4877-84—Mis. 1030, dated Bangalore, 1st October 1900.

Order thereon—The decision now arrived at, that there is no objection to permitting direct correspondence on revenue and heirship matters, involving no enforcement of coercive measures, between the Officers of the Durbar and the British Gove nment, of and above the rank of Amildar or Mamlatdar, will be communicated to the Deputy Commissioners of districts, for information and guidance, and for issue of needful instructions to all Taluk Amildars. The above decision should be acted upon in future.

2. The Deputy Commissioner of Shimoga will be requested to report, with reference to his No. 120—97, dated 1st August 1900, whether any orders were recently issued by him on the subject of direct communication between his Amildars and the Mamlatdars in the Dharwar Collectorate and, if so, to modify his orders so as to bring them into conformity with the present decision.

REVIEW THEREON—The year under review opened with a balance of stock amounting in value to Rs. 32,961-0-11, to which was added stock of the value of Rs. 96,586-14-2, making a total of Rs. 1,29,547-15-1, while the cost of issues was Rs. 91,477-9-3, leaving a balance of stock at the end of the year valued at Rs. 38,070-5-10.

2. The value of goods received from England aggregated Rs. 28,114-6-11, while local purchases of country articles were made to the extent of Rs. 59,598-14-11 as against Rs. 22,597-1-5 and Rs. 58,074-11-1, respectively, in the previous year. Certain European articles were also purchased locally but at a smaller cost, that is, for Rs. 533-5-1 as against Rs. 1,335-15-4 in the year before. The cost of stationery supplied to all the Public Departments amounted to Rs. 41,970-9-7 as against Rs. 43,182-3-10, resulting in a decrease of Rs. 1,211-10-3. The value of papers supplied to the Press for printing purposes amounted to Rs. 48,071-13-7 as against Rs. 58,035-6-2 in 1898-99, showing here again a decrease of Rs. 9,963-8-7. Thus the total decrease in the value of stationery articles issued to the various Departments of the State was Rs. 11,175-2-10 and seems to have been brought about by the careful examination of indents, and by the use of a cheaper but equally suitable kind of paper for the *Mysore Gazette*.

3. The Government observe with regret that, in spite of their remarks in their review of the previous year's report, much inconvenience is still being caused and unnecessary expenditure entailed, in consequence of the usual Annual Indents not being forwarded to the Superintendent of the Stationery Department in due time. The attention of all Heads of Departments is again drawn to the matter and it is hoped that they will spare no efforts in future in arranging for the punctual transmission of indents.

READ THE FOLLOWING PAPERS—

*Memo received from the Deputy Commissioner of the Mysore District with his D. O. of the 20th instant.*

Mr. Theobald, Sub-Assistant Conservator of Forests, now on special duty at Kakankote, in connection with the Khedda operations, brought to my notice in his D. O. letter, dated 20th September 1900, that some Kurubars died of starvation and some went to Wynaad to work in the coffee estates. Thereon, I wrote to Mr. Venkatnaranappa, Assistant Conservator of Forests, in charge of the Heggaddevankote Taluk Range, enclosing Mr. Theobald's letter and requested him to report how long since this class of people was subjected to distress and starvation, and why their condition was not brought to my notice with a view to affording immediate relief to them.

2. On the 26th September he replied to me saying that the information furnished by Mr. Theobald was not absolutely true and that the reason for the occurrence of some deaths among Kurubars was not starvation.

3. Though the reports made by the above Officers were conflicting, yet I issued orders to the Taluk Amildar to make immediate personal enquiry regarding the condition of the Kurubars and report the result of his investigation to me in view to adoption of prompt measures to save them from distress, should unfortunately the necessity therefor have arisen.

4. All this was brought to the notice of Government in my letter No. 332, dated 5th October 1900, forwarding extracts of D. Os., and I therein solicited that a sum of Rs. 1,000 may be placed at my disposal so that I may be forearmed to meet any emergency. Copy of the above letter is also enclosed for ready reference.

5. The Amildar, after holding local personal investigation, reported that no Kurubar died of starvation, and that the Kurubars were not at all in distressed circumstances. It would appear that the boundaries of the Wynaad and Malabar jungles being contiguous with those of our State forests, it is *manul* with the Kurubar population living there to migrate from one jungle to the other.

6. From the accompanying extract of Mr. Venkatnaranappa's D. O. letter, dated 26th September 1900, it is evident that the Kurubars were, during the hot weather, in some distress and that measures were instantly organized to afford relief to them. An elaborate work of timber felling was started and thousands of rupees were advanced to save them

from distress. The North-West Monsoon having set in time those that had received advances from coffee planters resorted to the estates to work out them, while others found employment in agricultural operations. In the Kakankote State forest Thokkal cultivation had also been started and it resulted in a good harvest of cholum crop.

7. The Amildar's report goes to confirm Mr. Venkatnaranappa's report. He further adds that no deaths from starvation have occurred. The Forest Range Officer, who generally utilizes the services of Kurubars for carrying out work in the forests, should have at once brought to my notice if any distress prevailed among them. Nor can I exonerate the Amildar from all responsibility inasmuch as it is incumbent on him to keep himself acquainted with the condition of the people of his taluk, however remote their residence may be from the kasba. It is true that this wild race live in the heart of forests, but that is no reason why he should not have ascertained the actual state of things. I must therefore consider that both Mr. Venkatnaranappa and the Amildar are equally responsible for the culpable omission. The copies of correspondence herewith submitted will show that immediate steps were adopted to apply to Government for funds to afford relief to the Kurubars.

8. In conclusion, I must not omit to mention here that in this year the South-West Monsoon was very favorable particularly in the Heggaddevankote taluk; cholum crop has already yielded a bumper harvest and ragi is expected to yield a very good outturn, the rains having been very seasonable there.

*(2). Letter No. 332, dated 5th October 1900, from the same Officer to the Secretary to the Government of Mysore, General and Revenue Departments.*

I have the honor to report that Mr. Theobald, Sub-Assistant Conservator of Forests, now on special duty in the Heggaddevankote taluk, brought to my notice that some of the Kurubars of that taluk who used to be employed in connection with the Khedda operations were in great distress, presumably in consequence of high prices of food stuffs and of want of work.

2. Mr. Venkatnaranappa, the Assistant Conservator in charge of that Range, has however given a different account of the state of the Kurubars there.

3. These reports being conflicting I have ordered the Amildar to make a personal enquiry into the matter and submit a detailed report affording immediate relief wherever it may be found necessary.

4. In the meantime I beg that a sum of Rs, 1,000 may be placed at my disposal in order to be prepared for any emergency such as starting of some relief works in the forest, and to afford gratuitous relief under the Famine Code to such as may be found unable to work.

5. An extract from the D. O. letters from the said Officers is herewith submitted for perusal.

*Enclosures in the above.*

(i). Extract from Mr. Theobald's letter, dated 20th September 1900, to the Deputy Commissioner, Mysore District.

* * * * *

* * * * *

There is some difficulty here about (especially) Kurubar labor. I hear that some of them have died from starvation, others went away to Wynaad to work in "Faith Estate" and of those remaining, half of them are simply animated skeletons, especially Jain Kurubars.

* * *

(ii). Extract from Mr. Venkatnaranappa's letter, dated 26th September 1900, to the Deputy Commissioner, Mysore District.

* * * * *

* * * * *

I am surprised to see that Mr. Theobald has given you the information that is not absolutely true. It is true that some Kurubars died and some bolted away from this taluk. But the real reason is not starvation. It is also true that during the hot weather they were really in want of food. To help them at that critical time an elaborate

work of timber felling was organized and thousands of rupees were advanced. For some time these Kurubars worked satisfactorily. In some instances to save these Kurubars from the clutches of greedy merchants, the payment was made in kind. As soon as the monsoon regularly set in, the work in the coffee estates commenced in the Wynaad. Some of the Kurubars that had taken advances bolted away; while some that were helping the sandalwood smugglers thought it safe to go to Malabar. In the Kakankote State Forest there is a Wodda Hadi near which the Thokkal cultivation had been done. Jola crop was in good condition. On one night some of the Jain Kurubars plundered the crop and ran away to Malabar. During hot weather small-pox was raging in some of the Hadas, owing to which there were many deaths. We are trying our best to get our Kurubars vaccinated.

No. 60-69—D., DATED BANGALORE, 21ST OCTOBER 1900.

ORDER THEREON—Information having reached Government that some of the Kurubars about Kakankote in the Mysore District had died of starvation, the Deputy Commissioner was asked to explain why the same was not reported, and why no remedial measures were taken under the Famine Code to alleviate the distress if it existed.

2. Government are glad to learn, from the report now received, that the deaths referred to were not due to starvation but to other causes and that the Kurubars are not in distressed circumstances. It was on the 20th of September that Mr. Theobald, Sub-Assistant Conservator, first reported to the Deputy Commissioner that he had heard that some of the Kurubars had died of starvation. The Deputy Commissioner on receipt of the report referred it to the Assistant Conservator of the Range on the 25th idem. The next day, this Officer reported that the information given by Mr. Theobald was not true and that the real cause of death was not starvation. He added further that during the hot weather the Kurubars were in need of some relief, when an elaborate scheme of timber felling was organized and thousands of rupees advanced to save them from distress. The Amildar's subsequent report confirmed Mr. Venkatnaranappa's statement that there were no deaths from starvation. In a matter of this kind requiring very prompt action, in which the reports of the two Forest Officers were conflicting, Government consider that a careful enquiry on the spot by the Deputy Commissioner would have disclosed the real state of affairs. Mr. Theobald, who was presumably about the place at the time of his report did not take the trouble to enquire into the truth or otherwise of what he had heard. The Amildar on whom devolves the responsibility of keeping himself informed of the state of his taluk was practically ignorant of what was going on till he was called upon by the Deputy Commissioner on the 25th of September to submit a report. The Deputy Commissioner is requested to expedite the further report promised by him after personal local enquiry, meanwhile taking measures under the Famine Code, if required.

3. The advance of Rs. 1,000 applied for by him is hereby sanctioned.

The Annual Report on the Working of the Mysore Government Press for the year 1899-1900.

No. 5736 MIS. F. 45-97, DATED BANGALORE, 26TH OCTOBER 1900.

REVIEW THEREON—During the year under review, the value of work done and receipts under all heads amounted to Rs. 96,629 as against Rs. 1,04,157 in the previous year, showing a decrease of Rs. 7,528; and the total expenditure amounted to Rs. 72,099 as against Rs. 77,175 in the year preceding. The profit to Government was thus Rs. 24,530 as compared with Rs. 26,982 in the previous

year. The decrease in the value of the work done is observed to be not owing to a fall in the actual amount of work turned out during the year but to reduced tariff in the rates of valuation suggested by Mr. Biddulph in his Audit Notes. The activity of the Press continued to be maintained.

2. In accordance with Mr. Biddulph's suggestion, 'Stock-taking' was carried out for the first time in the present year. A type-casting machine was one of the additions to the stock of the Press in the year under review, and as the result of its working, 2,731 lbs. of type were cast in the months of March to June 1900.

3. The following additions of machinery were made to the permanent stock of the Press during the year under consideration :—

(i) A type-casting machine
(ii) A blue-grit grindstone
(iii) A platform weighing machine; and
(iv) 7,221 lbs. of English type by purchase.

4. The Secretariat Press, which was brought into existence recently to expedite the printing of Government Proceedings, Weekly Diaries and other work of a similar nature, continued to work satisfactorily.

5. The value of work done by the Branch Press at Mysore amounted to Rs. 8,714 as against Rs. 10,403 during the previous year, showing a decrease of Rs. 1,689, which is also accounted for by the reduced rate of valuation; and the expenditure amounted to Rs. 4,182 as against Rs. 4,303 in the year preceding. The profit to Government was Rs. 4,532 as compared with Rs. 6,100 for the year before.

6. The value of stock of articles in the Central Press and in the Branch Press at Mysore on the 30th June 1900, amounted to Rs. 1,45,537-12-11, of which the value of unserviceable articles was Rs. 766-15-4.

7. The designation of the Superintendent in the matter of the registration of books, *viz.*, "Curator, Government Library," was changed to "Registrar of Authorized Publications in Mysore." During the year under review, 75 books and periodicals were registered under Act XXV of 1867 against 95 in the previous year. Rupees 42 were received as fees on 21 works, for which copyright was secured, as against Rs. 50 on 25 works in the year before. The Government note with regret that there has been a decline in private enterprise in the matter of these publications during the last two or three years. A statement is appended to para 13 of the report showing the subjects dealt with in the publications referred to.

No. PG. 343-8, DATED BANGALORE, 11TH OCTOBER 1900.

ORDER THEREON—In the letter read above, the Plague Commissioner recommends the opening of new extensions in the directions noted in the margin, with a view to relieve the over crowding in the Mysore City, and to provide accommodation for people, whose houses may be demolished as unfit for habitation or removed for the purpose of opening out streets and conservancy lanes, on the same lines as those followed in forming the Malleswaram and Basavangudi Extensions in the Bangalore City. The proposal commends itself to Government, and they accordingly sanction, subject to the submission of detailed plans showing the area or extent of the lands required, the formation of new extensions at Chetnahalli and Erangere Camp in the localities which have been selected in consultation with the Senior Surgeon and the Superintending Engineer, Sanitary Works Department. As regards Jalapuri and Idga orders are reserved pending submission of the map and information called for in the enclosed Confidential Note.

(1) Chetnahalli.
(2) Jalapuri.
(3) Erangere Camp.
(4) Idga do

2. The conditions laid down for the allotment of sites in the two extensions of the Bangalore City, in Government Proceedings Nos. Pg. 667-71 and Pg. 1251-2, dated the 15th December 1899 and 12th April 1900, respectively, will be made applicable to the extensions now to be formed in the Mysore City.

3. Having regard to the impoverished condition of the people in Mysore, and with a view to encourage the construction of sanitary houses on approved plans and in consideration of the fact that the locality selected are at some distance from the centre of trade and places of employment for the working classes, the Plague Commissioner suggests the free grant of sites in these extensions to persons whom the Deputy Commissioner or the Civil Officer in charge of the extensions may certify to be poor and unable to pay the cost of the site, on the condition, however, that building operations should commence before the 31st December 1900. The Government are of opinion that this concession may be shown to persons in extremely poor circumstances after due enquiry into the merits of each individual case.

4. No compensation will be paid to persons dispossessed of houses in the City until they have built new houses in the extensions, or given satisfactory guarantees for so doing.

5. The Plague Commissioner is requested to favor Government with his views as to how he proposes to deal with those cases in which persons dispossessed do not at all wish to build houses in the Mysore City; some special treatment of such cases seems desirable for compensating them for loss sustained by demolition or removal of their houses.

6. The Chief Engineer and Secretary, Public Works Department, will be requested to report, if the Executive Engineer, Palace Division, may, in addition to his own work, be put in charge of these extensions, to mark out sites, give proper designs for the different types of houses required and see that they are built in strict accordance with the prescribed conditions, and do such other work as may be necessary in connection therewith and if this arrangement is not possible to indicate which other Officer he can spare for the purpose.

7. The services of the Municipal Engineer of the Mysore City may, with the permission of the President, be also utilized for assisting the Executive Engineer, in the proper carrying out of the duties entrusted to him.

8. The Plague Commissioner is requested to expedite the submission of the list of houses to be demolished for opening out the congested part of the Fort behind Karikal Thotti and elsewhere.

9. The Plague Commissioner, will give due publicity to the orders conveyed in paras 2 to 5.

READ—

*Letter No. 1523, dated the 13th October 1900, from the Plague Commissioner in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.*

I have the honor to submit herewith a copy of the Memo drawn up by the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, on the outbreak of plague at Shimoga with my remarks thereon.

---

*Memorandum on the Outbreak of Plague in Shimoga.*

Arrived in Shimoga at 9-20 A. M., on Friday the 5th October 1900, where I was met by the Civil Surgeon, and in company with the Deputy Commissioner (who travelled down with me from Bangalore) we went to the Plague sheds opposite the Railway Station, and which were formerly used as an Observation Camp. There I saw three children all suffering from bubonic plague and all belonging to one family; from there I drove to the town to the infected quarter and found a very large majority of the houses in the immediate neighbourhood had been promptly evacuated.

2. The first case that was detected was that of one Subbaiya, a resident of Shimoga and who had not been away from the place, who was residing in a native hotel belonging to one Nagappa, at the south end of Doddapetta, who, on being questioned with a view, if possible, to ascertain the origin of the case, said that some short time back he had received a bag of flour from Bombay, and that shortly afterwards several dead rats were found in the house, and so the outbreak is attributed to the rats having caught the infection from the flour. I ordered some of the flour to be sent to the Government Bacteriologist and the result of his examination will be awaited with interest. Personally, I do not believe that the flour was the source of the infection, and I think we shall very likely find out later on that the infection was brought either from Bangalore or Mysore by some person or persons and their effects, but up to date there is no evidence to point to this source of infection.

REMARKS OF THE PLAGUE COMMISSIONER.

The Deputy Commissioner is requested to institute careful enquiries and ascertain the source of infection.

The Senior Surgeon is requested to send up the Bacteriologist's report as soon as it is received.

3. On the evening of the 25th September there was a suspicious death in the house of Nagappa which was, in all probability, a case of plague; it is unfortunate that the case was not seen, but the Civil Surgeon, who had been to Siralkoppa did not return until the next day. On the 27th, one Latchmaiya, a Komati, who resided two doors off the infected house, and where there had been dead rats, took two of his children to the Civil Hospital suffering from fever and sought admission, and as the Civil Surgeon was doubtful as to the nature of the fever and suspecting them to be plague cases, they were sent to the Observation Camp where they now are.

4. On the 28th, one Subba Rao living in Doddapetta and next door to the house of Latchmaiya, sickened of plague, and there was another case, Subbachar, in Brahmin Street which joins into Doddapetta at right angles.

5. On the 29th, another inmate of Latchmaiya's house in the person of his daughter Gauramma was attacked, as also one Kuntappa whose house was next to Subbachar's in Brahmin Street.

6. On the 30th there were two attacks, one being another daughter of Latchmaiya's, and the second a son of Ananda Rao, the Munsiff, who was residing in a house behind Doddapetta at some little distance. In this case the source of infection could not be traced nor was there any history of dead rats.

7. On the 1st October there were two cases. One Srinivasa Rao, who lived in Kumbarkere behind Ananda Rao's house, a second in Brahmin Street by name Krishnabayi, a daughter of the Sub-Inspector of Schools; in both these cases the source of infection could not be traced.

8. On the 2nd October one Krishnappa, a son of Latchmaiya, who resided in a house a little higher up Doddapetta, was attacked.

REMARKS OF THE PLAGUE COMMISSIONER.

The Deputy Commissioner is requested to report when the house was first infected and whether it was not evacuated at once.

9. On the 3rd, one Venkoba Rao, who was living in one of the previously infected houses in Brahmin Street was attacked as also Kaveriamma another daughter of Latchmaiya.

10. On the 4th, one Venkata Sastri and his daughter were both attacked; they were living in Brahmin Street and the Sastri was treating plague cases.

11. One Venkatamma, mother of Kuntaiya, was attacked as also Latchmekar another child of Latchmaiya's and lastly Lanogee, a Marvari, who resided in Doddapetta.

12. Up to the 5th, from the commencement of the outbreak, there have been in all 21 attacks, 10 deaths and 11 are still remaining; but I fear from what I saw of them that the majority will die. A rough sketch map, showing the site of the outbreak and the course of the disease is attached, from which it will be seen that it is following its usual course, spreading slowly but surely from the original source of infection, and that, in addition, two new centres of infection have already been established.

REMARKS OF THE PLAGUE COMMISSIONER.

This is interesting.

13. The measures adopted before my arrival were, on the whole, fairly prompt, and to the point, and Dr. T. V. Arumugam deserves great credit for dealing with it so expeditiously.

REMARKS OF THE PLAGUE COMMISSIONER.

I am glad of this.

14. On Friday evening I went round the town again and later on I addressed a meeting of the most influential of the people who remained. I explained to them fully the policy of the Government regarding plague measures, and assured them that nothing compulsory, either in the shape of segregation or inoculation or removal to hospital was contemplated. I then pointed out to them the *very* great advantage to be gained by prompt and early evacuation and as they had had the experience of Siralkoppa, where plague had been speedily suppressed by evacuation, my words fell on willing ears. I then told them that I would obtain the sanction of the Plague Commissioner for the gift of bamboos and other material necessary for building sheds, free, for the poor, and at cost price for the well-to-do, and I was assured by them that if this were done, they would readily go out.

REMARKS OF THE PLAGUE COMMISSIONER.

I have already authorized the Deputy Commissioner by wire to render the help required by the town people.

15. I insisted on *prompt* and *early evacuation*, and pointed out to them *forcibly* the danger that lay in putting it off until the disease had got a good grip of the town. The total number of houses that had been evacuated at the time of my departure on Sunday, the 7th, was 578 and very many more are preparing to go. After I addressed them on plague measures, I alluded to the scheme that had been adopted in Mysore of raising subscription for the relief of the poorer classes to whom evacuation in many cases implied starvation. The list was circulated and a sum of Rs. 500 was speedily subscribed, and I feel sure that this sum will be largely augmented. I suggested to the Deputy Commissioner that the money collected might, with advantage, be utilized in selling grain at a cheaper rate to the poor.

REMARKS OF THE PLAGUE COMMISSIONER.

This is very satisfactory.

16. On the morning of the 6th I went round the town with the Deputy Commissioner and Civil Surgeon and inspected the several sites that had been selected for camping on for those who intended evacuating their houses. All have been most carefully chosen both as regards their situation and nearness to water, and they leave nothing to be desired.

17. I also suggested that two small hospital sheds should be erected, one for males and another for females. The place I selected was within the bandy-stand enclosure; it is very large and capacious and has the advantage of having several pucka buildings, which would easily accommodate the menials attached to the hospitals, as well as the disinfection coolies who are being sent from Bangalore. Whilst I was there I had the place cleaned up with the prisoners and the buildings white-washed inside and the place is now an ideal place for an hospital. (The Civil Surgeon has promised to have material ready for running up these sheds, should they be required; he thinks, however, that for the present the sheds near the Railway Station can be utilized as an hospital, and only if numbers largely increase, need the others be erected. To this I consented). I enclose a proposition statement of the staff required for carrying out the necessary measures and I trust the Plague Commissioner will sanction it at a very early date.

REMARKS OF THE PLAGUE COMMISSIONER.

I have sanctioned this.

18. What is required to be done now is the prompt disinfection by means of chemicals of all the infected houses, and though it is not easy to do this without trained men, I have set the Civil Surgeon to work at once with it. I ordered the town to be divided into two wards, with a Ward Officer in charge of each, and a staff of eight Supervisors: the same as is done in Mysore and Bangalore. I have ordered 20 trained men for disinfection of houses from Bangalore, and they will be divided into two gangs of 10 each under a Disinfection Supervisor.

REMARKS OF THE PLAGUE COMMISSIONER.

Good.

Approved.

19. It is essential that trained men should be employed as the value of disinfection lies in the thoroughness with which it is done. On Saturday morning, the 6th, I was informed that Mr. Ananda Rao, who had had two deaths in his house had left the town for Chikmagalur, with his family. So I asked the Deputy Commissioner to wire to Chikmagalur to have him stopped from going into the town. I have since heard that he was stopped at Birur and not allowed in there, but was accommodated in the ward of the hospital. I impressed upon the Deputy Commissioner the necessity for preventing persons from infected houses leaving the town until 10 days had elapsed since the date of the last death, and then only after their clothes and persons had been disinfected. There have been no fresh cases since the 5th and it is possible though not probable that the disease may stop, due to the prompt and early evacuation. I have warned the authorities against being drawn into a state of false security by the non-occurrence of cases for the past three days, but to push on vigorously with evacuation.

REMARKS OF THE PLAGUE COMMISSIONER.

The Civil Surgeon will make the necessary arrangements in the matter.

20. All arrangements for the supply of medicines, bedding, hospital clothing and chemical disinfectants have been made and I have ordered temporary Sub-Assistant Surgeon Mascharenhas, who has been lately taken on in anticipation of sanction, to Shimoga, to assist the Civil Surgeon. He is a native of Shimoga and is well liked by all classes of people.

REMARKS OF THE PLAGUE COMMISSIONER.

Government sanction will be obtained for the appointment of Mr. Macharenhas.

21. I am of opinion that the present opportunity should not be ceased to open up conservancy lanes through the most crowded parts notably on both sides of Doddapetta and Bramin Street, and in order to do this it is necessary to place a sum of money at the disposal of the Deputy Commissioner to be utilized in the manner suggested above.

REMARKS OF THE PLAGUE COMMISSIONER.

The Deputy Commissioner will be requested to send up carefully prepared proposals for opening up the crowded parts of the town through the Superintending Engineer, Sanitary Works.

---

*Memo of Plague Establishment required for the Shimoga Town as proposed by the Deputy Commissioner, Shimoga.*

The Vice-President should be in charge of the whole work.

Two joint Ward Officers, one Medical and one Police, (Hanumantha Rao, Sub-Assistant Surgeon and Subba Rao, Reserve Inspector) will work directly under him.

They should be given two clerks, on Rs. 15 each, knowing English.

Twelve literate constables should be employed as supervisors under them.

The burial and burning grounds will be watched by the Police and Sayer karte officials as hitherto.

There should be two Disinfecting Supervisors, one new man on Rs. 25 and another the present Municipal Overseer to do the work in addition to his present work.

*Allowances.*—As considerable additional work falls on the officers and menial staff, I would recommend an allowance of three annas a day to each Police constable engaged in the work of supervisor, two annas a day to the Municipal peons and scavengers and sweepers. I consider this absolutely necessary as the prices have gone up considerably owing to the spreading scare, and the men, who are poorly paid, run a certain risk.

REMARKS OF THE PLAGUE COMMISSIONER.

I wouldn't entrust the work of supervision to police constables. Please see my remarks on the abstract below.

The Municipal Overseer should be given an allowance of Rs. 10 and the Work Inspector, who has a great deal of additional work to do in attending to construction and repair of sheds, &c., a similar allowance.

The case of the higher Officers is not quite so urgent; but as there is a General Order giving a certain allowance to Medical Officers engaged on plague duty, I consider that it is only fair that this should be extended to other Officers also. I would recommend an allowance of Rs. 30 each to the Ward Officers and Rs. 50 to the Vice-President. The Reserve Inspector should not draw his Rs. 15 allowance along with this.

In the District Office there is one clerk on Rs. 25. The work is done at present with the help of another clerk of the English Department, who was formerly Plague Head Clerk I would recommend an allowance of Rs. 15 to this clerk (whose substantive pay is Rs. 35) and the appointment of two peons on Rs. 7 each, one for the District and one for the Ward Office.

REMARKS OF THE PLAGUE COMMISSIONER.

Instead of entrusting the work of supervision to Police constables, I would sanction the entertainment of 8 supervisors at Rs. 12 each per mensem, as in Bangalore and Mysore.

No. Pg. 358-62, DATED BANGALORE, 15TH OCTOBER 1900.

ORDER THEREON—The Memo of the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, on the outbreak of plague at Shimoga, is interesting It is satisfactory to note that already such a large number of houses as 570 has been evacuated up to the 7th instant, and it is hoped that the measures taken both by the local authorities and the Senior Surgeon will arrest the further progress of the disease.

**2.** The suggestion of the Senior Surgeon to sell grain at a cheeper rate to the poor, will, it is presumed, be carried out wholly by private funds and by private agency.

3. The additional establishment and allowances as noted below, recommended by the Senior Surgeon and the Deputy Commissioner, are sanctioned:—

4. The Deputy Commissioner is requested to draw up carefully prepared proposals for opening up the congested parts of the town in consultation with the Superintending Engineer, Sanitary Works Department, who will submit the same through the Chief Engineer for the orders of Government.

5. As remarked by the Plague Commissioner the work of supervision should not be entrusted to the Police constables. A staff of eight Supervisors on a pay of Rs. 12 each is therefore sanctioned as proposed by the Senior Surgeon.

OFFICE OF THE DEWAN OF MYSORE,

No. Pg 368. *Dated Bangalore, 17th October 1900.*

## NOTIFICATIONS.

The following Notification issued by the Government of Madras is re-published for general information :—

Whereas the Governor in Council is satisfied that Ootacamund, in the Nilgiri district, is threatened with an outbreak of a dangerous epidemic disease by the assemblage of mendicants and vagrants from infected areas during the month of the Ramzan, and whereas the ordinary provisions of law for the time being in force are insufficient for the purpose of preventing the outbreak or spread of the disease :

In exercise of the power conferred by Section 2, Sub-Section 1 of the Epidemic Diseases Act, 1897 (III of 1897), and delegated to him under Sub-Section (3) of the same Section by the Notification of the Government of India in the Home Department, No. 302 of the 4th February 1897 :

The Governor in Council is pleased to prohibit all mendicants and vagrants from entering or remaining in Ootacamund from the 23rd day of December 1900 to 21st day of January 1901, and to prescribe, as a temporary Regulation, that, during the period aforesaid, any mendicant or vagrant proceeding or reasonably believed to be proceeding to Ootacamund shall stop at such places and at the direction of such Officers and shall remain in such camps as the Collectors of the Nilgiris, Malabar and Coimbatore districts may, in their discretion, respectively appoint in this behalf.

The following Notification issued by the Government of Madras is re-published for general information :—

Whereas the Governor of Fort Saint George in Council is satisfied that there is danger of an outbreak of plague at Chidambram in the district of South Arcot if persons from the Salem district, the Mysore Province, the Hyderabad State, the Bombay Presidency and other plague-infected parts are permitted to visit that place on the occasion of the ensuing Arudradarsanam festival :

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency the Governor in Council prohibits the attendance at the said festival, from the 19th December 1900 to the 4th January 1901, both

days inclusive, of peasons from the places mentioned above and directs that between the said dates no tickets to travel by railway shall be issued within the Salem district to the railway stations of Alappakkam, Porto Novo, Kille, Chidambaram, Coleroon and Shiyale, on the South Indian Railway, to any person intending or believed to be intending to attend the festival. All pilgrims proceeding to the festival in contravention of this Notification will be turned back.

*Letter No. 1246, dated the 30th September 1900, from the Plague Commissioner in Mysore, to the Secretary to the Government of Mysore, Revenue and General Departments.*

In forwarding herewith the budget estimate of the Plague Department for the month of October 1900, amounting to Rs. 33,730-7-10, I have the honor to state that the increase over the budget for September 1900 is chiefly due to the entertainment of additional establishments owing to the enormous increase of plague cases in the Mysore City and in Bangalore, for the suppression of which stringent measures are being taken.

2. Deducting, as usual, the sum of Rs. 3,232-8-0, being the pay of Officers and subordinates of the Revenue and Medical Departments, employed on plague duty, the estimated expenditure for October 1900 will amount to Rs. 30,497-15-10.

No. Pg. 372-3, DATED BANGALORE, 18TH OCTOBER 1900.

ORDER THEREON—The budget estimate of the Plague Department for the month of October 1900 is sanctioned for Rs. 30,397-15-10, exclusive of the pay of Officers and subordinates of the Revenue and Medical Departments employed on plague duty, *viz.*, Rs. 3,232-8-0, with the observation that the subject of providing Rs. 100 for the pay of the Health Officer, Mysore City, is reserved for further consideration.

*Letter No. 1705, dated 22nd October 1900, from the Plague Commissioner in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.*

I have the honor to state that when the mandis in the old Taragupet had to be vacated in the interests of public health, 32 sheds were constructed in the new Taragupet from materials purchased from plague funds for health camps, &c., in the City and rented out to the mandidars. The President of the City Municipal Commission, submitted for sanction two estimates for Rs. 2,659 being the cost incurred in the construction of the sheds referred to and stated that the realizations from rent after paying ground rent would pay a very fair rate of interest on the outlay and that when the sheds are no longer required, the materials thereof might be sold without any appreciable loss to Government.

2. As the cost of the materials used for the sheds was Rs. 3,936 and as the collection of rent for the sheds could not be undertaken by the Plague Department, I requested the President to report whether the Municipality would bear the entire cost of the sheds, *viz.*, Rs. 6,595 and recover the rent from the mandidars.

3. The President thereupon said that the Municipality was not in a position to bear the entire cost and that if the Plague Department waived the question of the value of materials used for the sheds, the Municipality would bear the cost of their construction, *viz.*, Rs. 2,659 and credit to Municipal funds the rents that might be realized therefrom minus the ground rent due to the owners.

4. As this did not appear to me a sound proposal, I again asked the President to state whether he had any objection to credit the rent in equal shares to Government (Plague Department) and to the Municipality or whether in the event of the Government paying the cost of construction, *viz.*, Rs. 2,659 the Municipality would undertake to collect and credit to Government the rent due on account of the said sheds until they are allowed to stand and also the amount that may eventually be realized by the sale of the materials.

5. The President in accepting the latter proposal submits a statement giving the particulars of the number of sheds constructed and occupied, the rent collected and the ground rent due up to the end of September 1900, and reports that pending final orders on the subject he has advanced to the contractor who constructed the sheds in September 1899 and who pressed very hard for payment, Rs. 1,400 in part payment of his claim out of the rent collected for these sheds.

6. I have accordingly sanctioned the estimates for Rs. 2,659 for the construction of the sheds referred to and have not only authorized the Comptroller to place the amount at the disposal of the President out of funds at my disposal, but have also pointed out to the President that the procedure adopted by him in paying the contractor Rs. 1,400 out of the rents collected from the mandidars is irregular, and that he must at once adjust the amount from funds placed at his disposal for which necessary provision will be made in the budget for November 1900. The President will also be informed that when sheds are vacated and no application is received for their occupation within, say, three months, the materials thereof should be sold by public auction and the proceeds credited to a separate account "Construction of temporary mandi sheds" to be opened for the purpose.

7. I request that my action may be approved and the President of the City Municipality, Bangalore, requested to take particular care of these sheds and to maintain a separate account connected therewith and send through me to Government and also to the Comptroller a monthly demand, collection and balance statement on account of rents, &c., to be credited to Government and also the ground rent payable to the owners of sites.

No. PG. 432-4, DATED BANGALORE, 29TH OCTOBER 1900.

ORDER THEREON—The action of the Plague Commissioner as reported in the letter read above is approved.

2. The President of the Bangalore City Municipality is requested to take particular care of the sheds referred to, to maintain a separate account of the receipts from rents and to forward to Government through the Plague Commissioner as also to the Comptroller a monthly demand, collection and balance statement on account thereof. The ground rent will be paid to the owners of sites and the balance of rents collected, credited to Government.

*Proceedings of the Government of Mysore,*

No. 4873-76—Ed. F. 11-96, dated Bangalore, 1st October 1900.

Order—In modification of the existing orders and practice in regard to the award of special scholarships, for the encouragement of students of promise continuing their studies for the higher Examinations in Arts in one or other of the Colleges in Mysore, Government are pleased to lay down the following revised rules, which shall come into force from 1st January 1901.

1. Five special scholarships of the value of Rs. 10 each, and tenable for two years, will be awarded to the first five candidates who may pass the Matriculation Examination in the 1st class from Mysore Colleges and High Schools to enable them to prosecute their studies for the F. A. Examination.

2. Five special scholarships of the value of Rs. 10 each, and tenable for two years, will be awarded to the first five candidates who may pass the F. A. Examination in the 1st class from the Mysore Colleges to enable them to prosecute their studies for the B. A. Degree Examination.

3. The scholarships mentioned in paras 1 and 2 above will be awarded according to the order of merit, without reference to the circumstances of the candidates.

4. These scholarships will be continued only so long as the conduct and progress of the holders thereof are considered satisfactory by the Principal or Head Master of the College in which they are studying.

5. Should a student, who held a scholarship under Rule 1, pass the F. A. Examination in the 1st class, but be below the first five obtaining scholarships under Rule 2, and the circumstances are such that his case deserves special consideration, the Head of his College may recommend the continuance to him of the scholarship during the B. A. course. Such concession, however, will not be granted to more than one student in any year.

6. If the holder of a special scholarship for the B. A. course, fails to pass the B. A. Degree Examination at the end of two years from the time of passing the F. A. Examination, his scholarship will be discontinued, unless the Head of his College recommends the continuance of the scholarship, for one year more, on the ground that the failure was in only one of the Branches of the Examination or on other special grounds. Such concession, however, will not be granted to more than one student in any year.

*The following letter from the Inspector General of Education in Mysore, No. 301—10, dated 13th July 1900.*

I have the honor to inform you that the Hindustani Department of the Mysore Normal School has not a competent staff of teachers and much of the teaching work, I regret to say, is done in an unsatisfactory manner. The want of a Hindustani teacher of Agriculture and Hygiene has been long felt. After advertising and making enquiries in two Presidencies, only one Mahomedan named Shaik Mastan Sahib was found, who had obtained the diploma of the Agricultural College, Saidapet, but Government were not pleased even after repeated requests to sanction a pay of Rs. 50 which he demanded, and therefore the work of teaching Agriculture and Hygiene has been temporarily entrusted to a local man on Rs. 15, who has passed only the Upper Secondary Examination. It is no wonder that he has not given satisfaction in preparing candidates for the same examination. It is not possible now to induce Shaik Mastan Sahib to accept even Rs. 50 a month as he asks that his pensionable service under the Madras Government extending over more than eight years may be taken over by the Mysore Government. Under these circumstances, I request that Government may be pleased to sanction a place of Rs. 30 rising to Rs. 50 in Class D I for the Hindustani teacher of Agriculture, Hygiene and other subjects and that either a Mahomedan, who has passed the F. A. Examination may be appointed on the minimum pay of Rs. 30 of the class or a Mahomedan graduate may be appointed on the maximum pay of Rs. 50 of the same class. A teacher, who has received University education will work up the special subjects entrusted to him and give satisfaction.

2. There is also in the Hindustani Department of the Normal School an Assistant Master on Rs. 12. This pay was originally given as an allowance to the Munshi of the Maharaja's College for teaching for an hour or two a day in the Normal School. This arrangement having been found inconvenient a full-time teacher on Rs. 12 was subsequently appointed. This teacher has failed to give satisfaction. It is necessary to raise the pay to Rs. 20 so that a competent person may be employed.

3. The financial effect of the above proposals is as follows :—

| *Sanctioned.* | *Proposed.* |
|---|---|
| A temporary teacher of Agriculture and Hygiene, Rs. 15. | An F. A. or B. A. Teacher in Class D I., Rs. 30 rising to Rs. 50, the F. A. Teacher to begin on Rs. 30, the B. A. Teacher on Rs. 50. |
| An Assistant Master on Rs. 12. | An Assistant Master on Rs. 20. |

The increased expenditure proposed is absolutely necessary to obtain efficient teaching. It is requested that Government will be good enough to sanction it from 1st July 1900.

No. 4911-12—ED. F. 27-96, DATED BANGALORE, 4TH OCTOBER 1900.

ORDER THEREON—The proposals made in the letter read above are approved, and the additional cost of Rs. 516 required has been provided for in the Village School Fund budget of the current year. The Inspector General will be requested to report whether the services of a Mahomedan graduate or F. A. have been secured for the Normal School, Mysore.

The Comptroller to the Government of Mysore.

READ —

Letter No. 952-51, dated 13th July 1910, from the Inspector General of Education in Mysore, submitting the Village School Fund budget estimates for the year 1900-1901, with an Explanatory Memorandum.

*Inspector General's Memo on the Village School Fund Budget Estimates for the Official year 1900-1901.*

## RECEIPTS.

The twenty-four per cent of the Local Cess allotted to Education is estimated at Rs. 2,00,000 for the current official year which is the same as for the past year. There is no prospect of the receipts from Schooling fees and Examination fees rising above the estimates of last year. These estimates are accordingly adopted for the current year also. The interest on the invested surplus and the contributions from Municipal Funds payable towards the cost of Anglo-Vernacular Schools under Government Order C. No. 309-25, (Educational) dated the 2nd March 1894, and towards the cost of Vernacular Schools under Government Order C. No. 11-20—L. F. 116-93, dated the 12th October 1894, remain the same as for last year. The contribution from State Funds is set down at Rs. 8,462 which is Rs. 150 more than for 1899-1900, owing to an increase in the expenditure of the Government Normal School, Mysore, of which half the cost is borne by the State Funds. The private contributions towards the cost of Anglo-Vernacular Schools opened in villages, which are credited to the Village School Fund amounts to Rs. 690. Thus the total estimated receipts of the Village School Fund for the current official year amount to Rs. 2,34,156 against Rs. 2,33,916 for 1899-1900.

## EXPENDITURE.

2. The following table summarizes the expenditure from the Village School Fund for the past and current official years under the principal heads of the budget and shows a decrease of Rs. 33,799 from the estimates of the past year:—

| No. | Heads of Expenditure | Estimate for 1899-1900. | Estimates for 1900-1901. | Difference. |
|---|---|---|---|---|
| | | Rs | Rs. | Rs. |
| I | Instruction ... ... ... ... | 2,00,734 | 2,00,728 | —6 |
| II | Grants-in-aid ... ... ... ... | 4,020 | 5,240 | +1,220 |
| III | Special Instruction ... ... ... ... | 20,342 | 20,630 | +288 |
| IV | General ... ... ... ... | 58,152 | 23,242 | —34,910 |
| V | Local Examinations ... ... .. ... | 10,671 | 10,280 | —391 |
| | Total ... | 2,93,919 | 2,60,120 | —33,799 |

3. *I. Instruction.*—A local allowance of Rs. 3 was sanctioned by Government Order No. 6354-5—Ed. 231, dated the 2nd December 1899, for each of the two teachers in the School at Marikanave sanctioned by Government Order No. 2161-2—Ed. 84, dated the 17th August 1899, and the local allowance of a teacher in the Bowringpet taluk has been raised from Rs. 2 to Rs. 3 by Government Order No. 8714-15—Ed. F. 46-96, dated the 27th January 1900, at a total cost of Rs. 84 a year. A sum of Rs. 84 being the amount of house-rent and contingent allowances included in Rs. 10,476 provided for new schools in last year's budget, and a further sum of Rs. 6 being the amount of contingent allowance sanctioned for the Girls' School at *Anavatti* out of the unutilized balance of Rs. 244 in the budget have been transferred to the head "General" under which house-rent and contingent allowances are provided. There is thus a decrease of Rs. 6 under the head "Instruction."

4. *II. Grants-in-aid.*—The Grants-in-aid of Indigenous Schools and Night Schools are entered at the same figure as in the budget for 1899-1900. But a larger provision will probably be required in 1900-1901. And it is hoped Government will be good enough to sanction any increase that may be required from the cash balance to the credit of the Village School Fund. The provision for the Grant-in-aid of the Students' Home attached to the Government Normal School, Mysore, also remains the same as in last year. The following monthly grants amounting to Rs. 1,700 have been either renewed or newly sanctioned and account for the increase of Rs. 1,220 under this head:—

Rs. 240 Amount of grant at Rs. 20 a month sanctioned in aid of the Anglo-Vernacular School at Sosale by Government Order No. 2819-20—Ed. 99, dated the 29th August 1899.

Rs. 240 Amount of grant at Rs. 20 a month in aid of the Anglo-Vernacular School at Sravanabelagola renewed by Government Order No. 7448-49—Ed. 264, dated the 26th December 1899.

Rs. 360 Amount of grant at Rs. 30 a month in aid of the Anglo-Vernacular School at Masti renewed by Government Order No. 7450-1—Ed. 265, dated 26th December 1899.

Rs. 180 Amount of grant at Rs. 15 a month sanctioned for the Sanskrit School at Aghalya by Government Order C. No. 151-2, dated the 18th June 1900.

Rs. 360 Amount of grant at Rs. 30 a month sanctioned for the Anglo-Vernacular School at Manchenahalli by Government Order No. 294-9, dated the 12th July 1900.

Rs. 320 Amount of remuneration to the Magic Lantern Exhibitor for eight months at Rs. 40 a month sanctioned by Government Order No. 11036-37—Ed. 454, dated 5th April 1900.

Total ... 1,700

5. *III. Special Instruction.*—The increase of Rs. 288 under "Special Instruction" is due to the periodical increments of the Head Master and certain Assistant Masters of the Government Normal School, Mysore, and the Head Master of one of the District Normal Schools.

6. *IV. General.*—There is a decrease of Rs. 34,910 under "General" caused by the provision for school buildings being reduced from Rs. 40,000 specially sanctioned for last year by Government Order No. 1948-49—Ed. F. 3-96, dated 11th August 1899 to Rs. 5,000 and the provision for rent and contingencies being increased by Rs. 90 which is made up of the house-rent and contingent allowances sanctioned for the new schools referred to in para 3 above.

7. *V. Local Examinations.*—A sum of Rs. 391 was sanctioned by Government Order No. 11519-20—Ed. F. 29-96, dated the 17th April 1900, in addition to the provision of Rs. 7,940 for Examination contingencies and fees to Examiners in the budget for last year. This amount has been struck out and Rs. 7,940 entered for 1900-1901. There is, therefore, a decrease of Rs. 391 in the Expenditure under this head.

*Charges included in the budget for final orders.*

8. The following charges are entered in the budget for final orders :—

(1) Rs. 4,464 included with reference to Government Order No. 11765—Ed. F. 23-96, dated the 24th April 1900, for increasing the pay of Probationary Teachers.

(2) Rs. 432 included with reference to Government Order No. 11513—Ed. 481, dated the 17th April 1900, for appointing a writer and two menial servants to each of the District Normal Schools.

(3) Rs. 303 included with reference to Government Order No. 11624-25—Ed. F. 50-96, dated the 20th April 1900.

Total Rs. 5,199

No. 4914-15—Ed. F. 3-96, dated Bangalore, 4th October 1900.

Order thereon—In the Village School Fund budget for 1900-1901 as submitted by the Inspector General of Education with the letter read above, the Receipts and Expenditure are estimated as follows :—

| | Sanctioned estimates for 1899-1900 | Proposed estimates for 1900-1901. | Difference. | |
|---|---|---|---|---|
| | | | Decrease. | Increase. |
| | Rs. | Rs. | Rs. | Rs. |
| Receipts ... ... ... ... | 2,33,316 | 2,34,156 | ..... | 840 |
| Expenditure ... ... ... ... | *2,93,919 | 2,60,120 | 33,799 | ..... |

*A sum of Rs. 391 was sanctioned in Government Proceedings No. 11519-20—Ed. F. 29-96, dated 17th April 1900 to supplement the usual provision for "Local Examination contingencies and Fees to Examiners." This has raised the total budgetted amount on the expenditure side for the past year to Rs. 2,93,919.

*Receipts.*

2. (*a*) In the circumstances stated by the Inspector General in para 1 of the Explanatory Memo, the increase of Rs. 150 estimated under the head "VI, Contribution from the State Funds" and Rs. 690, being the amount of contribution received from the people towards the cost of certain Anglo-Vernacular Schools opened in villages and credited to the Village School Fund—*vide* separate head VII, newly opened—are accepted. The estimates under the other heads which show no variation from those of the past year will also stand.

(*b*) A sum of Rs. 708 will be added to the Inspector General's estimate, being the moiety payable from the Provincial Funds towards the additional charges, sanctioned herein for Normal Schools [*vide* para 3 c (2), *d* (1) and (2)].

*Expenditure.*

3. (*a*) The amount estimated by the Inspector General under "Expenditure" is Rs 2,60,120. This provides for the usual charges and will accordingly be retained.

(*b*) To the above a sum of Rs. 564 has been added :—

(1) Rs. 240 on account of grants-in-aid sanctioned for the Anglo-Vernacular School at Nagar. (*Vide* Government Order No. C. 208-9, dated 23rd June 1900). This new charge does not seem to have been provided for by the Inspector General; and

(2) Rs. 324 on account of Local allowances sanctioned in Government Proceedings No. 3455-56—Ed. F. 46-96, dated 4th September 1900. (Item sanctioned since the submission of the budget to Government.)

(*c*) The following additional charges which were reserved for final orders of Government are sanctioned and provided for :—

(1) Rs. 4,548. The annual provision required to raise the pay of 25 teachers in Taluk Branch Schools and of the 161 teachers in Hobli Schools, from Rs. 5 to Rs. 7 each per mensem, as also that of the 7 peons from Rs. 4 to 5 each per mensem, amounts to

Rs. (379×12) 4,548 per annum (*vide* correspondence ending with the Inspector General's letter No. 9519—444, dated 5th April 1900 and Government Order No. 11765—Ed. F. 23-96, of the 24th Idem). The sum of Rs. 4,464 noted for this purpose in para 8 of the Explanatory Memo apparently excludes the provision for giving increases to the seven peons above referred to. The Inspector General is requested to furnish direct for the information of the Comptroller a nominal roll of the teachers and peons whose minimum pay will thus be raised, respectively, to Rs. 7 and Rs. 5.

(2) Rs. 432. The provision required for the marginally noted establishment sanctioned for each of the District Normal Schools at Kolar and Shimoga (*vide* the Inspector General's letter No. 9465—439, dated 4th April 1900, and Government Order No. 11513—Ed. 481, dated 17th Idem).

| | | |
|---|---|---|
| 1 Writer on Rs. 12 rising to Rs 15 after an approved service of three years. | | |
| 1 Sweeper ,, | 1 | |
| 1 Scavenger ,, | 2 | |
| Total ... | 18 | per mensem |
| 2×18×12 | 432 | per annum. |

(3) Rs. 303. On account of house-rent and contingent allowance required for certain schools as per details given in the Statement A appended (*vide* the Inspector General's letter No. 9520—445, dated 3rd April 1900, and Government Order No. 11624-25—Ed. F. 50-96, dated 20th Idem.)

Total Rs. ... 5,283

(*d*) There are, besides, certain new and special charges sanctioned on separate references, and these have been included in the budget as per details given below:—

(1) Rs. 516 being the additional provision required for the two new teachers sanctioned for the Normal School, Mysore, (*vide* Government Proceedings No. 4911-12—Ed. F. 27-96, dated 4th October 1900.

(2) Rs. 468 required during the current year for the opening of two Moulvis' classes in the Normal School, Mysore, (*vide* Government No. 4909-10—Ed. F. 27-96, dated 4th October 1900.

(3) Rs. 20,000 being the special provision sanctioned in Government Proceedings No. 4907-8—Ed. F. 20-96, dated 4th October 1900, on account of building works to be provided for during the current year.

Total Rs..... 20,984

Thus the total amount of expenditure sanctioned for the year 1900-1901, comes up to Rs. 2,86,951 which exceeds the estimated receipts by Rs. 52,087. This will be met out of the interest accruing on the invested surplus of the Village School Fund. The Government desire, however, that this course should

be avoided as far as possible and the Inspector General will accordingly be informed that all practicable savings should be effected in the sanctioned items of expenditure so that the same may not, in the aggregate, exceed the actual receipts of the Fund.

4 With the foregoing remarks the Village School Fund budget estimates for 1900-1901 are sanctioned as per accompanying appendices of which an abstract is, given below :—

*Letter No. 1076—59, dated 1st August 1900, from the Inspector General of Education in Mysore.*

I have the honor to submit herewith a statement of building works to be provided for in the Village School Fund budget of 1900-1901. The statement includes buildings sanctioned last year by Orders No. 7069-7—Ed. 20-69, dated 20th December 1899, and No. 8921-2—Ed. F. 20-96, dated 1st February 1900, but not finished or not taken in hand at all. The buildings sanctioned by the second of the above two Orders have not been taken in hand at all, because, after the adoption of the standard plans and estimates was authorized by Government Order No. 6719-20—Ed. F. 20-96, dated 12th December 1899, the plans had to be lithographed and the estimates printed. This process was not completed till about the 29th March 1900. It was only then possible to inquire if the Deputy Inspectors would undertake to carry out the works. After considerable delays most of the works were at last entrusted to the Public Works Department, only a few having been undertaken by the Deputy Inspectors in the Bangalore, Hassan and Kadur districts. A new difficulty has lately arisen in carrying out the works. The estimates of the Standard Village School Buildings prepared by Mr. Karve, and approved by the Chief Engineer, have been found to be unsuited to the prevailing rates of materials and wages in the districts of Kolar, Tumkur, Chitaldrug, Shimoga and Mysore. Revised estimates of larger amounts have been recently sent to me which will be shortly submitted for fresh sanction. For the same or similar reasons works costing Rs. 9,595, sanctioned under the IV Head by para I of Order No. 7096-7—Ed. F. 20-96, dated 20th December 1899, have not been commenced yet. These delays have occurred in spite of my constant vigilance on account of the numerous formalities necessary to be gone through. All village school buildings which it was proposed to construct according to the standard designs during the last official year have therefore to be freshly provided for this year. To the list of these buildings a few others urgently required have been added. The building works proposed to be taken in hand at once are estimated to cost, during the current year, a total sum of Rs. 57,265, of which Rs. 1,000 will be met from public subscriptions collected for the Nagar Kannada Girls' School. To this should be added a sum of Rs. 3,000 required for minor works and repairs.

2. Under the above circumstances, I recommend a provision of Rs. 45,000 for buildings to be made in the Village School Fund budget for 1900-1901. Of this sum, Rs. 5,000 will be the usual provision and the remaining Rs. 40,000 will be payable from the cash balance to the credit of the Village School Fund. I need hardly add anything about the great want of proper accommodation existing in every district, even in those villages where the people have contributed more than Rs. 100 to the cost of the school building, as Government are fully aware of it.

No. 4907-8—Ed. F. 20-96, DATED BANGALORE, 4TH OCTOBER 1900.

ORDER THEREON—The provision for buildings proposed by the Inspector General will be reduced to Rs. 25,000 (inclusive of the normal provision of Rs. 5,000) with the remark that he is at liberty, on this provision being exhausted, to apply to Government for a further grant.

2. A list showing the works and the amount of appropriations proposed therefor out of the special provision sanctioned above will be submitted for final orders. Government trust that in the selection of such works due discretion will be used in providing buildings for only such schools as have passed the stage of uncertainty and established themselves in such a way as to give unmistakable evidence of their permanency.

*Letter No. 398—14, dated 13th July 1900, from the Inspector General of Education in Mysore.*

I have the honor to inform you that a Lower Secondary Class and two Upper Secondary Classes for Mahomedans are maintained in the Normal School, Mysore, but there are no classes for Maulvis or Munshis corresponding to the two classes for Kannada Pandits. The institution of such classes is necessary for the encouragement of high proficiency in Hindustani and Persian Language and Literature, and for providing a suitable course of education for those seeking the place of Munshis in the Local Colleges and High Schools. In the absence of an examination for Maulvis corresponding to the examination for Kannada Pandits, when the place of a Munshi has to be filled, I have at present to depend on the recommendations of the Deputy Inspector of Hindustani Schools and the Mahomedan members of the Local Examination Board. The local supply of men well versed in Hindustani and Persian Literature has almost been exhausted, and it will be difficult to find men to fill the post of Munshis in future unless an examination for Maulvis is instituted at an early date and instruction provided by the opening of two Maulvis' Classes in the Normal School, Mysore. The scheme of the examination and curriculum of the classes have been partly discussed by me and will be settled finally at an early date, if Government are pleased to sanction the funds necessary for the opening of the classes. The Maulvis, like the Kannada Pandits, when they are not required for service in Colleges and High Schools, will make good Head Masters of Taluk Vernacular Schools.

2. The institution of an examination for Maulvis is beneficial in another respect. At present, Arabic has been entirely neglected in the curricula of Hindustani Schools in Mysore, though it forms part of the curriculum of even Primary Schools in the Punjab and North-West Provinces. This defect cannot be supplied unless teachers of Arabic can be found. The institution of an examination for Maulvis will give an impulse to the study of Arabic, which stands in almost the same relation to Hindustani as Sanskrit does to Kannada, and render the introduction of Arabic into the school curricula possible.

3. Under these circumstances, I recommend that Government may be pleased to sanction the following increased charges for the establishment of two Maulvis' Classes in the Normal School, Mysore, from 1st January 1901 :—

A teacher on Rs. 30 rising to Rs. 45
in Class II of Pandits and Munshis, or Rs. 360 in the first year.
A teacher on Rs. 20 rising to Rs. 30
in Class III of Pandits and Munshis, or Rs. 240 in the first year.
4 Scholarships at Rs. 7 each in both the
VIII and IX Classes, *i. e.*, Rs. 56 × 12 = Rs 672

Rs. 1,272

As the proposed classes can be opened only from January 1901, provision will be necessary in the budget of 1900-1901 only for six months during which the VIII Class alone will be at work. This provision will amount to Rs. 180+120+168 or Rs. 468 in all. I request that this amount of Rs. 468 may be sanctioned in the Village School Fund budget of 1900-1901. I may add that half the cost of the Mysore Normal School is paid as a contribution from the State Funds to the Village School Fund and is entered in the Receipts side, while the whole cost of the Normal School is provided in the Village School Fund on the Expenditure side.

4. The candidates for admission to the Maulvis' Classes will be required to have passed the Upper Secondary Examination, which will be a guarantee of their general education.

5. I am a little uncertain whether to call the passed Munshis, Maulvis or Munshis Fazil. But that is a matter of detail which will be settled hereafter.

6. If Government are pleased to sanction the above proposals as well as those for improving the pay and status of two Hindustani Teachers in the Mysore Normal School which were made in my letter No. 301—10, dated 13th July 1900, a great impulse will be given, at a moderate cost, to Hindustani education throughout the Province.

**No. 4909-10—Ed. F. 27-96, dated Bangalore, 4th October 1900.**

ORDER THEREON—The proposal to open two Maulvis' Classes in the Normal School, Mysore, to meet the requirements indicated in the letter read above commends itself to Government and is accordingly sanctioned. The early submission of the further details promised by the Inspector General will be awaited. A provision of Rs. 468, has been made in the budget, as recommended, to meet a portion of the additional cost involved, full provision being made in the next and subsequent budgets.

*The following letter No. 1716—87, dated 21st August 1900, from the Inspector General of Education in Mysore.*

I have the honor to inform you that the Educational Translator has at present to spend some time every day in correcting proofs, making fair copies for the Press and similar work, which would be saved if a Clerk and Proof Reader on Rs. 20 a month was given to him. The Clerk would also act as Librarian of the Educational Library which is at present located in the Government Press. I recommend that Government may be pleased to sanction the employment of a Clerk and Proof Reader on Rs. 20 to work under the Kannada Translator to the Education Department.

No. 5168-69—ED. 191, DATED BANGALORE, 12TH OCTOBER 1900.

ORDER THEREON—Under the circumstances reported in the letter read above, Government are pleased to sanction the employment of a Clerk and Proof Reader on Rs. 20 to work under the Kannada Translator to the Education Department, the charge for the current year being met from the General Savings in the Education Budget and due provision made therefor in the future budgets.

*Proceedings of the Government of Mysore,*

READ—

Report on the Administration of Police in Mysore for the year 1898-99, received with Docket No. 2455-198, dated 22nd December 1899, from the Inspector General of Police in Mysore.

**No. 4925—J. 504, DATED BANGALORE, 5TH OCTOBER 1900.**

ORDER THEREON—*Reported Crime.*—The total number of cognizable cases reported to the Police during the year under review was 5,517 or 629 cases less than that for the preceding year. This marked decrease is attributed to the influence exercised on the Criminal classes by dread of the plague which prevailed during the year in many parts of the State, and by the vigilant check placed on their movements by the Police out-posts established with a view to prevent the spread of infection. Of the more important classes of offences 35 true cases of rioting, 58 of murder (the highest number on record during the past ten years) 29 of dacoity and 28 of robbery were reported to the Police during the year and convictions were secured in 30, 20, 12 and 15 cases, respectively. Nine of the rioting cases reported were serious and occurred in connection with plague preventive measures. The dacoities reported, none of which was by torch-light, were all of the ordinary kind and mostly trivial in their nature. There were no cases of organized robbery by foreign gangs of the Criminal classes, the offenders in the cases reported being local bad characters.

2. *General Results of Police Work.*—The following statement shows the general results of Police work during the year as compared with the results of the preceding seven years :—

| | 1891 | 1892-93 | 1893-94 | 1894-95 | 1895-96 | 1896-97 | 1897-98 | 1898-99 |
|---|---|---|---|---|---|---|---|---|
| I. Percentage of Police cases ending in conviction to cases investigated. | 32·74 | 32·26 | 29·31 | 25·86 | 34·66 | 35·8 | 35·6 | 38·1 |
| II. Percentage of persons convicted in Police cases to persons sent up for trial. | 51·8 | 56·88 | 55·77 | 51·05 | 57·19 | 51·0 | 55·3 | 55·4 |
| III. Percentage of property recovered (Rs *63,151) to property lost (Rs. *1,47,861). | 35·69 | 27·97 | 30·005 | 35·62 | 46·12 | 41·7 | 33·9 | *42·6 |

Government are glad to observe that the results achieved were the best for the last eight years as regards the percentage of cases ending in conviction, while the percentages under the Heads II and III above, were also fairly satisfactory. The results on the whole, reflect credit on the Police, who are reported to have had much additional work of a harassing nature thrown upon them in consequence of the plague.

3. *Village Police.*—The number of cases in which arrests were made was 77 involving 122 persons against 99 cases involving 126 persons in the previous year. In 55 of them involving 82 persons, convictions were secured against 70 cases involving 107 persons in 1897-98. The village Police are reported to have done good work and rendered valuable help to investigating officers which was recognized by rewards.

4. *Regular Police.*—The strength of the Regular Police Force sanctioned for the year 1898-99 was 5,828 against 5,817 in the previous year. Eight hundred and twenty three Officers or 97·7 per cent and 2,176 men or 47·8 per cent, are reported as literate.

The percentage of departmental punishments to total force was 22·1 against 20·1 in the previous year.

The percentage of Judicial punishments, a large number of which were for breaches of Police Rules, has also risen from ·4 to ·73 and is the highest for the last 5 years. These increases are reported to be due to the necessity of maintaining discipline during the trying times of plague.

One hundred and thirty Police men were given money rewards from budget grants of Rs. 320-11-2 in all, against 138 Police men and Rs. 544 in the previous year. The total budget grants under this head amount to Rs. 880 and the Government are disposed to endorse the disappointment expressed by the Inspector General that the District Officers have not made a larger use of this means of encouraging meritorious service.

5. *Inspection.*—The Inspector General of Police toured through all the districts and spent 110 days out in camp on inspection duty. The Deputy Commissioners of Shimoga, Chitaldrug and Mysore have also done a fair amount of touring; among Police Superintendents Messrs. Hay and Haudin have done the best. The work of some of the other District Police Officers is susceptible of much improvement. With the above remarks the Inspector General's report will be adopted and duly published.

Letter No. 6914-235, dated the 28th June 1900, from the Registrar of the Chief Court of Mysore, submitting, for orders, certain proposals for establishing a Subordinate Judge's Court at Hassan, and investing the Presiding Officer with the powers of a Subordinate Judge over the districts of Hassan and Kadur and of an Additional Sessions Judge with jurisdiction over the same two districts.

No. 4928-9—J. 506, DATED BANGALORE, 6TH OCTOBER 1900.

ORDER THEREON—In modification of the proposals contained in the above, the Government are pleased to direct, under Sections 7 and 9 of the Code of Criminal Procedure and Sections 4 and 5 of the Mysore Civil Courts Regulation, 1883, that a new Court of Session and District Court, with criminal jurisdiction over a Sessions Division, comprising the Revenue Districts of Hassan and Kadur, and civil jurisdiction over the same two Revenue Districts, be established at Hassan, with effect from the 1st November 1900, the existing jurisdictions of the Ashtagram and Nagar District and Sessions Courts being altered accordingly.

2. The Subordinate Judge's Court at Shimoga will be abolished, with effect from the same date.

3. Mr. S. R. Subbaraya Iyer, the Senior Subordinate Judge will be appointed District and Sessions Judge of the last class and posted to the charge of the new District and Sessions Court at Hassan. Towards his pay will be available that of a 1st Class Subordinate Judge under the existing scale (Rs. 600) plus the amount of the local malnad allowance (Rs. 100) set free by the abolition of the Shimoga Sub-Court.

4. Mr. P. Singrachar, Sub-Judge, will be transferred from Shimoga to Mysore.

5. The existing Sub-Court establishment at Shimoga will be transferred to Hassan and attached to the District and Sessions Court of that place; any additional establishment, clerical or process-serving, that might be required being provided for, without any additional cost to Government, by the Chief Court arranging for the transfers of existing hands from the Ashtagram and Nagar District and Sessions Courts, as there will be a material reduction of work in both those Courts under the present arrangement.

Correspondence ending with letter No. 4384—367, dated the 29th May 1899, from the Inspector General of Police, regarding appointment of a Prosecuting Inspector or Pleader for prosecuting criminal cases in the Sagar sub-division, Shimoga district.

No. 4926-27—J. 505, DATED BANGALORE, 6TH OCTOBER 1900.

ORDER THEREON—Government consider that a Prosecuting Inspector is preferable to a Pleader, as the former may, in addition to his duties as such, be also usefully employed as a Police Officer under the orders of his official superior. They are accordingly pleased to sanction the employment of a Prosecuting Inspector on Rs. 50 + 15, tentatively for the remaining period of the year, at the end of which the District Magistrate will report the number, nature and results of the cases prosecuted by the Inspector, with his own opinion as to the necessity or otherwise for continuing the appointment.

2. The person to be appointed will, it is hoped, be one who has duly qualified himself for this responsible work by passing the prescribed Criminal Tests.

*Letter No. 2107—54, dated 19th September 1900, from the Registrar of the Chief Court of Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.*

In forwarding the accompanying letter No. 274—30, dated 13th instant from the District Magistrate of Shimoga to your address, submitting for perusal, copy of Judgment in Criminal Case No. 36 of 1900-1901 on the file of the 1st Assistant Commissioner and 1st Class Magistrate of Shimoga, and stating that a Reformatory for the benefit of juvenile offenders should be established at Shimoga, I am directed to invite your attention to the remarks of the Chief Judge, noted on the margin of the letter, to the effect that as separate accommodation is provided for juveniles in the Bangalore Central Jail, to which they could be transferred, and as there are hardly sufficient juvenile offenders in this Province, the establishment of a separate Juvenile Reformatory, does not seem to be a necessity.

No. 5065-74—J. 532, DATED BANGALORE, 10TH OCTOBER 1900.

ORDER THEREON—The Government agree with the Chief Judge in the opinion that the necessity has not arisen for the establishment of a separate Juvenile Reformatory at Shimoga as recommended by the District Magistrate. The existing accommodation for juvenile offenders, provided in the Central Jail, Bangalore, is understood to be sufficient to meet all present requirements. Article 151 of the Mysore Jail Manual lays down the conditions under which such prisoners are to be sent to the Central Jail, the sanction of the Inspector General of Prisons being obtained to give effect to their transfer as required by Article 608 of the same Manual. The District Magistrates will regulate their action accordingly.

*Letter No. 805, dated 18th August 1900, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments, Bangalore.*

In forwarding the enclosed letter No. 3, dated 15th August 1900, received from the Medical Officer, Central Jail, Bangalore, together with the report of the case of small-pox, I have the honor to strongly recommend that to prevent recurrence of the kind, the Jail Rules be so altered as to require every new admission to be vaccinated. The operation takes about half a minute, the value of the material used is of no account; so, if the vaccination does not "take," the loss in time and material will have been small, while, if it does "take," the advantage will have been immense.

ENCLOSURES.

(1) In reply to your docket No. 630, dated 11th instant, I have the honor to state that the convict had been in the Jail two months and fourteen days before he was attacked with small-pox and that he had never been vaccinated either before or after his imprisonment. He bore marks of small-pox at the time of his admission.

The rule is to vaccinate every convict on admission unless he is old or of very short term (within a month) or bears distinct marks of successful vaccination.

It was an omission on the part of the Medical subordinate that this man was not vaccinated on admission; he, being new to the work, did not know the rule. His attention has now been drawn to it.

(2) Extract from the Annual Medical and Sanitary Report of the Central Jail for 1899-1900:—

A case of small-pox and chicken-pox were also treated during the year which ended in recovery. The prisoners contracted the disease while working outside. They were isolated and the usual precautionary and preventitive measures were adopted.

No. 5278-79—J. 550, DATED BANGALORE, 13TH OCTOBER 1900.

ORDER THEREON—As recommended by the Senior Surgeon and Sanitary Commissioner, the Government are pleased to prescribe the following Rules so as to legalize the vaccination of prisoners on admission into Jail:—

I. Every prisoner received into Jail whether under sentence, detained on requisition of security, or committed for trial, shall be vaccinated on admission or as soon afterwards as possible without reference to his own wishes. Provided that prisoners who, on admission, show clear marks of recent successful vaccination, need not be re-vaccinated.

II. A Register in the form subjoined shall be kept by the Medical Officer, in which shall be entered every case of vaccination, showing the success or otherwise of the operation. When not successful, and when failure is not attributed to immunity arising from previous vaccination, or from the patient having had small-pox, the operation shall be repeated. All attempts to evade the operation of the vaccine *virus* shall be brought to the notice of the Superintendent for punishment, and the labor and diet of prisoners vaccinated may be regulated so as to favor the action of the *virus*.

I have the honor to request you will be so good as to obtain the sanction of Government, under Section 22 of the Mysore Legal Practitioners' Regulation III of 1884, to the enclosed addenda to Civil Rule of Practice No. 91, dated 2nd August 1897.

The scale of fees under para 1 of the Rule is inadequate in cases of small value. The Judges consider that the fee awarded by a decree should bear a reasonable proportion to what is fairly payable by a suitor to his legal adviser. The first addendum provides for minimum fees in the different Courts.

In the other, provision is made for the grant of fees in execution cases.

## *Proceedings of the Government of Mysore,*

READ THE FOLLOWING PAPERS—

*Letter No. 2543—439-99, dated the 28th May 1900, from the First Assistant to the Resident in Mysore.*

I am directed to call the attention of the Durbar to an apparent defect in the Bangalore Municipal Regulations of 1871.

2. When tolls were recently imposed by the Municipal Commission of the Civil and Military Station of Bangalore, vehicles and animals registered or licensed by the Bangalore City Municipality were exempted from tolls, as the result of a mutual understanding between the two Municipalities that the vehicles and animals registered or licensed by the one should be exempt from payment of tolls when entering the limits of the other. Section 46 (2) of the Bangalore Municipal Law, 1897, is sufficient authority for this action of the Municipal Commission of the Civil and Military Station. But there seems to be no corresponding provision in the Bangalore Municipal Regulations of 1871 which are in force in the City of Bangalore. Section 51 of the latter Regulations lays down that, except the exemptions specified therein, no other exemptions from payment of the tolls shall be allowed. Colonel Robertson therefore doubts whether the City Municipality or even the Mysore Government has power under the said Regulations to give effect to the arrangement above referred to.

3. Another exemption which appears to Colonel Robertson to be desirable is that of carriages, carts and animals, the property of, or employed by, the British Government. Under the proviso to Section 49 of the Municipal Regulations of 1871, carriages, carts and animals employed by 'Government' are exempt from the payment of tolls. But it is understood that the term "Government" has been interpreted by the Bangalore City Municipality as applying to the Government of Mysore only, since it is reported that carts in the employment of the Excise Department of the Civil and Military Station carrying arrack from the Central Distillery have been obliged to pay tolls. The Durbar will observe that under the proviso to Sub-Section (b) of Section 41 of the Bangalore Municipal Law of 1897 vehicles and animals belonging to the Mysore Government are exempt from the payment of tolls in the Civil and Military Station, and the Resident has no doubt that they will see the desirability of making the Bangalore City rules reciprocal in this respect.

4. In order to legalize the exemptions above indicated, it appears to the Resident desirable to amend the City Municipal Regulations of 1871 by the insertion of a general provision such as that to be found in Section 46 (2) of the Bangalore Municipal Law, 1897, empowering the Municipal Commission and the Government to exempt classes of persons or descriptions of property from the payment of tolls or taxes whenever the necessity for such exemption may arise. If the Durbar concurs in this view I am to ask that a draft of the amending Regulation necessary may be prepared as soon as possible and forwarded to this office for submission to the Government of India.

*(2). Letter No. 787—Legis. 11, dated the 18th July 1900, from the Secretary to the Government of Mysore, General and Revenue Departments, to the First Assistant to the Resident in Mysore.*

Adverting to your letter No. 2543, dated the 28th May 1900, calling attention to a defect in the Municipal Regulations of 1871, in regard to the competency of the Municipal Commissioners to grant exemptions from taxation, I am directed to state that the Durbar concur as to the necessity for amending the Regulations on the lines suggested by the Hon'ble the Resident. I am accordingly to forward a draft of an amending Regulation for submission to the Government of India for approval.

2. The new provision, it will be noticed, takes the place of the existing Section 35, which is proposed to be omitted as obsolete. Also the words proposed to be omitted from Section 51 of the Regulations are inconsistent with the enlarged power now taken.

(3). Letter No. 4759, dated the 18th September 1900, from the First Assistant to the Resident in Mysore, communicating the sanction of the Government of India to the Draft Regulation to further amend the Municipal Regulations of 1871.

No. 4998-5000—Legis. 39, dated Bangalore, 10th October 1900.

Order thereon—Ordered that the Draft Regulation to further amend the Municipal Regulations of 1871, which received the assent of Her Highness the Maharani-Regent on the 7th October 1900, be promulgated.

Letter No. 86, dated the 30th July 1900, from the President of the District Fund Board, Kadur, submitting the explanation called for in Government Proceedings No. 13407 -12—L. F. 46-99, dated the 18th June 1900, in regard to the District Fund budget estimates of the Kadur Circle for 1900-1901.

2. Also letter No. 4126, dated the 6th September 1900, from the Chief Engineer in Mysore, expressing his opinion in connection with the President's proposal to reduce the mileage allotments of certain roads.

No. 4982-5—L. F. 46-99, DATED BANGALORE, 10TH OCTOBER 1900.

ORDER THEREON—*Receipts, VII. Contribution.*—The marginally noted details are furnished for receipts under this head. It is observed that three-fourths cost of the Sringeri Local Fund Dispensary is Rs. 543 and not Rs. 600 as stated by the President. The authority under, or the purpose for, which the same was raised by Rs. 57 should be quoted. Pending information, the estimate will stand.

| Para 3 of Government Proceedings. | Para 2 of President's letter. Rs. |
|---|---|
| 1. ¾ cost of Sringeri Dispensary ... ... | 600 |
| 2. Contribution recovered from planters for a road to coffee estates through the bed of Dalvoykere tank in the Tarikere taluk. | 525 |
| 3. Other miscellaneous receipts ... ... | 75 |
| Total ... | 1,200 |

2. *Explanation.*—The President proposes that the mileage allotment of the Shimoga-Yadahalli road, lying in the Kadur district, may be reduced from Rs. 150 to Rs. 100, and that for the Chikmagalur-Yadahalli road from Rs. 80 to Rs. 60, so as to enable him to provide funds for incomplete works. The Chief Engineer, whose opinion was invited on the subject, is in favor of reducing the mileage allotment of the former road from 1st July 1901, but objects to any reduction in respect of the other road on the ground that the road will deteriorate especially on the ghat portion (8th to the 13th mile from Chikmagalur). Government concur with the Chief Engineer, whose proposals are accordingly approved. As the correct length of the former road is stated to be only 10½ miles, the provision made for it in the budget will be approved.

Para 6 of Government Proceedings. Para 3 of President's letter.

3. In the re-appropriation statement submitted by the President, the utilization of Rs. 475 from the closing balance is proposed. As this is in effect an application for a supplemental grant, and not a transfer of the sanctioned grant, the re-appropriation statement, which is herewith returned for revision and re-submission, cannot be sanctioned. The Comptroller is requested to state the actual balance at the disposal of the Kadur Local Fund Circle on 1st July 1900.

4. *III. Dispensaries.*—Pending the early submission of the information called for from the Senior Surgeon in Proceedings No. 381-85 - L. F. 144-92, dated the 12th July 1900, in regard to the grant of allowances to the Hospital Assistant at Tarikere and to the Sub-Assistant Surgeon at Mudgere for visiting places away from their head-quarters to render medical aid, the provision under this head will be retained.

Letter No. 200, dated 23rd September 1900, from the Deputy Commissioner, Hassan district, stating that as the Holeyars and Madigars of the marginally noted villages of the Saiagam hobli in the Hassan taluk, required immediate relief till the harvest season, owing to the scanty stock of food grains they had with them, he sanctioned a sum of Rs. 50 for starting a sanitary work from District Funds, and that as soon as the said amount was fully expended the earth-work to the tank at Yelagunda village, which occupied the central position amongst the group of villages referred to, was started by the Executive Engineer, but that the work did not attract as many as it did originally and promising to submit a detailed report on the matter.

ORDER THEREON—Government wish that further information promised by the Deputy Commissioner may be expedited, especially as to whether the work started by the Executive Engineer is still continued and how many work on it.

2. The report submitted in such matters should conform to the Famine Code and contain all the information required by it.

3. It is observed that in the present instance the distress seems to have been very slight and temporary and to have since disappeared.

Letter No. 162, dated 5th April 1900, from the President of the Municipal Commission, Bangalore City, submitting a copy of the Boards' Resolution of the 29th March 1900, in regard to the funds necessary for certain works of improvement.

2. Letters Nos. 3287 and 3381, dated the 1st and 8th August 1900, respectively, from the Chief Engineer, submitting communications from the Sanitary Superintending Engineer on the same subject.

No. 4916-18—L. F. 43-98, DATED BANGALORE, 5TH OCTOBER 1900.

ORDER THEREON—In their Resolution of the 29th March last, the Municipal Commissioners request Government to advance funds for the works, marginally noted, up to a money limit of two lakhs of rupees, on the ground that the present is not an opportune moment for raising a loan; and they undertake, on completion of the works in question, to repay the advance by raising a loan in the open market.

Opening out of roads and lanes in the congested parts of the Bangalore City.
Drainage scheme of the Chamarajendrapet extension.

2. The communications received from the Sanitary Superintending Engineer, read above, show that the projects are respectively estimated to cost Rs. 1,25,000 and Rs. 1,48,173, and that an expenditure of Rs. 74,054* has already been incurred on the former of them up to the end of June 1900. This expenditure, the Government observe, must, in due course, be debited to the funds of the Municipality; but the amount thereof may, for the time being, be treated as a loan.

| | Rs. |
|---|---|
| * Compensation for houses and lands | 65,125 |
| Dismantling houses and removing debris | 8,929 |
| Total | 74,054 |

3. The Government now consider it sufficient to sanction, by way of loan to the Municipality, a further advance of Rs. 25,000 (Rs. 15,000 for opening out roads and lanes, &c., and Rs. 10,000 for drainage of Chamarajendrapet), as provided for in the current year's Sanitary Works budget. The total amount which the Municipal Commissioners have to repay to Government, under the usual conditions as laid down in Government Proceedings No. 11541-50—L. F. 262-96, dated 14th April 1899, is accordingly Rs. 99,054, and the President should at once submit an agreement therefor in the prescribed form. Any additional amount required for expenditure on the purposes above specified, should, as already directed by Government, be obtained by the Municipal Commissioners by raising a loan in the open market on terms to be reported to Government for confirmation.

C. SREENIVASIENGAR,
*Secy. to Govt., Gen. & Rev. Depts.*

To—The President of the Municipal Commission, Bangalore City.
The Chief Engineer and Secretary to Government, Public Works Department, for information and for issue of instructions to the Sanitary Superintending Engineer to proceed with the works in question to the extent of the additional amount now sanctioned.
The Comptroller to the Government of Mysore.

*Letter No. 995, dated 19th September 1900, from the Plague Commissioner in Mysore.*

I have the honor to state that rewards for the destruction of rats at railway stations in the Province are being paid from Plague Funds. But as nothing is done in this direction to prevent the recrudescence of plague in the municipal towns and villages, I request the favor of your obtaining Government Orders for authorizing the Municipalities and Local Fund Boards to pay suitable rewards for the destruction of rats from funds at their disposal.

No. 5120-30—L. F. 16-1900, DATED BANGALORE, 11TH OCTOBER 1900.

ORDER THEREON—The above is forwarded to the Presidents of the several Local Fund and Municipal Boards with the observation that payment of rewards for destruction of rats is a proper charge on Municipal and District Funds.

Letter No. 265-254, dated 16th October 1899, from the Deputy Commissioner, Chitaldrug district, soliciting instructions as to whether Assistant Commissioners conducting the Jamabandi of taluks can check the Mohatarfa accounts of Municipal Towns and alter the Mohatarfa imposed at the Taluk Jamabandi.

No. 5096-5103—L. F. 15-1900, DATED BANGALORE, 11TH OCTOBER 1900.

ORDER THEREON—The Government consider it desirable that the Jamabandi Officer should check the accounts of Municipalities also, pending provision for such check to be made in the new Municipal Regulation. He may sign his orders "for President" in Municipalities in which the Amildar or Deputy Amildar is Vice-President and the Deputy Commissioner is President.

2. Deputy Commissioners will favor Government with their opinion as to whether Assistant Commissioners when placed in charge of taluks should not be made Vice-Presidents of the Municipalities of taluks included in such charge.

Letter No. 44, dated the 20th July 1900, from the President of the Municipal Commission, Mysore City, stating that the levy of tolls at two annas on every laden cart, sanctioned in Government Proceedings No. 12382-3—L. F. 64-99, dated the 15th May 1900, appears to be excessive in the case of carts bringing sand, earth and rough stones into the City, on the ground that the value of such articles is very small, and soliciting sanction to the Board's proposal to treat all such carts as unladen for the purpose of levying tolls.

2. Letter No. 24, dated 8th August 1900, from the President, Bangalore City Municipality, reporting the practice in his Municipality.

No. 5163-4—L. F. 64-99, DATED BANGALORE, 12TH OCTOBER 1900.

ORDER THEREON—It is observed that no inconvenience is felt in the Bangalore City, where the same rates prevail, and the conditions of which do not much differ from those of Mysore. Moreover, it is difficult to understand how carts *laden* with sand, earth, and rough stones can be treated as *unladen or empty carts*. Under these circumstances, the rate already sanctioned cannot be reduced as recommended.

No. 5708-10—L. F. 87-99, DATED BANGALORE, 26TH OCTOBER 1900.

ORDER THEREON—The Government are pleased to sanction, as a tentative measure, the Board's proposal to levy a water-tax at 3 per cent on the rental value of all occupied buildings and premises in the City of Bangalore, with the observation that such rate shall be liable to enhancement if, after the experience of a year, the proceeds be found insufficient to enable the Municipal Commission to meet the annual charges on account of the water-supply of the Bangalore City. The tax will be levied with effect from the current official year.

2. The attention of the Deputy Commissioners of the Bangalore, Mysore, Hassan, Shimoga and Kadur districts is drawn to the large number of darkhasts remaining undisposed of in the taluks of Kankanhalli, Chamrajnagar, Gundlupet, Malvalli, Mandya, Arsikere, Manjarabad, Tirthahalli and Mudgere. The oldest of the darkhasts which is pending in the Manjarabad taluk is dated 15th March 1892. In the statement for the previous quarter this was shown as 17th June 1892. It should be explained which of the dates is correct, and what the difficulty is in disposing of this darkhast without further delay.

3. In conclusion, Government regret to observe that since the passing of orders on the statements for the previous quarter ending 31st December 1899, there has been no improvement in the prompt disposal of darkhasts in the five districts named above.

Letter No. 271—222, dated 12th September 1900, from the Deputy Commissioner, Shimoga district, soliciting sanction to the appropriation for building purposes of the land described in the margin in the Kuruva village, kasba hobli, Honnali taluk, and stating that the villagers have no objection to its grant.

No. 3111-12—R. 1002, DATED BANGALORE, 12TH OCTOBER 1900.

ORDER THEREON—Gomal Survey Nos. 146 and 147 of the Kuruva village, respectively, measuring 34 acres and 36 guntas and 33 acres and 39 guntas were applied for for cultivation purposes by one Bhimanna. The Lambanis—who have their huts in the adjoining gomal No. 143 for the last 50 years, *i. e.*, long before the Survey Settlement—objected to the grant of these lands on the ground that it would cause much inconvenience to their cattle. The Deputy Commissioner inspected the lands in person and found that the objection of the Lambanis was reasonable and that it was not fair to grant the gomal lands without consulting the interests of these people, who are kandayam-paying raiyats of the village. In order to compensate for the loss of revenue to Government, the Lambanis were asked to take up a similar extent of assessed waste in the village for cultivation, and they accordingly applied and took possession of Survey Nos. 135 and 138 measuring in all 60¼ acres and assessed at Rs. 20-8-0, binding themselves by muchalikas that they would not relinquish these lands for a period of five years. The application of Bhimanna for Nos. 146 and 147 was thereupon rejected. The Deputy Commissioner now recommends that, as the huts of the Lambanis are reported to exist on No. 143 from a very long time, it is desirable to set apart as village site an extent of 11¾ acres (inclusive of 5 acres and 4 guntas covered up by the Lambani houses), actually required for their houses and back-yards, and accordingly submits the usual gomal statement for sanction.

2. Under the foregoing circumstances, Government are pleased to sanction the Deputy Commissioner's recommendation.

3. The propriety of accepting an obligation from these Lambanis that they will not relinquish their holdings for a period of five years is questionable, as it seems to be opposed to the provisions of the Land Revenue Code.

*The following letter No. 743—107, dated 25th April 1900, from the Deputy Commissioner, Chitaldrug District, to the Secretary to the Government of Mysore, Revenue and General Departments.*

I have the honor to submit for the orders of Government Hosdurga Deputy Amildar's Report No. 447, dated 7th December last, regarding the assessment on rice lands below the Mattod tank, Hosdurga sub-taluk.

2. The Deputy Amildar recommends that some concession be given to the holders of these lands, on account of the long time they have lain waste owing to the tank not having received any supply of water. I have visited the place several times and can vouch for the accuracy of the Deputy Amildar's statement that the lands have been waste and uncultivated, through no fault of the holders of them. The reason for this failing in the water-supply of the tank appears to be the large increase of cultivation in the valley, the surplus water of which is drained to this tank, where a very large extent of cocoanut garden has been newly formed. A very large quantity of water, which would otherwise have flowed into the tank, is thus intercepted to the detriment of the holders of land below the tank.

3. The Revenue Survey Department have revised the water classification of these lands with a view to revision of settlement and have, I am sure, taken note of the altered condition of water-supply, but the raiyats are, I beg to submit entitled to some consideration pending the introduction of the revised settlement, which, I fear, will take some time to be brought into force.

4. I beg, therefore, to recommend that half of the wet assessment on these lands be remitted, as a special case, till the revised settlement is introduced.

No. 3125-6—R. 1008, DATED BANGALORE, 12TH OCTOBER 1900.

ORDER THEREON—The Deputy Commissioner's statement is too general. It does not specify the period during which the lands have been lying waste and for what number of years, continuously, the occupants have not reaped any crop. Nor is there any information of the new classification which, as yet, is not mature for publication. On the whole, there do not appear sufficient grounds to adopt any special treatment. The Deputy Commissioner's recommendation must be negatived.

No. 3087-89—R. 992, DATED BANGALORE, 12TH OCTOBER 1900.

ORDER—It has been reported that under the Hemagiri Channel, the dam of which breached in the recent floods, there are about a thousand acres with standing crops of paddy and sugar-cane, which will be lost if no effort is made to save them. The Public Works Sub-Overseer, who was present with the 1st Councillor when the latter inspected this dam on the morning of the 9th instant, explained to him the possibility of having a ring bund, at a cost Rs. 4,000. He also showed the alternative plan of having a new dam, with its position slightly altered, which he estimated to cost about Rs. 80,000. This project deserves the earliest consideration of the Chief Engineer, but in the present time of high prices, it is of the utmost importance to save the standing crops. Nearly the whole length of this channel runs through inam villages and the money for this work must be mainly contributed by the inamdars. It is stated that the management of the channel irrigation has been kept by the Government agency and, under the circumstances, it seems very desirable that very prompt action should be taken to do what is feasible to throw up the ring bund and save the standing crops. The Deputy Commissioner will be requested to take the necessary action in consultation with the Officers of the Public Works Department, to whom it is hoped the Chief Engineer will be pleased to give the necessary instructions. The action taken by these Officers will be reported early for the information of Government.

21. By means of a temporary establishment, statements have been prepared showing the particulars of operations of the Department from 1868 up to 30th June 1899, required to prepare a complete and concise summary report for the whole Province, as required in the Secretary's letter No. 2723—Pet. F. 47-97, dated 4th October 1898, which will shortly be completed and submitted to Government.

22. The total cost of the Department during the year under report amounted to Rs. 7,124-5-0 against 7,514-15-11 the year previous.

23. The total cost of the Department from 1868 up to the close of the year under report, amounted to Rs. 11,04,390-12-10 and the total addition to the revenue during the same period to Rs. 8,75,517-2-6 or 79 per cent of the total cost.

24. The amount of correspondence, English and Vernacular, carried on in this office is 1,777 against 1,811 the year previous.

No. 3152-R. F. 283-93, DATED BANGALORE, 13TH OCTOBER 1900.

ORDER THEREON—Recorded.

*The following letter No. D. 894, dated 20th March 1900, from the Deputy Commissioner, Bangalore District, to the Secretary to the Government of Mysore, General and Revenue Departments.*

I have the honor to forward herewith (with connected papers) an application for a loan of Rs. 200 for improvement of land under the Land Improvement Loans Regulation IV of 1890. The applicant, Venkatachola Iyengar of Molur, in Channapatna taluk, wishes to form a mango and cocoanut garden on his land and proposes to utilize the loan for the following purposes:—

(i) To dig up the soil. (iii) To level the land.
(ii) To fence the land. (iv) To purchase plants and (v) To dig pits 3 columns.

2. I beg to solicit the orders of Government as to whether the digging of pits, fencing of lands and the purchase of plants are purposes properly falling within the purview of the Land Improvement Loans Regulation. As frequent applications are received for loans for the above purposes, I request that Government will be good enough to issue instructions for guidance in such cases.

No. 3221-29—R. 1051, DATED BANGALORE, 16TH OCTOBER 1900.

ORDER THEREON—The applicant wishes to plant cocoanut and mango in his *wet* land. This cannot very well be done without digging pits and getting plants. In fact, he wants to convert the wet land into a garden. This done, the letting value of the land will be enhanced (*vide* para 2 of Section 4 of the Land Improvement Loans Regulation IV of 1890), and so the application does come within the purview of the Land Improvement Loans Regulation and Rules framed thereunder.

2. As the power of sanctioning loans of the kind to the extent of Rs. 500 rests with the Deputy Commissioner, *vide* para 11 of the Rules published under Notification No. D. 70-A, dated 4th January 1892, he may sanction the loan of Rs. 200 applied for by the applicant Venkatachela Iyengar after observing all the formalities required by the Rules.

Letter No. 1029—973, dated 17th May 1898, from the Deputy Commissioner, Chitaldrug district, recommending the remission of a loan of Rs. 200, (not Rs. 300 as stated by the Deputy Commissioner), with interest thereon, advanced to one Akkasale Hanumanthappa for improving a well in his land, Survey No. 12, situated in the Mallapura village, Holalkere taluk.

No. 3207-8—R. 1040, DATED BANGALORE, 16TH OCTOBER 1900.

ORDER THEREON—The Deputy Commissioner's report establishes the following facts:—

1. The well is situated on the side of a kodi halla or the surplus stream of a tank in an Amrut Mahal kaval.

2. On inspection, it was found that there was good water at a depth of 18 feet from surface, and for this reason the well was deemed a fit one for being improved.

3. An advance of Rs. 200 was given, the whole of which amount was not only spent but was supplemented with private funds.

4. The measurement lists sent up to the Special Officer showed more outlay than could be covered by the advance.

5. A long time was allowed to transpire before the account was settled and a loan order given, and in the meanwhile the tank from which obviously this well derived its springs breached and the well lost its supply of water.

6. On account of the breach, the Deputy Commissioner, who saw the tank was convinced that irreparable damage had been done to the well.

7. Not only has the debtor suffered loss of money and crop but his well has also come to irreparable grief.

Under these circumstances it seems equitable that the relief recommended by the Deputy Commissioner should be granted, namely, the remission of the advance, with interest thereon, and the striking of it off the account. This recommendation is accordingly approved and sanctioned.

No. 3231-8—R. 1053, DATED BANGALORE, 17TH OCTOBER 1900.

ORDER—In inviting attention to the approach of the next jamabandi season, Government request Deputy Commissioners of districts to attend to that important work as early as possible, allowing nothing else to come in the way or to cause delay or interfere with the prompt and satisfactory completion of the jamabandi in proper time. All the instructions issued by Government on the subject from time to time and which for ready reference are set out in the Memo attached, should receive prompt and full attention. Needful instructions should be issued by Deputy Commissioners to the other Jamabandi Officers of their districts. Every such Jamabandi Officer should, before he leaves the taluk or the tract settled by him, submit to the Deputy Commissioner of his district a full report of the work done by him. Within a fortnight of the receipt of such reports from the several officers concerned the Deputy Commissioners should submit them to Government with a consolidated review for the whole of the district including the taluks or the parts of taluks of which the jamabandi was conducted by themselves. It is hoped that full effect will be given to the above instructions and that the jamabandi report for the current year will be submitted by every Deputy Commissioner to Government without any delay. The dates of the commencement and close of the jamabandi must invariably be shown and no item of work specified in the Memo referred to above should escape the notice of the Jamabandi Officer.

Memo of the important Duties devolving on Jamabandi Officers—*continued.*

| No. | Item. | Remarks. |
|---|---|---|
| 3 | Pahani work ... | This important work should be carefully done by Jamabandi Officers. They should, by enquiries, satisfy themselves that the Pahani account is properly and correctly, and in time, prepared by the shanbhog's note in the Village Pahani Book with their initials, the number of fields and the percentage thereof to the total number in the village, which they may have themselves inspected and also see that the Amildar has similarly inspected the lands and has made a note in the book and that inspection was also made twice in the year. The Amildars should strictly observe the percentage in regard to the inspection of fields as laid down in the rules and any failure or deficiency in this respect on their part should be severely dealt with. *Vide* Government Proceedings No. 6150-57—R. 2093, dated 9th January 1897. |
| 4 | Inspection of boundary marks. | The various duties devolving upon village officials, shekdars, taluk officials, Amildars and Jamabandi Officers, in respect of the inspection of boundary marks are clearly defined in Rules 1 to 9 prescribed in Government Proceedings No. 6520-28—R. F. 32-97, dated 17th March 1899, to which the Jamabandi Officers should pay particular attention. Bandhs particularly between occupied and unoccupied fields and also those between irrigated and unirrigated fields should be inspected. |
| 5 | Inspection of boundary marks between the Mysore and British frontiers. | The Jamabandi Officer should satisfy himself that the demarcation settled by the Survey Department has not been interfered with and note the result of his inspection in the Village Accounts and should there be any dispute he should investigate the matter with a view to the case being reported to Government. *Vide* Government Proceedings No. 9564-71—R. 3113, dated 1st April 1898. |
| 6 | Disposal of Takrar Tahktas, Darkhasts and Rajinamas. | These matters should be disposed of on their merits. The number of darkhasts and rajinamas pending disposal at the end of the year should be noted with details of the number received and disposed of. |
| 7 | Settlement of disputes regarding transfers of Pattas. | Such disputes should be decided in an equitable manner. |
| 8 | Examination of Demand, Collection and Balance of every item of Government revenue. | The Jamabandi Officer, after scrutinising these accounts should furnished in his report the details of jamabandi for the year under important heads as compared with the figures for the previous year, giving reasons for increase and decrease as the case may be. |
| 9 | Inspection of waste lands. | The Jamabandi Officer in the course of his work should inspect waste lands bordering on cultivation in order to find out encroachment; dry lands possessing irrigational facilities, should also be inspected and should any surreptitious use of Government water be suspected it must be detected and due notice thereof taken. *Vide* para 4 of Government Proceedings No. 2594-601—R. 654, dated 5th September 1896. |

| 10 | Examination of Raiyats' Pattas. | The Officer conducting the jamabandi should avail himself of every opportunity of having pattas produced before him and satisfy himself that they have been correctly written up to date, omissions and defects, if any, being supplied and rectified then and there. Such pattas should then be returned to the parties concerned under the Jamabandi Officer's initials. |
| 11 | A and B Lists ... | The Jamabandi Officer should ascertain whether these lists which are prescribed by clause 3 of Rule XX of the Land Revenue Rules, have been duly revised with due reference to subsequent charges. |
| 12 | Inspection of Tanks and Tank bunds. | The Jamabandi Officer should, as far as possible, inspect these and see whether they are properly maintained or whether any steps for the enforcement of the rules regarding their up-keep are called for. |
| 13 | Inspection of Avenue trees | In the course of their tours, the Jamabandi Officers should inspect the state of trees and give orders for the replacement of such of them as may be decayed or dead. |
| 14 | Sanitation and Water-supply. | The Jamabandi Officer should visit as many villages as he can and see whether the water-supply is adequate and attention has been paid to sanitation, and he should arrange for effecting such improvements as may be necessary. |
| 15 | Municipal and Local Fund Works. | These should also be inspected and anything worthy of note should be reported. |
| 16 | Estimate of Crops ... | The proportion of crops entered in the Pahani Account must be scrutinized and for groups of villages the probable yield must be ascertained and the abstract given at the end must be compared and collated. |
| 17 | Vaccination ... | Whether or not this work is being satisfactorily carried out should be enquired into and noted. |
| 18 | Inspection of Dispensaries, Schools, Rain-gauges, Trigonometrical Survey Stations, &c. | All these should be inspected as far as possible and any thing worthy of note must find its place in the Jamabandi Officer's report. |
| 19 | Other matters ... | Any other matters of interest which may attract the notice of the Jamabandi Officer in the course of his tour should also be touched upon in his report. |

Letter No. 149—122, dated 11th August 1900, from the Deputy Commissioner, Shimoga district, soliciting sanction to the appropriation, for garden cultivation, of 1 acre and 8 guntas of land out of gomal and soppinbetta Survey No. 76, measuring 94 acres and 12 guntas in the Sathalalu village, Ikkeri hobli, Sagar taluk, and stating that the villagers have no objection to the grant of the land in question.

No. 3240-1—R. 1055, DATED BANGALORE, 17TH OCTOBER 1900.

ORDER THEREON—The statement of the case made in the Deputy Commissioner's letter read above or in the gomal statement enclosed therein is altogether incomplete and such as does not place all the facts before Government.

2. From the vernacular records, accompanying the report, it is understood that the land was unauthorizedly occupied in 1896-97 and has continued in the possession of the applicant ever since.

3. The history of the case may be briefly described as follows:—

Channabasappa of Avanikoppa submitted to the Amildar of Sagar two applications on 9th July 1894 and 26th March 1896, respectively, for land for garden cultivation on *full assessment* out of gomal and soppinbetta Survey No. 76, measuring 94 acres and 12 guntas, in the Sathalalu village, Sagar taluk. In the first of these applications, he stated that he had previously submitted an application praying for the grant of the land out of the said Survey number, but received no reply thereto.

The mojanidar, who was directed to subdivide the land in question, reported, on 30th January 1896, that the land applied for measured 1 acre and 8 guntas, inclusive of 4 guntas of phut kharab; that it was fit for garden cultivation; that the applicant wanted it on alve tenure; that the land contained no trees fit for timber, and that the applicant had got the bandh stones fixed thereon.

The shekdar of Ikkeri, who was directed, on 26th February 1896, to report whether there was any objection on the part of the villagers to the grant of the land to the applicant and to submit the gomal and other statistics of the village, reported, on 3rd December 1896, that the applicant stated that he had at first applied for the subdivision and the grant of the land in question on *alve tenure*; that he again applied for the same on *full assessment* as it was contiguous to his portion of land, Survey No. 75, the other hissedar being Ramappa, son of his uncle Channabasappa (deceased); that, as it was situated on a low level and fit for garden cultivation, he had spent about Rs. 150 for preparing the ground for cultivation and planted the whole of it with plantain trees; that he entered upon the land before obtaining sanction in the belief that it would be confirmed to him, and finally requested that it might be granted to him without sale as there were other persons inimical to him, who were ready to take it up if put up to auction, thus subjecting him to great loss.

Ramappa, the other hissedar, stated that he would bid for the said land if sold by auction, and patel Chendraiya stated that it was true that the applicant had spent a large sum of money upon the land; and that, if it was auctioned, the applicant would suffer great loss as there were other persons who were ready to purchase it. The shekdar further reported that all that was stated by the applicant was true; that the applicant should not have entered upon the land before obtaining sanction; that, as there were two parties in the village, the land, if sold, would be taken up by others and thereby Government would be benefited, but the applicant would suffer loss and that therefore the land might be given to him, the latter, without sale.

The fact of this unauthorized cultivation of the land by the applicant was brought on the Takrar Takhta of 1896-97, whereupon the Amildar stated that though the applicant had entered upon the land before obtaining Government sanction and spent on it a large sum of money and planted it up with plantain trees, through ignorance, as stated by the shekdar, and though he (Amildar) agreed with the shekdar, still the applicant was guilty of unauthorized occupation under Section 59 of the Land Revenue Code and the Amildar therefore recommended that a reasonable fine might be imposed on him and the land

granted to him after recovering the malki amount, to the payment of which he had agreed. On this Takrar Takhta the Jamabandi Officer (Deputy Commissioner) passed the following order, dated 18th January 1897 :—

"The adjoining land is stated to have been assessed at Rs. 11 per acre. A fine of Rs. 15 should be recovered from the applicant. After the land in question is properly assessed, final orders should be obtained for its disposal for cultivation. Till then it may remain in the possession of the applicant. The above mentioned fine has been imposed to cover the kandayam of the year 1896-97."

After the lapse of more than two years, *viz.*, on 9th June 1899, the applicant submitted an application to the Sub-Division Officer, Sagar, and requested final orders.

This application was referred to the Amildar on 12th June 1899, for report and he was directed at the same time to issue an endorsement to the applicant if the case had been finally disposed of.

On 22nd October 1899, the Amildar, after reiterating all that had transpired from the beginning together with the Jamabandi Officer's order on the Takrar Takhta of 1896-97, recommended that the khate of the land in question might be made out in the name of the applicant after recovering from him the malki amount as well as the kandayam of the land from the year 1897 (the year from which the land had been in the possession of the applicant as per Jamabandi Officer's order). The Amildar further stated that both the shekdar and the mojanidar had reported that the land was entirely dependant on rain water.

Thereupon, on 15th January 1900, the Amildar was asked to report how the assessment for the years 1897-98 and 1898-99 had been recovered and what orders had been passed regarding the same.

On 25th May 1900, the Amildar reported that the fine of Rs. 15 imposed upon the applicant had been recovered from him as kandayam for 1896-97 and no fresh orders seemed to have been obtained during the subsequent years; and that as the land had been in his possession since 1897, orders were solicited in his Ittilla No. 529, dated 30th October 1899, as to the recovery of kandayam of the said land since 1897.

On this, on 22nd June 1900, the Sub-Division Officer ordered that the gomal statement in respect of the said land should be submitted to Government and that assessment at the rate of Rs. 12 prevailing in the neighbourhood should be recovered from the applicant from the year 1897-98 and credited to Government.

4. Government observe that it is impossible to accept the plea of ignorance set up by the trespasser. He evidently feared open competition and to avoid it took illegal possession of the land and spent what is locally considered a large amount of money in preparing the land and planting plantain trees thereon. As the sequel showed, his own co-occupant wanted the land to be sold and there are others also who wish to obtain it. The Jamabandi Officer (Mr. H. V. Nanjundayya) before whom this matter came up in 1896-97, passed a most unsatisfactory order imposing a very inadequate fine of fifteen rupees, which he declared was a substitute for the previous year's kandayam and allowing the land to remain in the possession of the trespasser without any definite orders about its final disposal. The result was that for the next three years neither the applicant was evicted, nor was any assessment levied from him. The Deputy Commissioner now sends up the papers with a bare recommendation that the land may be removed from gomal and duly assessed as garden land.

5. The proceedings, to say the least, show great irregularities. The Deputy Commissioner ought, in the first instance, to evict the trespasser (see Government Order No. 8819-27—R. F. 11-96, dated 5th April 1897, wherein it was stated that a trespasser should not be encouraged by his possession being supported) and deal with him as required by Section 59 of the Revenue Code. When the land is thus set free it may be duly assessed and disposed of under the Darkhast Rules without preference being shown to the trespasser.

Letter No. 5156—1083, dated 15th June 1899, from the Deputy Commissioner, Kolar district, soliciting orders as to whether the claim of the talavars of the Chintamani town for recovery of *miras* from mohatarfa-payers, as per scale prescribed in the late Chief Commissioner's Proceedings No. 3335—R. 62, dated 1st August 1878, which do not appear to have been hitherto applied to the case of such servants in municipal towns, may be entertained, and payment enforced under the rules contained in Proceedings No. 1668-76—R. 537, dated 10th August 1897, although their legitimate work is minimized by the employment of Regular Police and other Municipal Revenue servants.

Letter No. 500, dated 2nd January 1900, from the same Officer reporting the practice obtaining in other municipal towns of the district.

ALSO—The following reports from the other Deputy Commissioners as to the practice obtaining in the Municipalities of their Districts :—

No. 3329-36—R. F. 52-97, DATED BANGALORE, 20TH OCTOBER 1900.

ORDER THEREON—The reports read above show that there has been a diversity of practice in the matter in the several districts. In the Municipalities of the Bangalore, Hassan, Shimoga and Kadur districts, the talavars, wherever they are employed, get no *mirasi* from mohatarfa-payers. In the Bagepalli Municipality of the Kolar district, and in all the Municipalities of the Tumkur district, except Huliyar and Turuvekere, *mirasi* is paid to talavars by mohatarfa-payers at one anna per rupee. In the Chitaldrug district, the rate of *mirasi* paid to talavars, employed in some of the municipalities, ranges from 1 to 4 annas per rupee. In the Mysore district, the talavars employed in the Municipalities of Chamrajnagar and Krishnarajpete enjoy inam lands, and in other municipalities they get no *mirasi* from mohatarfa-payers.

2. The existing practice need not be extended except with the permission of Government; that is to say, no such servants as are to be paid by *miras* should be employed in the municipal towns where, at present, there are none. But if there are such servants already employed, their services cannot be dispensed with and they must be paid the *mamul* rates, where they are ascertainable, and, if not, according to the rates prescribed in the Proceedings of Government No. 1668-76—R. 537, dated 10th August 1897.

3. The question raised as regards the talavars of the Chintamani town, should be dealt with in accordance with the above directions.

Letter No. 464-102, dated 2nd August 1899, from the Deputy Commissioner, Kolar district, regarding the application of one Rangappa for registry in his name of two topes in the Yeldur village, Srinivaspur taluk.

No. 3320-1—R. 1090, DATED BANGALORE, 20TH OCTOBER 1900.

ORDER THEREON—The marginally noted lands containing topes are shown in the old accounts as Ramegauda's dharma topes. In December 1885, one Rangappa purchased the topes in a Civil Court sale. During the Survey Settlement of the taluk, which took place in 1887-88, Rangappa was absent elsewhere and was not able to represent to the Survey Department that the topes had been purchased by him. They were therefore treated by the Survey Department as Government kharab, and since then the produce of the trees has been at the disposal of Government.

| | Extent. A. G. |
|---|---|

| (2) Survey No. 93 / Magi No. 319 called "Hoovina Tope." | 0—20 |

2. Under the authority of the sale certificate granted to him by the Kolar Munsiff's Court in November 1888, Rangappa prays that the topes may be assessed and registered in his name, or treated as kharab as heretofore, he being permitted to utilize the sale proceeds of the produce of the trees for the benefit of the Kodanda Ramaswami temple at Yeldur, which is a Muzrai institution. The Deputy Commissioner recommends that the topes may be treated as kharab and declared a public charity, and Rangappa's right thereto as a managing trustee recognized on the specific understanding that he will utilize all the income derivable from the topes for their improvement and for the services of the temple.

3. Under Government Proceedings No. 6263-70—Pet. 849, dated 14th January 1898, the topes in question will be declared charitable, and petitioner made as their trustee, the proceeds being credited to the temple funds and used for the services thereof.

Letter No. 1004—951, dated 12th May 1898, from the Deputy Commissioner, Chitaldrug district, recommending the remission of Rs. 205-5-3 and interest thereon, being the unrecovered balance of the amount advanced to Begar Hanuma for sinking an irrigation well in his khata land, Survey No. 113, situated in the village of Mahadevapura in the Challakere taluk.

No. 3387-88—R. 1103, DATED BANGALORE, 25TH OCTOBER 1900.

ORDER THEREON—A loan of Rs. 250 was advanced to Begar Hanuma of Mahadevapura in the Challakere taluk for sinking an irrigation well in his khata land, Survey No. 113, on the condition that the amount should be re-paid in ten yearly instalments of Rs. 29-5-3 commencing from 1895-96 to 1904-1905. The applicant, who paid up the instalment for 1895-96 wholly and Rs. 24 for 1896-97, failed to pay the balance of the instalment as well as the assessment of the land, which was therefore attached and the usual procedure adopted for the recovery of the amount. There were no bids for the land when it was put up to auction for the reason that the water in the well was brackish and not in any way beneficial to the land.

2. The Deputy Commissioner now recommends the remission of the unrecovered balance of Rs. 205-5-3 and interest thereon, on the ground that, the sides not being firm, the well collapsed and that the failure to complete the well was due to causes beyond the applicant's control. This recommendation does not appear to be quite reasonable. The well had been completed and the loan order issued. The reason assigned for the failure was that the water being brackish was not suited for irrigation purposes. This reason, it has been overlooked, is inconsistent with the

statement originally made that the water was (fresh) fit for irrigation and no further enquiry seems to have been made on that point. The explanation of Amildar J. Srinivasa Rao, who made the first report, must be obtained and submitted.

3. As, in the meanwhile, it is unnecessary to pursue this loan further, and the land for the benefit of which the money was advanced did not fetch any bids, the debt will be remitted as irrecoverable and written off the accounts. The land, which is forfeited to Government, may be sold whenever an application is received therefor.

No. 5425-33—R. 1122, DATED BANGALORE, 26TH OCTOBER 1900.

ORDER THEREON—The orders conveyed in Government Proceedings No. 7044—R. 2309, dated 4th April 1900, and the comparatively large number of Measurers whom the Survey Superintendent has been able to leave with the various Deputy Commissioners after organizing the Measuring establishment required for the Revenue Survey work, render it unnecessary that the Shekdars, unless fully qualified and certified to that effect by the Survey Superintendent, should be entrusted with the work of subdividing Survey numbers. To this extent, the orders contained in Proceedings No. 1814 read above are modified. But the necessity continues of improving the standard fitness of the present Shekdars in regard to their ability in the measuring of lands as well as in conducting the examination of the boundary marks. From the replies read above, it is observed that out of 460 Shekdars in the whole State, only 50 have a good knowledge of land-measuring work, and 95 know a little of it, while the others know nothing of the work. The question of the improvement of the Shekdari service and the re-distribution of hoblis is under the consideration of Government. But pending final orders thereon, there is no reason why arrangements should not at once be effected for giving the existing Shekdars some training in the land-measuring work and in that of testing the inspection of the boundary marks with reference to village maps. On this point the suggestion made by the Deputy Commissioner of Tumkur seems practical, and it is to the effect that one Shekdar in each taluk may be temporarily relieved and placed under instruction, during which time he must be required to learn this work and obtain a certificate of proficiency. The Survey Superintendent thinks that a period of

four months is necessary and that the Shekdars thus selected should first present themselves before him and obtain his permission to attend the training class attached to his office in Bangalore. He also suggests that four Shekdars may be sent from each district at a time. Government approve of this suggestion and accordingly direct that Shekdars thus selected may be sent to report themselves to the Survey Superintendent not later than the 15th of November next. During their absence, arrangements will be made to have their work done by the neighbouring Shekdar or otherwise without having recourse to fresh appointments and thereby entailing additional cost upon Government. When one batch of Shekdars returns, another batch will be sent, and this procedure may be adopted by all the Deputy Commissioners, so that in course of time all those duly qualified among present Shekdars may acquire a fair insight into this important work. Government take this opportunity of impressing upon the Deputy Commissioners the great necessity of appointing only qualified men as Shekdars. The educational and physical qualifications are of primary importance, and, as already directed none but those who have passed the qualifying Educational examinations laid down in Government Notification No. 3, dated 12th April 1888, and whose physical fitness is certified by a competent Medical Officer, should be appointed.

*The following letter No. 1003, dated 10th April 1899, from the Deputy Commissioner, Bangalore District, to the Secretary to the Government of Mysore, Revenue and General Departments.*

Adverting to Government Proceedings No. 11060—R. F. 95-97, dated the 21st May 1898, calling for a further report in regard to certain irrigation wells sunk by Mr. Marlam in the Hagathur village, Vartur hobli, of the Bangalore taluk, I have the honor to state as follows :—

2. In 1892, a loan of Rs. 500 was sanctioned and an advance of Rs. 400 was made to Mr. Marlam for the two wells. The wells have been dug to a depth of about forty feet and faced with stone. The wells appear to have contained water at the time when they were sunk, but now, neither of the wells contains any water and they are now quite useless.

3. To deepen the wells, it is necessary to remove the whole stone revetment and then to re-place it after sufficiently deepening the wells. This will cost not less than four or five hundred rupees.

4. Mr. Marlam says that he is not prepared to incur such a large expense for the wells and requests that, as the wells have become quite useless, the amount advanced to him may be remitted. Para 16 of the Special Rules for the construction of wells, contained in Notification No. 183, dated the 21st July 1891, contains a provision to the effect that, "when the work is not completed, having had to be abandoned owing "to causes beyond the applicant's control, such as, no water being found, the ex-"penditure incurred shall be borne by Government." But it seems to me that the present case does not come under the above rule, as the work has been completed and water was found at first. It was clearly the party's duty to have dug the well to a sufficient depth, so as to ensure a permanent supply of water and not to have stopped as soon as a small surface spring had been tapped. I therefore solicit orders as to whether the amount should be remitted, as requested by Mr. Marlam, or it should be recovered from him.

No. 3423-4—R. 1121, DATED BANGALORE, 26TH OCTOBER 1900.

ORDER THEREON—In 1892, a loan of Rs. 500 was sanctioned, and an advance of Rs. 400 was made to Mr. Marlam, for two wells. The wells were dug to a depth of about 40 feet and faced with stone. They appeared to have contained water at the time they were sunk but are reported to contain no water now and have become quite useless. Mr. Marlam is not prepared to incur any further

expenditure on account of the wells and requests that the amount advanced to him may be remitted. The Deputy Commissioner, who is of opinion that the case does not come under Rule 16 of the Irrigation Wells Rules, as the wells were *completed* and that it was the party's duty to have dug the wells to a sufficient depth, solicits orders in the matter.

2. When the Deputy Commissioner has a definite opinion in this matter, thereference is uncalled-for. He may enforce that opinion leaving it to the party to proceed as he thinks best.

*Letter No. 495—474, dated 10th January 1900, from the Deputy Commissioner, Chitaldrug District, to the Secretary to the Government of Mysore, General and Revenue Departments.*

I have the honor to state that a loan of Rs. 400 was sanctioned by Government in their Proceedings No. 10493—R. 1096, dated 1st January 1894, to one Mariyappa of Bukkambudi village, Challakere taluk, for excavating a well in his wet land bearing Survey No. 61 and assessed at Rs. 8. Out of this amount, a sum of Rs. 375 was advanced to Mariyappa in two instalments. The loan-holder failed to complete the well within the prescribed time. The man and his surety, who were more than once bound over to show completion, having failed to abide by the terms of their muchalikas, and the reasons for default being far from satisfactory, it was ordered that coercive measures be taken for the recovery of the amount with interest thereon. From the sale of the movable and immovable properties of the loan-holder, a sum of Rs. 429 was recovered. This sum is sufficient to cover the amount of principal and interest due to Government.

2. Subsequent to the sale proceedings, the defaulter has paid Rs. 175 to be credited towards the principal. I have inspected the well. The failure is due partly to faulty construction and partly to nature of soil not having been realized in the beginning. The well for which a similar advance had been given in the adjoining land and which has similarly failed, has been re-built and is now in very good working order.

3. The loan-holder in this case may also do the same; but, he has not the funds necessary for it, and it is not advisable to advance further money for it. I would, however, recommend that some indulgence be shown in the present case, as the failure of the well was to a great extent due to circumstances beyond the loan-holder's control, and also because the completion of the coercive process, which means ruin to the loan-holder, would discourage others from coming forward to receive similar advances.

4. Under these circumstances, I consider, it is not advisable to confirm the sales. The amount of Rs. 175 now offered by the defaulter may, as desired by him, be credited towards the principal and the balance of the principal, namely, Rs. 200 *plus* interest on the whole sum be remitted.

5. The vernacular papers on the subject ending with Challakere Amildar's report No. 428, dated 30th December 1899, are herewith submitted for perusal and kind return when no longer required.

No. 3435-6—R. 1124, DATED BANGALORE, 26TH OCTOBER 1900.

ORDER THEREON—This recommendation is not quite in accordance with the Rules. There was a default, and the man's property has been sold. The reasons assigned for the proposed remission are inadequate and the remission cannot, therefore, be sanctioned. With a completed well in the immediate neighbourhood, the acceptance of the Deputy Commissioner's recommendation that the completion of this well was frustrated by circumstances not within the applicant's control would not only be opposed to facts, but would be establishing a bad and inconvenient precedent.

*The following letter No. 298, dated 13th October 1898, from the Deputy Commissioner, Tumkur District, to the Secretary to the Government of Mysore, General and Revenue Departments.*

I have the honor to state that an advance of Rs. 250 re-payable in 20 years was sanctioned on the 23rd January 1892 for excavating an irrigation well in Survey No. 235 measuring 5 acres and 15 guntas of garden land, assessed at Rs. 38, in Pavagada kasba, Pavagada taluk, in favor of shanbhog seshappa. The whole of the amount has been paid to the applicant in two instalments, but as the applicant failed to complete the work, steps were taken to recover the amount. On the day fixed for the sale of the land on the security of which the loan was sanctioned, the applicant paid Rs. 200 towards the principal and solicited that one year's time might be given for the payment of the balance, *viz.*, Rs. 50 and that the interest due may be remitted. The grounds urged by him for the grant of the concessions are that he spent a good deal of money in completing the well-work and that it collapsed and entailed considerable loss on him. The Amildar reports that the applicant did both earth and stone-work to the well, but that unfortunately, the sides collapsed twice putting the applicant to great loss.

2. Under the special circumstances of the case, I beg to recommend that Government may be pleased to remit the interest due by the applicant, *viz.*, Rs. 40-10-7, calculated up to 25th April 1898, on the condition of his paying up the balance of the principal, *viz.*, Rs. 50 within 31st December 1898.

**No. 3415-16—R. 1114, DATED BANGALORE, 25TH OCTOBER 1900.**

ORDER THEREON—The applicant having failed to complete the well, Rs. 200 were recovered from him. It is reported that he did both the earth and the stone-work to the well but the sides collapsed twice, putting him to great loss. The remission of interest is recommended on the condition of his paying up the balance of Rs. 50.

2. The Deputy Commissioner does not visit the well although it is in the taluk kasba, and does not even state that the collapse of the sides of the well was not due to bad workmanship. Government see no grounds to grant remission. The whole of the balance, with interest due, must be recovered at once.

No. 3162-69—R. 1132, DATED BANGALORE, 27TH OCTOBER 1900.

ORDER THEREON—From the replies read above, it is observed that in some of the districts suits for the recovery of arrears of *miras*, due for more than one year, are admitted and disposed of under Government Notification No. 1677—R. 540, dated 10th August 1897, containing rules for regulating the recovery and payment of *miras* due to the minor village servants, and that the Deputy Commissioners of Kolar and Kadur propose a limit of three years in such cases.

2. The Government are of opinion that the nature of the remedy prescribed in the Notification of 10th August 1897, being prompt and summary, it is but reasonable to apply it only to cases where the debt is recent and exactly ascertainable. In the absence of distinct orders to the contrary, these rules must be made applicable and enforced when applications are made in the year in which the *miras* is due or in the year immediately following it.

Correspondence ending with letter No. 344—331, dated 21st November 1899, from the Deputy Commissioner, Chitaldrug District, regarding recovery of the advance of Rs. 400 made to one Jampal Naik for sinking an irrigation well.

No. 3477-78—R. 1137, DATED BANGALORE, 27TH OCTOBER 1900.

ORDER THEREON—A loan of Rs. 400 was sanctioned and advanced in two instalments to Jampal Naik for sinking an irrigation well, in his khate land Survey No. 5 of the Challakere village, on the condition that the well should be completed within six months from the date of advance, namely, 22nd November 1891. The security of one Kotappa Naik, son of Bharamanna Naik, was also taken binding him to be responsible for the money if the well was not completed within the specified time.

2. On the 11th March 1893, the applicant applied for a further loan of Rs. 200 on the ground that the sum of Rs. 400 already granted was insufficient and that the well could not be completed within the prescribed time. The Special Duty Officer, Mr. B. G. Krishnaiengar, who also was in charge of the district, after *inspecting the well*, refused to grant any further advance before the work was finally completed and gave the applicant time till the end of March 1893 to finish the well. It was extended again till the end of March 1894 and then again to 15th June 1894. The applicant's property was attached as he failed to complete the work.

3. On the application of Jampal Naik that he was unable to complete the work, that the amount of Rs. 400 advanced to him might be recovered in four annual instalments of Rs 100 each and that the attachment and sale of his property might be stopped, the then Deputy Commissioner (Mr. C. Sreenivasiengar), who also inspected the work, directed that the recovery by instalments could not be ordered unless the work was completed, that, if necessary, six months' time would be allowed for the completion of the well, and that if the applicant consented, a muchalika to the effect might be taken from him.

4. The Amildar reported that the six months' time again allowed to the applicant had elapsed, and that the work had not been completed, and therefore requested orders to proceed against the property of the applicant and of the surety.

5. The General Assistant Commissioner, to whom the records were transmitted by the Deputy Commissioner for disposal, issued an order to the Amildar stating that he inspected the spot in person, that the applicant had consented to complete the work in six months' time, commencing from January 1896, and that the Amildar should take coercive measures for the recovery of the full advance without making any further reference on the subject, if the work was not commenced at all.

6. The Amildar reported that earth-work was done only for eight days and the work left incomplete. He was thereupon asked to take steps for the recovery of the money due to Government. The applicant pleads his inability to push on with the work and complete it and prays that five years' time be given him for the re-payment of the advance.

7. Out of the amount of Rs. 400 advanced, work to the extent of Rs. 194-11-3 only is said to have been executed though several extensions of time from November 1891 were granted.

8. In Government Proceedings No. 11813-4—R. 3888, dated 20th June 1897, it was ordered that as the applicant had spent only a portion of the loan taken by him and slept over the work for nearly six years, the amount advanced must be recovered with interest.

9. On the personal representation made by the applicant on 8th September 1897, it was ordered in Government Proceedings No. 3122-23—R. 996, dated 22nd September 1897, that if the Deputy Commissioner considered that the applicant was really poor and unable to pay the advance at once, the collection might be put off for a year and then the amount recovered in two equal annual instalments.

10. The Deputy Commissioner now reports that the applicant has till now paid up only a small sum of Rs. 90 towards the liquidation of the loan, that he has been aware of the extremely poor circumstances of the applicant and that in consideration of his poverty and the respectability of the family to which he belongs and also the loss he has sustained in his attempt to construct the well, for which the loan was granted, he recommends the recovery of the balance of the loan due at the rate of Rs. 10 a month and the remission of the interest on the loan.

11. The Deputy Commissioner should try and recover the loan in the best way he can. All the Officers who advanced the money without seeing that the work was done are responsible for this most objectionable transaction. No definite time or instalments will be sanctioned, and there is no use of such concession, as no act of consideration will apparently have any effect upon this debtor.

Letter No. 192, dated 19th September 1900, from the Deputy Commissioner, Hassan district, regarding the grant of certain lands to the temple of Male Malleswara in the Nuggihalli village, Channarayapatna taluk.

No. 347/0-72—R. 1133, DATED BANGALORE, 27TH OCTOBER 1900.

ORDER THEREON—It is reported that the temple above referred to was in a dilapidated condition, that the devotees concerned have begun to repair and improve it at a cost of Rs. 500, and that as the temple is not endowed with any land, either inam or assessed, the *Archiks* have no means of maintaining themselves. The Dharmakarthas' have therefore applied for the grant of the following lands to the temple on dry assessment in the same village :—

| Survey No. | Extent. | | Remarks. |
|---|---|---|---|
| | A. | g. | |
| 21 | 0 | 29 | (Unassessed waste) contains a small mango tope. |
| 24 | 2 | 29 | (A breached katte having no atchkat). |

The villagers state that the tope in Survey No. 26 is not a private one, that it was planted for the use of the temple, and that they have no objection to the lands being assessed and registered in the name of the temple. The Deputy Commissioner reports that during the jamabandi of the taluk, he encamped near the said tope and katte and visited the temple which was being repaired at a great cost, and that the efforts of the devotees are deserving of encouragement. He solicits sanction to the grant of the lands to the temple on dry assessment, the petitioners being held responsible for the due payment of the kandayam.

2. The Deputy Commissioner's recommendation is sanctioned. The lands will be registered in the name of the temple, the assessment leviable thereon being fixed in communication with the Superintendent of Revenue Survey in Mysore.

Letter No. 791, dated 20th June 1900, from the Deputy Commissioner, Tumkur district, soliciting sanction to the remission of the balance of Rs. 101-7-6, due by Dasi of Muddibanda of Byadanur village, Pavagada taluk, towards the advance made for an irrigation well.

No. 3554-5—R. 1154, DATED BANGALORE, 30TH OCTOBER 1900.

ORDER THEREON—A loan of Rs. 300, re-payable in 30 years, was sanctioned in favor of one Dasi for sinking an irrigation well in his khate land, Survey No. 64, situated in Muddibanda, a hamlet of Byadanur in the Pavagada taluk, for irrigating the entire survey number consisting of 3 acres and 21 guntas of wet land assessed at Rs. 13, on the condition of completing the well within six months. A sum of Rs. 150 was paid on the 18th May 1897 as a preliminary advance. The Well Mestri took the measurement of the well on the 2nd June 1897, and the work was estimated at Rs. 213-6-0. Thereupon a second advance of Rs. 125 was paid on 28th June 1897. On the 12th May 1898, the Amildar reported that the soil being sandy, the well collapsed and that therefore the applicant should be given six months' extension of time for completing the well, which the Probationary Assistant Commissioner in charge of the wells granted. The applicant did not complete the well even within the time so extended. The Amildar ordered the attachment and sale of the lands belonging to the applicant and his surety, and Rs. 185 were thereby realized against Rs. 286-7-6, inclusive of interest due from the applicant. The Amildar proposed that the balance of Rs. 101-7-6 might be realized from the sale of the house and the movable property of the applicant and if necessary, by proceeding against the movable property of the surety also. The Deputy Commissioner, who is not in favor of the Amildar's proposals, recommends the remission of the outstanding balance of Rs. 101-7-6, on the ground that the well collapsed from causes beyond the applicant's control. What these causes are, the Deputy Commissioner has not stated, nor does the record show any. Before sanctioning the loan the local authorities knew well the nature of the soil. The *sede* certificate plainly shows that boring 6 × 6 × 15 was made, water was tapped at a depth of 12 feet, the boring contained 3 feet of water, and the nature of the soil was 5 feet sand mixed with red mud 10 feet "Soonnaparloo" and beneath that sand. The applicant was aware of the fact that the soil was sandy. No precautionary measures for revetting the sides with stones at the proper time appear to have been taken. The Well Mestri failed to bring to notice the nature of the work executed before the second advance was ordered. The applicant deposed on 15th April 1899 before the Amildar that he could not get the work completed even if the time was extended, that the sale might be confirmed, and that he would pay up the balance within one month after date.

2. Thus, the case does not seem to be a fit one for a remission as recommended. No remission should be granted. Amildar Srinivasa Rao accepted the security and the valuation of the land fixed at Rs. 150 in its original condition and at Rs. 450, after completion of the well. The land in question when sold fetched only Rs. 70. The remainder (Rs. 115) of the sale proceeds was from the sale of the defaulter's other land and two lands belonging to the surety Mallegauda. If proper security had been accepted, there should have been no necessity for proceeding against any movable property. The balance must be recovered and if there is any deficit, the Deputy Commissioner is requested to explain why the balance should not be recovered from the Officer, who accepted the security. The business in this connection seems to have been conducted in a very lax manner.

Correspondence ending with docket No. 501—70, dated 22nd August 1900, from the Deputy Commissioner, Kolar District, *in re* the grant of certain lands as service inam to the totis and nirgantis of the Nekkundi village, Chintamani taluk, in exchange for some of their original inam lands which were rendered unfit for cultivation.

No. 3552-3—R. 1153, DATED BANGALORE, 30TH OCTOBER 1900.

ORDER THEREON—In the year Srimukha (1873-74) the village tank was breached for the purpose of being put under repairs. Consequently the marginally noted toti and nirganti service inam lands in the same village became unfit for cultivation by diluvion, &c. The totis and nirgantis, therefore, resigned their services in 1881 or thereabouts. In 1882, one Muniga was selected from the hakdar's family and appointed toti with the approval of the Deputy Commissioner, and nobody came forward from the hakdar's family for nirganti service on the ground that fresh lands were not assigned in exchange for the original inam lands. In January 1886, the then Deputy Commissioner (Mr. Subba Rao) ordered that in lieu of the toti and nirganti service inam lands rendered unfit for cultivation, other *banjar* lands which they wanted, be selected early and a report submitted for orders, as the services of nirgantis were very much needed. The Amildar having submitted a report, dated 29th March 1888, as to the lands selected to be given in exchange, the Deputy Commissioner directed him to personally inspect the lands which had become unfit for cultivation and submit an alienation statement as regards the lands selected to be given in exchange. From the above date up to 12th March 1890, (*i. e.*, for nearly two years) the matter was under correspondence between the Deputy Commissioner and the Amildar, merely for supplying omissions and

rectifying defects in the alienation statement, which was finally submitted by the Amildar on the *14th March 1890.* Nevertheless, the Deputy Commissioner observed in his order, dated *26th February 1894* (*i. e.*, after a delay of nearly four years), that the statement was incomplete, and called for a revised statement, which was submitted by the Amildar on the 8th December 1894. On the 15th December 1894, the shanbhog stated before the Amildar that in 1886-87, the marginally described lands were selected and allowed to be cultivated by the totis and nirgantis, and that the Deputy Commissioner (Mr. Subba Rao) after personally seeing the lands, approved of their being given to them. The matter was brought on the Takrar Takhta of the year 1894-95 and placed before the Jamabandi Officer on the 24th December 1894, who, in observing that it was irregular to have permitted the nirgantis and totis to occupy and cultivate the lands without previous sanction, ordered that they should be evicted from the lands and the assessment thereon recovered from them as a fine from the year in which they were cultivated, and that the papers should be submitted to the Deputy Commissioner for orders as regards the lands to be given in exchange. In February 1895, the Amildar submitted the papers to the Deputy Commissioner, who enquired in his order, dated 20th June 1895, whether there was any reference to show that the Deputy Commissioner personally inspected the lands and ordered them to be given to the totis and nirgantis, and observed that if so, they were not to blame, but that the assessment of the land cultivated by them in excess of their original inams, should be recovered from them. The Deputy Commissioner further directed the Amildar to personally inspect the lands which had become unfit for cultivation and satisfy himself that no portion of them was fit to be brought under cultivation and submit an alienation statement giving full particulars of the lands to be given in exchange. On the 4th November 1899, *i. e.*, after a delay of nearly four and a half years, the Amildar submitted a memo prepared by the Taluk Sheristadar stating that he inspected the lands, that out of the four Survey numbers which had become kharab, only two acres of land out of S. No. 315 could be brought under cultivation with some difficulty, that the totis, who were in possession of a larger extent of land than their original inam, and from whom the extra assessment of Rs. 2-8-0 had been recovered from 1887-88 to 1898-99, did not want the extra land, S. No. 241 (part) measuring 17 guntas (wet) and assessed at Rs. 2-8-0, and that the nirgantis, who were enjoying six guntas of land more than their original inam, and from whom the extra assessment of 12 annas had been recovered from 1887-88 to 1898-99, were willing to continue such extra payment. He further stated that there was nothing on record to the effect that the Deputy Commissioner personally inspected the lands and ordered them to be given to the totis and nirgantis, but that mention was made of those lands in the Phut Pahani accounts as the service inams of totis and nirgantis.

Nos. 263 and 90 to the nirgantis, who are willing to pay the excess, *viz.*, 12 annas, as jodi. He states that two acres out of S. No. 315 will be given out for cultivation under the Darkhast Rules.

3. The Survey Settlement of the taluk having taken place in 1887-88, the lands recommended to be confirmed to the totis except S. No. 240 are shown in the Phaisal Patrike as "lands reserved for toti inam" and S. Nos. 263 and 90 recommended to be "confirmed to the nirgantis as Government waste." Under the circumstances, the Deputy Commissioner's recommendation is sanctioned, with the remark that the delay, want of method, and the utter laxity and procrastination on the part of the taluk and district officials, which resulted in the matter lying undisposed of for nearly twenty years, go against the credit of the district administration and deserve to be noticed severely by the Deputy Commissioner.

Letter No. 369—353, dated 27th December 1899, from the Deputy Commissioner, Chitaldrug district, recommending the remission of the advance of Rs. 200 paid to one Mallikote Hanumaiya of Madalakkanahalli village, Chitaldrug taluk, for constructing an irrigation well in his land, the said well having been damaged by the rush of water into it by the breaching of a saguvalikatte, situated higher up.

No. 3556-7—R. 1155, DATED BANGALORE, 30TH OCTOBER 1900.

ORDER THEREON—In 1891, a loan of Rs. 200 was sanctioned and advanced in two instalments to one Mallikote Hanumaiya for sinking an irrigation well in his land Survey No. 69 measuring 22 acres and 16 guntas and situated in the village of Madalakkanahalli in the Chitaldrug taluk. When the applicant had spent upon the well the whole of the amount advanced to him and almost completed it, a saguvalikatte situated higher up, breached, owing to heavy rains, and the water therefrom rushing into the well damaged it completely. On the 26th November 1894, Hanumaiya applied for the grant of an additional loan of Rs. 100 to enable him to repair the damage done to the well. On the 10th July 1895, the Amildar of the Chitaldrug taluk recommended the grant of the additional loan applied for and stated that the applicant promised to complete the well within six months if the additional loan recommended was sanctioned. But the Special Duty Officer in charge of Loans ordered that the applicant being a defaulter, he should be dealt with as such, and did not sanction the additional loan applied for. This order having been communicated to the applicant, he promised in his deposition, dated 17th December 1895, that he would finish the well work within five months from that date and that in case of failure he would repay the full amount advanced to him together with interest in a lump sum as per rules. On the 22nd October 1896, Hanumaiya petitioned the Deputy Commissioner pleading his inability to pay up the full amount of Rs. 200 in a lump sum in obedience to the notice of demand served on him and soliciting the grant of five years' time to discharge the full amount of the loan by payment of annual instalments of Rs. 40. The General Assistant Commissioner to whom the Deputy Commissioner referred the petition, forwarded it to the Amildar for report. On the 16th May 1898, the applicant agreed before the Amildar to repay the amount of the loan in four annual instalments of Rs. 50 each; that he

would try to pay up the first instalment in about a month from the date and that this concession might be shown to him as he was too poor to pay up the loan in a lump sum. The Amildar recommended that this prayer might be granted. The Deputy Commissioner states that the damage to the well, was caused by the breach of a saguvalikatte higher up belonging to others; that the additional loan of Rs. 100 applied for by Hanumaiya, to repair the well, was not sanctioned and that his attempt to set right the damaged work at his own cost was frustrated by the collapse of the stone revetment and the kapilekattu re-built by him and consequently he had to abandon the work altogether, and therefore recommends the remission of the whole advance of Rs. 200 made to Hanumaiya together with the interest due thereon. He is further of opinion that the man has really suffered loss and is deserving of special treatment.

2. Government observe that this is an unfortunate case. The man has been allowed to suffer and been dealt with in a fast and loose manner. If the Rs. 100 applied for by him had been given to him at once, he would have very probably repaired the damage and benefited both himself and the State which gave him the advance. But from 1892 to 1899, that is to say, for a period of seven years, was continued dilatory and unavailing correspondence which put the party into vague hopes till at last the Deputy Commissioner, apparently with his knowledge, recommended the remission. The saguvalikatte which breached is said to belong to others, and during this long period the rest of the stone revetment of this well seems also to have collapsed. The debtor has not only not received any benefit from the loan but has had this business harassing him for the last ten years. Under these circumstances it seems iniquitous to follow the debt, which should accordingly be remitted and written off the accounts. The district authorities are expected to deal with such matters promptly and not allow them to drag on for years as has been done in this case.

Proceedings of Government No. 6520-28—R. F. 32-97, dated 17th March 1899, requesting the Deputy Commissioners of Kadur, Hassan and Shimoga districts to report whether they wanted any additional Measurers for the test inspection of boundary marks required to be made under Rule III of the rules therein laid down or whether they would get the work done by those already employed in their districts.

Read the following replies :—

| Letter No. | Date. | From | |
|---|---|---|---|
| 562 | 9th May 1899 | Deputy Commissioner. | Kadur. |
| 900—717 | 1st June 1899 | Ditto, | Shimoga. |

**No 3627-34—R. F. 32-97, DATED BANGALORE, 31ST OCTOBER 1900.**

ORDER THEREON—The Deputy Commissioner, Kadur district, states that if the inspection, &c., now enjoined are done fairly, there may hardly be need for additional hands, and that, however, a definite opinion can be formed after the rules are worked for a year or two. The Deputy Commissioner, Shimoga district, states that as the Measurers have, at present, a good deal of other work to do, it is not likely that they will be available for the work of test inspection, that

however, they will be directed to inspect disputed cases in which boundary marks cannot be easily traced or identified, and that if, after the working of the rules for a year, experience should show that additional Measurers are necessary, a proposal will be submitted in due course. The Deputy Commissioner, Hassan district, requests sanction to the appointment of two additional Measurers, one for the Manjarabad taluk and the other for the Belur taluk, where the work of test inspection of sub-division of lands is very heavy.

2. The Government observe that if the Pahani inspection will be done properly by the ordinary establishment, good results must necessarily follow. The addition of temporary establishments will let the ordinary establishment relax their proper training and lower the ordinary standard of their efficiency. Under all the circumstances of the case, it seems inexpedient to increase the existing establishment. The Deputy Commissioners should, however, insist upon the proper enforcement of the rules enjoining inspection of the boundary marks at the time of the Jamabandi.

Government Proceedings No. 7813—R. 2642, dated 3rd May 1900, passing certain observations and calling for further information regarding the proposed grant to one Vasudevaiya for garden cultivation on full assessment, of the land encroached upon by him in gomal and soppinbetta Survey No. 63 of the Bidaragodu village, Tirthahalli taluk.

2. Letter No. 213—177, dated 26th August 1900, from the Deputy Commissioner, Shimoga district, submitting, with reference to para 3 of the above, further explanation regarding the encroachment, and recommending that the portion of land now occupied by Vasudevaiya may be confirmed to him on full assessment.

**No. 3595-6—R. 1172, DATED BANGALORE, 31ST OCTOBER 1900.**

ORDER THEREON—The Deputy Commissioner ought to have been a little more explicit in his statement of facts and in his recommendation and the reasons therefor.

2. There are two plots involved which may be called (a) and (b). The plot (a) is the land first granted to Vasudevaiya in 1892 on the Deputy Commissioner's own authority out of the gomal and soppinbetta number and for garden cultivation on Alve tenure. Its extent is 2 acres and 20 guntas. Out of this bit, 30 guntas were planted up by Vasudevaiya, but the result was a failure. The whole of this plot (*i. e.*, 2 acres and 20 guntas) has been resumed. Alve assessment on the whole of it must be levied from the date of grant to the date of resumption. The other plot (b) in the same survey number is the land (2 acres and 22 guntas) unauthorizedly taken possession of by Vasudevaiya, and a portion of which (*i. e.*, 1 acre and 27 guntas) has been planted up. Full assessment on the whole of this plot of 2 acres and 22 guntas must be recovered from the date of taking possession, as also the value of trees thereon, if any, and such fine as the Deputy Commissioner deems sufficient but not less than rupees five.

READ —

The following extracts from Comptroller's letter, dated 25th July 1900, reporting the extent to which effect has been given to the proposals contained in Mr. Biddulph's Manual :—

* * * * *

2. I have issued orders to follow the rules in the Manual in their entirety, except Rules 111 and 255.

3. In Rule 111 mention is made of abstract travelling allowances, while Rule 235 lays down in detail the pre-audit of detail bills once for all as they are received in this office for such audit before payment is made at the Treasuries. If Rule 235 is to be followed, the words "and Travelling allowances" after "Contingent" have to be omitted from Rule 111.

4. Rule 255 appears to be inconsistent with Rules 252 and 253 dealing with dead accounts under Savings Bank deposit. Under Rule 253, such deposits as have to be transferred to "Dead account" are to be debited to "Current account" and credited to "Dead account" not to Miscellaneous (Government account). If, therefore, the deposits so credited, were to be revived by debit to Miscellaneous refunds (Government account), as laid down in Article 255, the credits under "Dead account" will accumulate and remain as credits in the Balance account without any chance of adjustment.

5. In these circumstances, I am unable to follow these two rules without deviation and would request * * further instructions on the point.

6. As regards the compilation of a separate Civil Account Code for this Province, the compilation of the 2nd Volume has been prohibited by the Comptroller General and in the case of the 1st Volume, permission has been granted on the condition that the book should not be made available for sale to the general public.

**No. 2921—R. F. 87-92, DATED MYSORE, 6TH OCTOBER 1900.**

ORDER THEREON—Government are glad that the Comptroller has found it possible to give full effect to Mr. Biddulph's recommendations in his Office Manual. The action taken by the Comptroller is approved.

2. Regarding the doubt he entertains in giving effect to Rules 111 and 255, Government observe that with regard to travelling allowance bills, as the pre-audit system is in force in Mysore and no such bills are paid before audit, the words "and travelling allowance" after "contingent" may be omitted as proposed by the Comptroller. With regard to Rule 255, the Comptroller will suggest such modification of the rule as would prevent the credits under Dead account accumulating and remaining as credits in the Balance account without adjustment.

3. As regards the compilation of an expurgated edition of the British Civil Account Code, Government observe that there is much in Volume I thereof that is not applicable to Mysore. The Comptroller will therefore be requested to complete his compilation of the volume, retaining only such of the provisions as are applicable to Mysore and arrange to have the same printed as speedily as possible after obtaining the approval of Government.

Correspondence ending with letter No. 5373—1111, dated 29th June 1899, from the Deputy Commissioner, Kolar district, regarding the right of one Venkatanna for the refund of the sale amount of Rs. 10, being the value of the amarai produce of trees standing in part of Survey No. 22 at Jogyanahalli village, Chintamani taluk.

No. 3389-90—FL. 315, DATED BANGALORE, 25TH OCTOBER 1900.

ORDER THEREON—Prior to the Survey Settlement of the Chintamani taluk in 1887-88, Maji Nos. 37 and 40 of the Jogyanahalli village, measuring 2 kudus and 1½ padis and assessed at 14 annas, were in the occupancy of one Venkatanna. The lands were assessed at garden rates. The occupant of these lands had raised a tope thereon consisting of 40 trees including tamarind and other varieties and was in the enjoyment of their produce. The adjoining Maji Nos. 35, 38 and 39 also contained some trees which were planted by one Chandaiya, grand-father of Venkatanna. During the Survey Settlement, Maji Nos. 37 and 40 were found to measure 12 guntas and were assessed at one rupee.

Venkatanna refused to take up these lands, as borne out by the Survey Phaisal Patrika and the Phutkul Patrika; consequently all the Maji Nos. 35, 37, 38, 39 and 40 were clubbed together and formed into Survey No. 22, measuring 4 acres and 3 ½ guntas, with a Phut kharab of 35 guntas and assessed at Rs. 11. But, as the Survey number contained a tope, it was treated wholly as kharab and the assessment thereon written off. On the 12th December 1887, Venkatanna petitioned the Deputy Commissioner stating that he did not refuse to take up the Maji Nos. 37 and 40, and requested that either the whole Survey No. 22 or only the portion which was in his enjoyment prior to the Survey Settlement might be given to him, or that he might be allowed to enjoy the produce of the tope. The Amildar, to whom the Deputy Commissioner referred the matter for enquiry and report, stated that the accounts of the year Parabhava (1846-47) showed that the amarai of the trees existing on the Government land included in Survey No. 22 belonged to one Chandaiya, grand-father of the petitioner Venkatanna and that Maji Nos. 37 and 40 were in the occupancy of Venkatanna. Thereupon, the Deputy Commissioner directed the Amildar to make a note in the Phaisal Patrika to the effect that the petitioner Venkatanna should not cut living trees but might take dead trees planting new ones in their stead. This order was accordingly entered in the Phaisal Patrika. In the year 1890, Venkatanna again petitioned the Deputy Commissioner requesting that he might be allowed to take the produce of the tope as his right to the trees of the tope had been already conceded. On enquiry by the Amildar, Venkatanna in his deposition acknowledged that he was enjoying the produce of the trees existing on Maji Nos. 37 and 40 and requested that he might be allowed either to enjoy the produce of the trees planted by him on the Maji numbers or to take up Survey No. 22 wholly or partly on assessment. He refused at the same time to pay the price of the trees or to pay kandayam for previous years. In September 1891, the General Assistant Commissioner ordered that, as the petitioner himself admitted that he had been enjoying the produce of the tope planted by him, nothing need be done in the matter. An endorsement to this effect was issued to Venkatanna. Accordingly Venkatanna was in the enjoyment of the produce of the trees planted by him on Maji Nos. 37 and 40, and this was being excluded from the annual amarai sale of the village. In 1896-97, the produce of the said trees was included in the village amarai which fetched Rs. 16-8-3. Gopalappa, son of Venkatanna, who had died in the meantime, petitioned the Deputy Commissioner on the subject. On further enquiry, the Assistant Commissioner ordered that an amount of Rs. 10 out of the amount realized by the amarai sale of the village be paid to the applicant, and the sum was accordingly paid. Thereupon, the Deputy Commissioner submitted to Government for sanction a remission statement for this amount. The Deputy Commissioner, who was asked to place himself in communication with the Superintendent, Revenue Survey, and to obtain his opinion in the matter, now reports that the Survey Superintendent is of opinion that as the Khatadar of Maji Nos. 37 and 40 declined the occupancy at the time of the Settlement and as the whole Survey No. 22 was in consequence brought under kharab, the Khatedar has no lien on the 12 guntas of land which was in his holding, and that his refusal to pay up the assessment on the portion for the previous years disentitled him to the said right. The Deputy Commissioner further states that the remark in the Phutkul Patrika confirms the view of the Survey Superintendent: that though the land was brought under Government waste, the individual seems to have been enjoying the produce of the trees ever since, on the authority of the General Assistant Commissioner's Order of 1891; and that it was perhaps under such considerations, the previous Deputy Commissioner thought it necessary to submit a remission statement.

2. Government observe that no case for any refund or remission has been made out. The records disclose local irregularities which ought then and there to have been corrected. The Survey Phaisal Patrika is conclusive to show that the individual concerned refused to take up his Maji land as surveyed and measured. This proceeding brought his title, if any, to a termination and he had no right whatever thenceforward either to the trees or to the enjoyment of the produce. The right to the dried trees was first conceded and then the right to

the produce was recognised or rather acquiesced in. Such indirect and inconclusive orders, led to further assumptions of right when a deduction out of the amarai sale was ordered in his favor. All these irregularities should have been put a stop to at once. The applicant has no right to the land or to the trees. He abandoned both at the Survey Settlement. No refund can be sanctioned.

Letter No. 500—69, dated 1st September 1900, from the Deputy Commissioner, Kolar district, submitting, for sanction, a refund bill for Rs. 79-11-0; a remission statement for Rs. 159-6-0, and an alienation statement in respect of certain inam lands in the Ghatamaranahalli Sarvamanya village of the Sidlaghatta taluk.

No. 3449-52—Fl. 321, DATED BANGALORE, 27TH OCTOBER 1900.

ORDER THEREON—Ghatamaranahalli, in the Sidlaghatta taluk, is a Sarvamanya village endowed for the benefit of the Sri Chandrasekharaswami temple at Jangamkote, the amount payable to Government annually being Rs. 36-5-0, inclusive of Rs. 18-12-0 on the Fakir* and Personal Inamties† comprised therein.

*Fakir Inam land.

| Extent. | | Assessment. | | |
|---|---|---|---|---|
| A. | G. | Rs. | a. | p. |

| Extent. | | | Assessment. | | |
|---|---|---|---|---|---|
| K. | K. | P. | Rs | a. | p. |
| 0 | 3½ | 0 | 3 | 0 | 0 |

2. The Fakir inam was intended for the support of a Makkan. It having been found to be in ruins for years, the inam was ordered, during the Inam Settlement of 1875, to be resumed to Government. But the order of resumption was not brought into effect nor the full assessment, *viz.*, Rs. 12-12-10, with cess, demanded till 1886. Coercive processes were then adopted and the land was sold in 1888 to one Narasinga Rao for Rs. 112. The inam land was then transferred to the nearest Government village of Hospet and its akarband was accordingly corrected in 1890.

3. The Personal inamti was taken up some 50 years ago for the construction of the present travellers' bungalow at Jangamkote. No records are reported to be forthcoming as to whether the inamdar received any money compensation for it or any land in exchange. But it appears that he had relinquished the land when it was selected for a public building.

4. On the representation of the manager of the temple, the Inam Superintendent directed him to pay the full quit-rent, &c., of the village. Accordingly Rs. 18-12-0 were recovered and credited to the Treasury from 1887-88 to 1890-91. The Superintendent of Inam Settlements, to whom the Amildar had referred the matter pointing out that Rs. 18-12-0 had been charged in the revised Quit-rent Register whereas only the cess was being paid, opined that necessary corrections should be made in the accounts if they had to be alienated from the village.

5. The Deputy Commissioner submits, accordingly, for the sanction of Government, a refund bill for Rs. 79-11-0 in favor of the manager of the temple who claims the refund of the excess collections, a remission statement for Rs. 159-6-0 brought to the account against the village from 1891-92 to 1898-99, and an alienation statement in respect of the Fakir inamti transferred to the Government village of Hospet and the Personal inam taken up for the construction of the travellers' bungalow.

6. Under these circumstances, sanction is hereby accorded to the refund of the excess amount, *viz.*, Rs. 79-11-0, to the remission of Rs. 159-6-0, and also to the alienation of the Fakir and Personal inam lands.

**No. 3479-87—FL. 322, DATED BANGALORE, 27TH OCTOBER 1900.**

ORDER THEREON—The Deputy Commissioner, Shimoga district states that Rule VIII, para 1 of the Mysore Land Revenue Rules which requires the District Treasury Shroff to furnish a security of Rs. 1,000, does not specify the amount of security to be taken from the Deputy Shroff of the same Treasury, who is, however, required to give a security of Rs. 1,000, presumably under the late Chief Commissioner's Order No. 6356-64—Mis. 639, dated 26th February 1880, and requests orders as to whether Rs. 500, is not a sufficient security in his case considering that his responsibility in a District Treasury is less than that of a Taluk Treasury Shroff who is required to give a security of Rs. 500. The Deputy Commissioners of Kolar, Tumkur, Mysore and Chitaldrug are in favor of reducing the security amount in the case of the Deputy Shroff from Rs. 1,000 to Rs. 500, while the Deputy Commissioners of Bangalore and Kadur are of opinion that the amount of security should be equal in the case of both the Head and Deputy Shroffs as they have the same responsibilities. The Deputy Commissioner of the Hassan district states that if the amount of security in the case of the Deputy Shroff is to be reduced to Rs. 500, on account of his pay being less than that of the Head Shroff, the case of the Taluk Treasury Shroff, whose pay and responsibility are less than those of the other two shroffs, should also be taken into consideration, and therefore suggests that the securities to be furnished by the District Treasury Head and Deputy Shroffs and the Taluk Treasury Shroff be fixed at Rs 1,000, 750, and 500, respectively. The Comptroller is of opinion that as the Deputy Shroffs in District Treasuries, who work under the Head Shroffs as their assistants, and as such, are not entrusted with the same amount of cash, nor invested with the same independent responsibility, receive only smaller pay, their security amount may be reduced to Rs. 500 and that the amount of security in the case of shroffs of Taluk Treasuries need not be reduced, as they are solely responsible for all cash transactions in those Treasuries.

2. The Government consider that the practice of taking a security of Rs. 1,000, from the Deputy Shroff of District Treasuries is not quite in keeping with the emoluments and responsibilities attached to their duties and accordingly direct that the security in their case be reduced to Rs, 500, subject strictly to the proviso that they are not, at any time, entrusted with more than their security amount.

3. The following Notification will also be published in the *Gazette*.

Letter No. 822, dated the 2nd June 1900, from the Deputy Commissioner, Kadur district, submitting, for sanction, a refund bill in favor of Bharmanna and two others of Koppa taluk.

No. 3608-9—FL. 337, DATED BANGALORE, 31ST OCTOBER 1900.

ORDER THEREON—Survey Nos. 7 and 8 of Heggar village in the Koppa taluk, on which an arrear of Rs. 26-5-0 for 1896-97 was due by the khatedar Naga Heggadati, a minor orphan girl, were sold by public auction in December 1897, and were purchased by one Bharmanna for Rs. 34, of which Rs. 26-5-0 was credited in the Treasury towards the arrear, and the balance kept in deposit. The sale was cancelled in December 1899, owing to certain irregularities in the conduct thereof. In the meanwhile, the lands had been sold to Venka Heggadati and another and by them mortgaged to Sringeri Padmaraja Chetti. These parties paid the kandayam for the lands in question for 1897-98 and 1898-99, respectively, and the amounts were credited in the Treasury. The full amount of kandayam for three years of 1896-97, 1897-98 and 1898-99 amounting to Rs. 75 was also recovered from the khatedar Naga Heggadati and credited in the Treasury. The Deputy Commissioner proposes to refund the amount recovered from the auction purchaser Bharmanna, vendee Venka Heggadati and mortgagee Padmaraja Chetti and credited, *viz.*, Rs. 75-3-0 in all.

2. The records submitted disclose more than one irregularity. The local officers concerned should be required to exercise greater care in the conduct of sale proceedings in future. The Assistant Commissioner before confirming the sale ought to have satisfied himself that there was no fraud or irregularity, and his successor ought not to have cancelled the order passed by his predecessor.

3. As the whole proceeding appears to have been tainted with fraud, and as the Deputy Commissioner affirms that there is no dispute whatever, the refund recommended is sanctioned and the bills are forwarded to the Comptroller for audit.

Under Section 55 of the Excise Act XXII of 1881, as amended by Act VI of 1885, and introduced into Mysore by Regulation III of 1885, the Government of Mysore are pleased to make the following additions to the Toddy Rules published under Government Notification No. 11676—Ex. 476, dated 14th June 1898, and added to and amended by Notification No. 8236—Ex. 294, dated 19th May 1900:—

XIII. The Magistrates in whose Courts any persons may be convicted under Section 35 of the Excise Act for unlicensed or illicit tapping or illegal manufacture of toddy shall furnish copies of calendars or other information of such convictions to the Amildars of the taluks concerned.

XIV. The Amildars on receipt of such calendars or information shall collect the tree-tax due on the toddy-yielding trees proved to have been illicitly tapped.

XV. The trees illicitly tapped shall not be marked unless they are duly applied for by the offenders. If they apply for them, and there is no objection to the issue of a tapping license, the trees may be marked and dealt with in the usual course under the Tree-tax Rules, provided that if the amount of tree-tax has already been collected, further demand therefor shall not be made by the Amildar.

Letter No. 82, dated 21st July 1894, from the Deputy Commissioner, Tumkur district, requesting to be informed whether para 3 of Government Proceedings No. 22873-81—R. F. 286-92, dated 22nd June 1894, directing the enforcement of the raiyats' duty, in regard to the annual maintenance of minor tanks, is applicable also to minor tanks not brought up to standard and, if not, requesting that a rule may be laid down authorizing the maintenance work of such tanks being done by Government and the recovery of such cost as a revenue demand from the raiyats failing to do the work required of them.

2. Correspondence ending with letter No. 4639, dated 7th September 1894, from the Chief Engineer in Mysore, giving his opinion on the subject.

No. 3035-43—PET. 452, DATED BANGALORE, 11TH OCTOBER 1900.

ORDER THEREON—The Government do not think it expedient or politic to add to the raiyats' burdens regarding the repairs of tanks.

2. The existing Rules provide that:—

(1) No work should be done to a tank, the average revenue of which is below Rs. 100, except under the orders of Government.

(2) No work should be done to a tank, the average revenue of which is below Rs. 300, except when the raiyats come forward to do the earth-work or pay the cost of it as contribution, in which case Government may do stone and masonry work.

3. These restrictions, however, do not apply to tanks which are in a series or are otherwise, as by situation near a railway line, &c., important. Such tanks should, therefore, be brought up to a standard of safety independently of the raiyats' obligations above specified.

4. The maintenance of such tanks as have been brought up to standard by the Public Works Department and handed over to raiyats for their up-keep devolves upon them (raiyats) and should be strictly enforced under the rules contained in Notification No. 65, Public Works Department, dated 2nd October 1873. Under these rules, the work of a defaulting raiyat should be carried out by the village patel and the cost thereof recovered as a revenue arrear.

**5. With regard to all other tanks, the Revenue authorities should endeavour to have the annual maintenance work done by raiyats by using their reasonable influence and persuading the raiyats to do what is expected of them and what, in the long run, will prove to be in their own interest. Coercive measures are not necessary and cannot be sanctioned.**

**6. The attention of the Deputy Commissioners of districts is drawn to Government Orders Nos. 7249-57—Pet. F. 5-97 and 8448-56—R. 2918, dated 14th April 1899 and 30th May 1900, respectively, laying down subsidiary instructions in regard to the enforcement of the Chief Commissioner's Notification No. 65, dated 2nd October 1873, and Government trust that they will be duly carried out.**

The following Judgment of the Chief Court, copy of which was received with Registrar's letter No. 1926—85, dated 23rd September 1896 :—

IN THE CHIEF COURT OF MYSORE AT BANGALORE,

*Friday, the 24th day of July 1896.*

PRESENT :

J. W. BEST, ESQUIRE, *Chief Judge,*

AND

C. MEENACSHAYA, ESQUIRE, *Judge.*

*Second Appeal No. 71 of 1894-95.*

| Appellant. | *Versus* | Respondent. |
|---|---|---|
| Junje Gauda, (1st Defendant) | | Suryanarnappa, (Plaintiff) |

Second appeal against the decree of the District Judge of Mysore, in Appeal No. 114 of 1894, confirming the decree of the Court of the Munsiff of Hassan, in O. S. No. 586 of 1892.

This second appeal coming on for hearing on Friday the 12th day of June 1896, the Court delivered the following :—

JUDGMENT :

*The Chief Judge.*—The present case is distinguishable from S. A. No. 56 of 1893 in that defendants have failed to show that the settlement was sanctioned by Government, or that patta was granted to the defendants in accordance therewith.

The Notification of 15th November 1883 had clearly for its object the prevention of hardship to the owners of inam villages. It therefore directed that, instead of the lands being sold when arrears of revenue accrued, they should be attached and managed by the Amildar of the taluk, and the profits arising therefrom be applied in defraying the said arrears. From Rule IX it is clear that it was not intended that the village should "vest in Government" till after the period of twelve years ; or if the application referred to in Rule VII was made within that period, till after the expiration of the period prescribed by the Deputy Commissioner for payment of any balance of arrears remaining unpaid. Till it so vested in Government, the property must be held to be managed by the Amildar on behalf of the inamdars. As to the provision in Rule VIII, that surplus receipts of years previous to that in which the application for restoration is made "shall be at the disposal of Government," it seems to me that this means no more than that Government shall not be liable to account to the defaulting inamdar for the receipts and disbursements of such previous years.

Rule IV no doubt directs that the Deputy Commissioner shall cause a detailed survey and settlement to be introduced into such village ; but I do not understand that the settlement here referred to is anything more than the settlement of the amount payable to Government as assessment or jodi. There is nothing in the Notification to justify the holding that on the restoration of the village under Rule VII the jodidar is not at liberty to demand from his tenants a higher rent than the amount settled on account of the jodi. Rule 120 of the Land Revenue Code shows the contrary.

The decrees of the Lower Courts appear to be correct, and this appeal must be dismissed with costs.

*C. Meenacshaya, Esquire.*—I am also of opinion that the appeal ought to be dismissed. The defendant adduced no evidence of the alleged settlement : he has not proved that the Government sanctioned the settlement or that a patta was issued to him. It was to enable him to adduce evidence to establish these points that the District Judge remanded

the suit. He intentionally abstained from giving any evidence. In this respect, this case is distinguishable from 2nd Appeal No. 56, and there is no necessity to consider the provisions of the Land Revenue Code bearing upon the subject.

I would dismiss this appeal with costs.

***Second Appeal No. 56 of 1893.***

**Second appeal against the decree of the Sub-Judge of Mysore in Appeal No. 55 of 1892, reversing the decree of the Court of the Munsiff of Hassan, in Original Suit No. 469 of 1891.**

**This second appeal coming on for hearing this day, the Court delivered the following :—**

JUDGMENT :

***A. Ramachandra Iyar, Esquire.*—The plaintiff and others, who were jodidars of a village in Manjarabad taluk, failed to pay the jodi due from them to Government. The Deputy Commissioner of Hassan resumed possession of the village and caused it to be surveyed and settled in exercise of the power conferred upon him by Notification No. 271, dated 15th November 1883 (page 32, Mysore Revenue Manual). The jodidars paid the arrear of jodi and obtained possession of the village from the Deputy Commissioner. The defendant was a cultivator for varam of a portion of the plaintiff's land. After the village was restored to the jodidars, the plaintiff sued the defendant for arrears of varam. The latter pleaded that the suit was bad, as the village had been settled and as a patta had been given him for the land under his cultivation. The claim was decreed by the Munsiff of Hassan. The Subordinate Judge of Mysore reversed the decree and dismissed the suit. The plaintiff has made a second appeal, on the ground that the settlement did not affect the relation of land-lord and tenant.**

**As the judgment of the Lower Courts did not set out the facts of the case, we directed the Subordinate Judge to call for additional evidence and to try three issues, which were framed by us, and we have also obtained from the office of the Chief Secretary the papers which related to the extension of the provisions of the Survey Act to the village in question.**

**I gather from these papers that, when the village was in the possession of the Deputy Commissioner, the jodidars objected to the settlement and begged that the operations of the Department might be cancelled. The question was finally disposed of by Government by Proceedings, dated 10th September 1888, which was as follows :—"I am directed to state that the objection of the parties concerned cannot be recognized at this stage of proceedings, the rates having already been announced and introduction of the settlement being thereby completed. The settlement must be deemed to be quite complete in form and the progress of any departmental scrutiny of the settlement papers cannot affect the question in any way." The jodidars paid all arrears and got possession sometime after 19th December 1889.**

**The Notification No. 271 was issued by Government with a view to afford relief to jodidars and to prevent the hardship consequent upon the sale of inam villages. It prohibited sales of inam villages for revenue arrears and empowered Deputy Commissioners to take temporary possession of the property of defaulters; and to cause a detailed survey and settlement to be introduced. The provisions of the Survey and Settlement Act might be applied to an alienated village, if the holder thereof made an application in writing (Section 49). The legal effect of the Notification No. 271 issued in 1883 was to substitute the will of Government for that of the holder of the village. Whether a settlement was made upon an application of the holder under Section 49 of the Act, or under orders conveyed by Government in accordance with the Notification of 1883, it is obvious that a settlement, when completed, ought to remain in force for thirty years. The village was restored to the jodidars long after the settlement was completed. That being so, they took possession of the village, subject to all the rights and obligations created by the introduction of the settlement; and a Civil Court has no power to annul it. It may be that the defendant, who was a varam tenant, had no right to get a patta in his name. If the Register of Occupants has been wrongly made by the Settlement Department, the plaintiff may apply for redress in the manner provided by the Survey and Settlement Act.**

Civil Courts have no power to sit in judgment over the Settlement Department. I am of opinion that the second appeal ought to be dismissed with costs.

*P.N. Krishnamurti, Esquire.*—I am also of opinion that the suit has been properly dismissed and that there are no grounds to support this second appeal.

Although the restoration of the village took place after the Land Revenue Code came into force, yet it is clear that the Survey Settlement had been introduced into the village before the said Code became law. The rules under which the village was resumed and the Survey Settlement introduced were those contained in Government Notification No. 271, dated 15th November 1883. (Revenue Manual, Page 32.)

Under Rule 3, the effect of such resumption would seem to be a total extinguishment of the inamdar's title and the establishment in lieu, of the Government right. This rule directs that the lands of any village shall "revert" to Government. The restoration contemplated by Rule VII is a fresh grant and an act of indulgence to the inamdar. That this is so is further borne out by the provision contained in Rule VIII that "the surplus proceeds, if any, of previous years, shall be at the disposal of Government." The correct interpretation of these rules seems to be that, during the time the Government keeps such village in its management, the ownership of the alienees for the time being will be suspended. The Government will be, to all intents and purposes, full owners, although, as an act of grace, the Government has declared its intention to restore it if, within a period of twelve years, certain conditions are fulfilled. The sale was stopped, as the Government wished to keep the freedom of action in its own hands and any transfer of ownership to others than Government would completely incapacitate a defaulting inamdar from recovering his village at any time. In doing so, the Government did not step in as managers or trustees but caused the lands of the village to revert to them free of all incumbrances.

Viewing the transactions in this light, it becomes plain that the Government acted as full proprietors. Letting out batayi lands on settled rates of kandayam tenure is an incident of such proprietorship. No error of Revenue Officers is discernible in these records. The settlement itself is a disposal of the occupancy rights, and when lands are given away to occupants at the time of settlement, it is incorrect to argue that the inamdar, who was at no time the actual occupant of the soil, should have been treated as the khatedar of the ante-survey period. He was collecting the vara produce as the proprietor of the village and such right is converted by the Survey Settlement into one of receiving the kandayam. The restoration does not abrogate all the liabilities to which the Government has entered with the actual occupants of the soil. There is no express declaration by Government as to how long the rights of the raiyats created thus are to continue and how they can be terminated and under what conditions analogously to Section 237 of the Land Revenue Code. The terms of the guarantee must, therefore, settle these matters. There is a Bombay Government Resolution (G. R. No. 3045, dated 14th April 1884, page 209 of H. V. Sathe's annotated Edition of the Land Revenue Code, Bombay, 1892) that "when the term for which a Survey Settlement introduced in an inam village (prior to the passing of the Code) expires, the mutual relations of the inamdar and his raiyats revert to the *status quo ante* and Government are powerless to insist on the inamdar to adhere to the terms of that settlement in the absence of any agreement to that effect. To give such raiyats the benefits secured by Section 237, the taking of such an agreement would have been a desirable precaution on the part of Government; but it is not necessary to refer to this contingency any further. During the time the present settlement lasts, the inamdar is bound by the terms thereof and he is not entitled to go back to the period of vara tenure.

I agree to this second appeal being dismissed with costs.

No. 2996-3004—P. F. 9-98, DATED BANGALORE, 11TH OCTOBER 1900.

ORDER THEREON.—The Government observe that the effect of the above Judgments is to render a Survey Settlement, under Section 120 of the Land Revenue Code or the Revenue Notification for which it was substituted, revocable at the option of the restored inamdar. The Superintendent of Revenue Survey in Mysore and the Deputy Commissioners of districts, will be requested to favor Government with their opinions as to whether a rule may be laid down making it obligatory on the part of the holders of alienated villages to respect the settlements effected during the temporary management of such villages by Government, under the aforesaid section of the Land Revenue Code.

Petition of Appeal No. 2082, dated 20th April 1900, presented by Pujari Rangappa of Burujanroppa village in the Hiriyur taluk, against the order of the Deputy Commissioner, Chitaldrug district, declining to grant to petitioner a portion of Survey No. 78 of the said village for cultivation.

*Letter No. 207, dated 21st August 1900, from the Deputy Commissioner, Chitaldrug District, reporting on the above.*

With reference to your Official Memorandum No. Pet. 1125, dated the 20th April last, forwarding to me for report a petition of appeal received at the Dewan's Office from Pujari Rangappa of Burujanroppa in the Hiriyur taluk, against my order declining to grant to him a portion of Survey No. 78 in the said village for cultivation, I have the honor to report as follows:—

2. On the 21st June 1893, the appellant (Pujari Rangappa) applied to the Amildar of Hiriyur that Survey No. 78, *kharab*, (measuring 70 acres and 25 guntas) of Burujanroppa might be granted to him for cultivation.

3. The Amildar thereupon ordered the shekdar to ascertain and report why the applicant had applied for the kharab land in preference to assessed lands lying waste and to submit a list of available assessed waste lands in the village together with a mahazar from the raiyats of the village.

4. On the 28th February 1894, the shekdar submitted to the Amildar the list and the mahazar called for. The mahazar states that the assessed lands in the village that are lying waste are unfit for cultivation, that the kharab land applied for is conveniently situated being close to the land in the occupation of the applicant and that the raiyats of the village have no objection whatever to the land applied for being granted to the applicant for cultivation. The list submitted by the shekdar shows that in the village of Burujanroppa there are ten assessed waste lands with an extent of about 165 acres.

5. On the 18th July 1894, the Amildar not having been satisfied with the information furnished by the shekdar, directed him to make a careful inspection and submit a report in the matter.

6. On the 12th October 1894, the shekdar reported to the Amildar that the kharab land applied for was unfit for cultivation owing to the existence of a *mamul* path running across it and of a "halla" close by; that cattle going to the halla to drink water had necessarily to pass through that land, and that by granting it to the applicant for cultivation, much inconvenience would be caused to the raiyats of the village and that the object of the application was not so much to obtain the land and profit by its cultivation as to cause needless annoyance to the raiyats. The statement of the villagers which accompanied the above report, while confirming all that is stated in the shekdar's report, adds however that when the raiyats executed the first mahazar above referred to they wrongly believed that the grant of the kharab land in question to the applicant for cultivation would not cause inconvenience to the raiyats of the village and that, as it has been since discovered that the grant of it for cultivation would certainly cause much inconvenience to them, the appellant's (Rangappa's) application should be rejected.

7. On the 1st December 1895, the raiyats of Burujanroppa presented a petition to the Amildar stating that the grant of kharab land Survey No. 78 for cultivation would put the raiyats to very great inconvenience especially as the *mamul* path running across it to the "halla" close by would thereby be practically blocked up and the large number of village cattle grazing on the waste lands in the neighbourhood would be prevented from passing through that path to the halla, and as they (raiyats), who used to remove mud, &c., from the said kharab land for building houses would also be prevented thereafter from deriving such benefit from that land.

8. Another petition, dated the 20th December 1895, and addressed to the Amildar by some raiyats of Burujanroppa, states that when they had been first asked to execute a mahazar as to whether kharab land Survey No. 78 might be granted for cultivation, they executed a mahazar stating that they had no objection whatever to its being so granted, but when they were asked sometime afterwards to execute another mahazar regarding the same matter, they stated that the grant of the land in question to the applicant would cause serious inconvenience to the raiyats of the village, that they made this latter statement under the pressure of shanbhog Naranappa of Burujanroppa, who had promised them that if they made that statement he would give away to them a large portion of kharab

land Survey No. 76 he had just then obtained for cultivation, reserving for himself 20 acres only out of it, and that Survey No. 78 may well be granted to the applicant Rangappa, since, as a matter of fact, no inconvenience would result therefrom to the raiyats of the village.

9. On the 3rd February 1896, a number of raiyats of Burujanroppa presented a petition to me praying that kharab land, Survey No. 78, might not be granted to the applicant for cultivation, as it was absolutely required for village communal purposes and that the application made by Rangappa was not a *bona fide* one but was made to please Thippaiya, patel of the village. I forwarded this petition to the Amildar for report.

10. On the 15th July 1896, the Amildar reported to me that, from the several petitions and mahazars received from the raiyats of Burujanroppa regarding the application of Rangappa for Survey No. 78 for purposes of cultivation, there did not appear to be a shadow of doubt as to the existence of two factions in the village, each trying to do as much mischief to the other as was possible, headed as it was by either of the two prominent village officials—the shanbhog or the patel—that he (Amildar), without, however, relying on those papers, had personally inspected the land in question and satisfied himself that it might properly be granted to the applicant for cultivation; that, excepting a few of the raiyats, the rest had no objection to its being granted for cultivation; that the chief objection of the raiyats that opposed the application was that a *mamul* path running across the land would be blocked up; that as a matter of fact the said path was not a recognized one, as it had not been shown in the village map; that even if a *mamul* path existed thereon, that circumstance alone would not affect the propriety of the grant of the land for cultivation, as the applicant was prepared to take up the land with the portion covered by the path excluded and to execute a muchalika to that effect; and that even if the land applied for was granted for cultivation, there would still be a sufficiently large extent of waste lands in the village to more than meet all pasturage requirements of the raiyats for their cattle.

11. I thereupon reserved the matter for personal investigation. But before I could inspect the land and pass final orders in the matter, Mr. K. Srinivasa Rao, Assistant Commissioner, conducted the Huzur Jamabandi of the taluk, when he inspected the said land and reported to me (22nd April 1898) that there was a halla to the south of it, and on the three other sides there were lands under cultivation; that the land applied for might be phoded as shown in the sketch that accompanied the report and the eastern portion of the land might be granted to the applicant, the western portion being reserved for village communal purposes; and that the applicant and the raiyats of the village had agreed before him to the land being so phoded and granted for cultivation and had given statements to the same effect before the Amildar.

12. On the 5th May 1898, I issued orders to the Amildar to get the land phoded as proposed by the Assistant Commissioner (Mr. K. Srinivasa Rao) and submit the records to me.

13. In July 1898, the Amildar submitted the records to me stating that the land had been phoded as directed. I returned the records to the Amildar pointing out certain omissions noticed by me in the phod papers and asking him to re-submit the records to me after furnishing the necessary information called for.

14. At about the same time, one Virupakshappa of Burujanroppa presented a petition to me praying that the eastern portion of Survey No. 78 proposed to be granted to Rangappa free of sale might be sold by public auction, as he had no land at all for cultivation and was desirous of obtaining the land in question. He stated also that he would offer Rs. 100 for it at the outset and would even bid higher in the course of sale by public auction. I forwarded this petition to the Amildar for report. Another petition was received by me in October 1898 from a number of raiyats of Burujanroppa, who similarly prayed that the land proposed to be granted to Rangappa for cultivation might be sold by public auction so that they might have an opportunity of purchasing the land for the benefit of the villagers, which would otherwise be brought under cultivation and cause no small inconvenience to them. The petitioners offered Rs. 200 for the land in question and promised to bid much higher in the course of sale by public auction. I forwarded this petition also to the Amildar for report.

15. Thereupon, Rangappa, appellant, presented to me a petition stating that Naranappa, shanbhog of the village, was setting up raiyats to oppose the application made by him (appellant); that his application had been pending for a very long time; that he had spent money towards the expenses of phoding and the fixing of bandhs on the said land;

and that it might be granted to him without further delay. He presented a similar petition to me in April 1899. Each of these petitions was separately forwarded to the Amildar for report.

16. On the 4th June 1899, the Amildar submitted the records to me as I had told him that I would personally inspect the land and dispose of the matter finally.

17. After personal inspection of the land in question, I passed an order on the 23rd July 1900, in Kanarese, the translation of which is as follows:—

"I have seen the land. Burujanroppa is a large village. There are few waste lands. Moreover, it (land in question) is situated in a place where there is a path through which cattle pass and by the side of this (land) is a halla where cattle drink water. As the grant of the land for cultivation would cause hardship to raiyats, the application received should be rejected."

18. It is against this order that Rangappa has now appealed to Government.

19. It will be seen clearly from the several papers referred to above that there are two factions in the village. The Amildar in his Report No. 87, dated 15th July 1896, and Mr. K. Srinivasa Rao, Assistant Commissioner, in his Yadi No. 1154, dated 22nd April 1898, had strongly supported the application of the appellant. On receipt of these communications, I thought also that the land applied for might be granted for cultivation without inconvenience to the raiyats of the village. But the raiyats soon began to complain to me more bitterly than before that, if the land was granted for cultivation, it would cause them serious inconvenience. The phoding effected in the manner proposed by Mr. K. Srinivasa Rao, Assistant Commissioner, with a view to grant a portion of the land applied for to the applicant had also failed entirely to satisfy a large number of raiyats. The land in question still remained unassessed, and the path running across it to the halla close by, though not shown in the village map, appeared none the less to be a recognized one. The contention of a large number of raiyats that the grant of the land for cultivation would cause serious inconvenience to them appeared to be reasonable. I thought the rejection of the appellant's application, besides satisfying a large number of raiyats, was not on the other hand likely to cause any hardship to him as he could apply for and obtain easily any of the available assessed waste lands in the village for purposes of cultivation, though of course, they are not so close to the lands now in his occupation as the one he has applied for. The land applied for, moreover, was for the greater part rocky and unfit for cultivation and it appeared to me that the application for it was put in more to annoy raiyats, who had to make use of the path and stream than to profit by it by cultivating it. It was under these circumstances that the order now appealed against was passed by me.

20. The vernacular records connected with the case together with the petition of appeal received with your Official Memorandum under reply are herewith submitted.

No. 3338-45—Pet. 487, dated Bangalore, 23rd October 1900.

Order thereon—The Government do not see any reason not to accept the views of the Deputy Commissioner. There is a good deal of assessed waste available and, till the whole of it is exhausted, there is no reason to apply for unassessed waste, the occupation of which is, as in this case, not altogether free from objection. The appeal is accordingly rejected.

2. It is observed that the proceedings in this case disclose an amount of laxity and delay in the disposal of petitions and darkhasts which cannot reflect credit on the district or the taluk authorities. A simple matter like this was allowed to drag on for seven years within which time the party-feeling in the village was not only allowed to come into existence but greatly to develope. Promptitude and regularity are the essentials of good administration and both are markedly wanting in these proceedings.

Petition of Appeal No. 2236, dated 14th May 1900, presented by Nadig Gopalappa of Chetnahalli in the Honnali taluk, against the order of the Deputy Commissioner, Shimoga district, *in re* his claim to a vacant site in Bijjagatte village held to belong to Government.

2. Shimoga District Deputy Commissioner's Report No. 248—202, dated 6th September 1900, submitting the records of the case and stating that the Deputy Commissioner's Memo, dated 18th January 1900, filed with the records, gives the facts of the case.

3. Memo, dated 18th January 1900, of the Deputy Cammissioner referred to above which is as follows:—

"Mr. Seshagiri Rao's decision. Takrar list stated that the site was Sobaiya's and that he had been paying kandayam. It is possible that he was considered to have abandoned the site as he went away to another village, and perhaps the order was right. It should, however, have been expressly decided; and the question whether Sobaiya was rightly regarded as previous owner was perhaps also open to doubt."

"The 2nd Assistant Commissioner, however, on a subsequent petition from Gopalappa had no authority to over-rule the above and direct fresh enquiry. The order raises various doubts concerning the claim of Gopalappa. The Amildar, without even questioning Sobaiya and Mahadevappa, accepts Gopalappa's explanation, and on its strength recommends a refund—not to the original payer but to a stranger and the Assistant Commissioner accepts this. This is quite irregular and extraordinary."

"As the matter was decided long ago, I do not consider it expedient to re-open it now at the instance of a third party. His claim is not so patent that we should take the responsibility of deciding about its validity. If he paid kandayam for Sobaiya, it is not known that he was admitted to pay it on the strength of any title. The best course seems to be to allow the matter to stand as ordered by the 1st Assistant Commissioner, and if Gopalappa succeeds in establishing his claim in a proper Court, we may consider about the necessity of refunding the money to Mahadevappa."

No. 3346-53—PET. 488, DATED BANGALORE, 23RD OCTOBER 1900.

ORDER THEREON—The Deputy Commissioner's report is defective inasmuch as it does not give a statement of the facts or the grounds of decision. The Memo referred to is an incomplete document by itself. The Deputy Commissioner ought not, under the circumstances, to have omitted to send up a full report of the case.

2. Mahadevappa and Sobaiya are persons materially concerned in this case. Their statements should be taken in the presence of Gopalappa and the same submitted. It is in evidence that Sobaiya was in possession with his right recorded in the Village Registers for 13 years. Gopalappa sets up a sale from him. The question of fact as to whether this sale is true and genuine should be enquired into and found. Mahadevappa's possession has been confirmed on his payment of a fine. This act of the local officers conveys an implied admission that Mahadevappa's possession was not in its inception lawful. It does not seem proper under the circumstances to drive Gopalappa to establish his right in a Court of Justice. The right he has set up must be enquired into and found by the Deputy Commissioner. The final decision will follow this finding.

Petition of Appeal No. 127, dated 14th July 1898, presented by Ramachari, archak of Bannerghatta in the Anekal taluk, against the order of the Deputy Commissioner, Bangalore district, declining to stop the supply of water to, and to cancel the water-rate imposed on, the dry land of one Subbanna, below the Sulikunte tank, alleged by the petitioner to belong to him.

(2.) *Letter No. 9, dated 3rd July 1900, from the Deputy Commissioner, Bangalore District, reporting on the above.*

With reference to your Official Memo No. Pet.—806, dated 23rd February 1900, forwarding for report with records, petitions Nos. 142 and 1543, dated 14th July 1898 and 3rd February 1900, from Ramachari, archak, Bannerghatta, Anekal taluk, appealing against the Deputy Commissioner's order declining to re-open the question of water-rate levied on Subbanna's land below the Sulikere tank alleged to belong to the petitioner, I have the honor to forward herewith, the records relating to the case, and to state that, on the 21st September 1895 one Subbanna, son of Balaiya of Mylasandra, Bangalore taluk, applied to the Amildar of Bangalore for permission to use the water of a small tank in the village known as Sulikunte for a portion of his dry land Survey No. 33 situated below the tank on the ground that owing to percolation of water in the land, it was impossible to rise any dry crops on it. The Amildar referred the matter to the Begar shekdar, who reported that there was no objection to the water-rate being assessed on the land, and submitted a *mahazar* to the same effect purporting to be signed by the holders of wet lands under the tank and other raiyats of the village. The records were then sent up to the Survey Department, and a water-rate of Rs. 2-8-0 was then assessed on one acre of Subbanna's land by the Survey Superintendent in March 1896.

2. In April 1896, the appellant Ramachari who, though owning the major portion of the wet land under the tank, was not informed of Subbanna's application for water-rate, or of the Survey Superintendent's order thereon, found Subbanna using the tank water, and petitioned the Amildar and the Deputy Commissioner, protesting against such use. He was then given an endorsement by the Amildar to the effect that the lands had been assessed with water-rate by the Survey Superintendent, and that the tank in question was a Government tank and not the petitioner's private tank, as alleged by him.

3. The appellant thereupon applied to the Amildar of Bangalore and the Deputy Commissioner, objecting to the aforesaid water-rate, on the ground that the tank was his own, that the water in the tank was barely sufficient for his own wet lands, that he was the only owner of wet lands under the tank, that the *mahazar* had been fraudulently drawn up without his knowledge, and that the shekdar's report, submitted with the *mahazar*, was also false and fraudulent. Thereupon, Mr. Badami Krishna Rao, the then Amildar of Bangalore, inspected the tank under the order of the Deputy Commissioner, and reported on 27th February 1898, to the effect that the tank in question was a very small one with a trifling *atchkat* of seven and odd acres, that the appellant held five and odd acres out of it, that he had not been consulted when the *mahazar* was drawn up, and that it was not therefore desirable to assess water-rate on Subbanna's dry land to the detriment of the existing wet lands. On receipt of the Amildar's report, the Deputy Commissioner Mr. B. K. Venkatavaradaiengar passed orders declining to re-open the subject, as the "nirsarh" had already been assessed and was being collected. It is against this order that the present appeal has been made.

4. The petitions and their enclosures are herewith returned.

(3.) *Letter No. 506, dated 24th August 1900, from the same, submitting a further report on the above.*

With reference to your docket No. 1410—Pet. No. 152, of the 14th August 1900, calling for further particulars regarding the appeal of archak Ramachari against the grant of water to a dry land under the Sulikere tank in the Bangalore taluk, I have the honor to invite your attention to the then Amildar Mr. Badami Krishna Rao's report No. 573 of the 27th February 1898 (bearing Ferist No. 18 in the enclosed file) stating after personal inspection of the locality, that the petitioner Ramachari does suffer by the supply of water from Sulikunte tank to the said dry land, as the tank can only irrigate seven or eight acres of land. About two-thirds of the atchkat belongs to the petitioner. He was not consulted when water was allowed to the said dry land on *nir sarh* kandayam. The Amildar, therefore, recommends the withdrawal of the order authorizing the supply of water to the said dry land. I agree with him.

No. 3354-62—Pet. 489, dated Bangalore, 23rd October 1900.

Order thereon—The Government are of opinion that the petitioner has a valid grievance. Even the whole atchkat is not admittedly under cultivation, and the only holder of wet land under the tank, who is the petitioner, gets barely sufficient water for his own lands. This, the Amildar (Badami Krishna Rao) satisfied himself from personal inspection. The *mahazar* said to have been taken from raiyats, who have no irrigated land under the tank, is useless, and the imposition of water-rate on the application of Subbanna seems to have resulted from imperfect enquiry. The same order is accordingly cancelled, and the original classification of Subbanna's land as dry, must be restored. He should be prevented from interfering with the petitioner's tank or the irrigation of his land. This order does not, however, recognise any private ownership of the tank in the petitioner. The grounds for this decision are entirely the irrigating capacity of the tank which, it has been ascertained, is not sufficient to irrigate Subbanna's land.

Petition of Appeal No. 484, dated 24th August 1898, presented by Pilliga Pillanna of Kasba Bowringpet, against the order of the Jamabandi Officer, dated 19th May 1898, passed on the Takrar Phaisal Takhta, directing the recovery of Rs. 35 from the petitioner as the value of the land on which he had built a house and the levy of an assessment of one rupee as house-tax on the said house.

(2). Letter No. 633—102, dated 4th September 1900, from the Deputy Commissioner, Kolar district, reporting on the above:—

With reference to your Official Memorandum No. Pet. 222, dated the 12th December 1898, calling for a report on the petition of Paliga Pillanna appealing against the order of the Jamabandi Officer directing him to pay Rs. 35, the value of the land in the Bowringpet town, upon which he built a house, I have the honor to state that old Numbers 155, 156 and 157 attached to the Bowringpet village, measuring 15¼ Padis assessed Re. 0-11-1, appear to have been rented out on kandayam tenure to the petitioner in the year Vikrama (1880-81). When these lands were included in the village site is not known, but from the Pahani Account (Village Account Form No. VII) for the year Sarvajitu (1887-88), it is seen that the lands in question along with several others are returned as village site, the assessment thereon having been struck out.

2. In the year 1897 the petitioner without obtaining permission built a house on old No. 155. The plot of land so occupied by him measured 140 square yards. The facts of the case were put on Takrar Takhta and brought up for the orders of the Jamabandi Officer, Mr. K. Ramachandra Rao, who ordered the levy of 4 annas per square yard which amounted to Rs. 35.

3. The Survey Settlement of the taluk took place in the year 1888-89. As the lands in question were, long before the Survey Settlement, included in the village site, "no hakdari" shara is made in the Survey records. Hence the copy of the Faisal Patrika, called for in the above Memorandum, is not submitted.

4. As regards the petitioner's allegation that no steps were taken in case of another piece of land on which house had been built and which he transferred to Silemansabi, it has to be stated that the building had already been erected on the land and the Municipal tax was being levied thereupon. The Jamabandi Officer appears to have therefore taken no action in fixing the valuation of the land.

5. The Takrar Takhta and the other papers in connection with the case are herewith submitted.

(3). The records of the case.

No. 3494-501—Pet. 528, dated Bangalore, 27th October 1900.

Order thereon—It is admitted that the land in question was in the petitioner's holding. It does not appear when it was resumed, and in the absence of clear evidence to the contrary, this question must be found in the negative. It is admitted also that no compensation was paid to the petitioner. The probability is that the land was not resumed but the character of it was changed from its being arable assessed land to a building site in the town of Bowringpet. This change does not affect the right of the petitioner to possess the land or to utilize it for purposes impliedly sanctioned by the change. He built a house, and there is no reason to levy any price for the land which was admittedly the petitioner's own and presumably continued so. The order of the Jamabandi Officer (Mr. K. Ramachandra Rao) is accordingly reversed and the money, if recovered, will be refunded.

2. The attention of the Deputy Commissioner is invited to the long delay of two years which has been allowed to take place in the submission of this report.

2. Letter No. 257, dated 23rd September 1899, from the Deputy Commissioner, Tumkur district, reporting, with reference to the above, that though the said Narasingappa is the Registered Shanbhog of the three firkas of (1) Prabhuvanahalli, (2) Hosahalli and (3) Madenhalli in the Gubbi taluk, he has been put in charge of the Madenhalli firka in accordance with the Proceedings of Government referred to above, while his son Narasaiya is the Officiator Shanbhog of Prabhuvanahalli firka and his maternal uncle Surappa looks after the work of the Hosahalli firka.

No. 3493—Pet. F. 65-98, dated Bangalore, 27th October 1900.

Order thereon—The Government observe that the Deputy Commissioner has not explained with what status the maternal uncle (Surappa) looks after the duties of Hosahalli firka. The attention of the Deputy Commissioner is invited to Rule 29 of the Potgi Rules, and he is requested to take action to appoint a regular officiator for that charge.

No. 3530-37—PET. 536, DATED BANGALORE, 29TH OCTOBER 1900.

ORDER THEREON—Under the peculiar circumstances of the case, the Government are pleased to reduce the fine to one year's water rate, as the petitioner is technically guilty of using water without permission.

2. The attention of the Deputy Commissioner is invited to the delay which is very prejudicial to *bonâ fide* cultivators and highly objectionable in the interests of the Government revenue. The application was for water for the Vysakhi crop of the year (Hevilambi) in which the application was made, and the matter is reported to be still pending two years after. The delay which has been allowed to occur, unless satisfactorily accounted for, makes the officer concerned liable to be censured by Government. # PUBLIC WORKS.

*Proceedings of the Government of Mysore.*

READ—

The following Note, by the Chief Engineer, dated 14th September 1900, re-submitting for formal sanction, the Public Works budget estimates for the year 1900-1901 :—

I beg to re-submit for the formal sanction of Government, the Public Works budget estimates for the year 1900-1901, modified as per Sir K Sheshadri Iyer's instructions on this office Note, dated 19th July last. They now aggregate Rs 31,69,725 against Rs. 40,84,413 of the previous year. The following are the sources from which the outlay has to be met :—

| | | Rs. |
|---|---|---|
| Provincial Fund ... | Ordinary grant ... ... | 11,00,000 |
| | Special grant ... ... | 14,00,000 |
| District Funds ... ... ... ... | | 3,72,525 |
| Local Funds General ... ... ... ... | | 47,200 |
| Irrigation Cess Fund ... ... ... ... | | 2,00,000 |
| Palace Fund ... ... ... ... | | 50,000 |

## PROVINCIAL FUND.

2. It having been ordered by Government that on account of the present financial pressure, the grant under this head should be fixed at the lowest possible figure, the budget for Provincial works has been framed for 25 lakhs (against 33 lakhs for previous year) which is the amount required for carrying on only sanctioned works.

ORDINARY GRANT.

3. The grant assigned for ordinary works is Rs. 11,00,000 against Rs. 14,42,000 of the previous year, and its distribution by service heads will be found in the general abstract, pages 2 and 3.

4. *Original Works.*—No provision has been made for major works under *Military*, as the two sanctioned works, noted in the margin,* have been ordered to lie over for the present, pending decision of Government regarding proposed organization of the Armed Police and reduction of Barr Force. The first work, although sanctioned, was not started, while only such of the blocks of the second as were already under construction were completed and further work stopped. A sum of Rs. 2,000 has, however, been provided for sanctioned minor works under this head

*1. Re-constructing old Barr Lines at Bangalore. Estimate Rs. 77,424.

2. Re-constructing Barr Lines at Kolar. Estimate Rs. 73,740.

Under *Civil Buildings*, a grant of Rs. 1,32,500 has been provided, of which Rs. 99,500 have been assigned for the 18 incomplete major works detailed in Part I of Budget, and Rs. 13,000 for the improvement to the Maharani's Hospital at Mysore, an urgent new work, the project for which has since been sanctioned. The balance Rs. 20,000 is required for minor

*1. Paving with German tiles the verandahs of the first floor of the Public Offices at Bangalore. Estimate Rs. 12,996.

2. Extending Special Magistrate's Court at Ooregum. Estimate Rs. 7,209.

3. Constructing D. P. W. Sub-Division office and quarters for Sub-Division Officer, officials and servants at the Kolar Gold Fields. Estimate Rs. 10,711.

4. Constructing Staff bungalow at the Kolar Gold Fields. Estimate Rs. 9,834.

5. Constructing a combined office for the Taluk Cutcherry, Assistant Commissioner's office, and Munsiff's Court at Davangere. Estimate Rs. 67,310.

6. Constructing new Sub-Taluk Cutcherry at Harihar. Estimate Rs. 7,437.

7. Constructing new Munsiff's Court at Nanjangud. Estimate Rs. 7,788.
8. Constructing Assistant Engineer's quarters at Saklespur. Estimate Rs. 6,171.
9. Constructing new Revenue Sub-Division office at Sagar. Estimate Rs. 10,260.
10. Improving College at Shimoga. Estimate Rs. 13,389.
11. Additions to officials' quarters at Kallurkatte. Estimate Rs. 18,178.
12. Constructing additional officials' quarters at Mudgere. Estimate Rs. 27,096.

works in progress, and for fresh ones which may be urgently required during the year. Projects for the marginally * noted works, which were pending before Government, have all been ordered to stand over till next year.

Under *Communications*, an allotment of Rs. 43,500 has been made, *viz.*, Rs. 28,500, for 10 major works which are in progress, and Rs. 15,000 for the completion of minor works in hand, and for any urgent works that may be required during the year. The marginally * noted two works, for which projects have been sanctioned, but which have not been started as yet, have not been provided for, for want of funds, as they can well be postponed till next year. For the same reason, the following projects have been ordered to stand over :—

*1. Constructing second class musafirkhana at Harihar. Estimate Rs. 4,540.
2. Easing the gradients along the pipe track from Mysore to Belagola. Estimate Rs. 3,215.

1. Improving and metalling Nanjangud-Hassanur ghat road from Attikalpur to Punjur. Estimate Rs. 33,253.
2. Improving bad portions of Mysore–Manantoddy road. Estimate Rs. 26,780.
3. Constructing new second class travellers' bungalow at Nanjangud. Estimate Rs. 7,414.
4. Improving Tarikere–Mangalore road. Estimate Rs. 11,197.

*Miscellaneous Public Improvements.*—Under this head, a sum of Rs. 3,000 has been provided for incomplete minor works of this class.

Under *Irrigation*, a sum of Rs. 2,07,000 has been allotted, of which two-thirds have been absorbed by the 55 incomplete major works brought forward from the previous year's budget. Of the 9 new works entered, the new anikat proposed at Sankanapur in lieu of the old washed away Gamani ané in Kunigal taluk (item No. 51) is an urgent work required to prevent a recurring loss of revenue of about Rs. 7,000 annually. Items 57 and 58 in Hosdurga taluk and 86 in Channagiri taluk were sanctioned in order to provide work for the distressed local labor in those taluks, while items 32, 63 and 93 are to be restored for the safety of the tanks themselves or the railway lines below them. The remaining two items (67 and 71) provide for compensation to be paid to the Revenue Department for lands acquired in connection with the restoration of those tanks. The marginally * noted sanctioned works, which have not been started as yet, have been ordered to lie over, till the present financial pressure is over. For minor works already in progress, and for any fresh works that may be urgently required during the course of the year, a sum of Rs. 40,000 has been allotted.

*1. Restoring Panditban Agrahara tank in Hoskote taluk. Estimate Rs. 8,603.
2. Restoring Madivala Battikere tank in Kolar taluk. Estimate Rs. 5,101.
3. Restoring Chembi tank in Malur taluk. Estimate Rs. 2,738.
4. Restoring Ajjankere tank in Chiknayakankalli taluk. Estimate Rs. 2,654.
5. Restoring Agrahara tank in Koratagere taluk. Estimate Rs. 35,247.
6. Restoring Chaunamanagattihalli tank in Challakere taluk. Estimate Rs. 3,345.

5. *Repairs.*—The total grant under this head has been fixed at Rs. 4,15,000, or Rs. 7,300 less than that allotted for 1899-1900; and its distribution is as noted below:—

| | Rs. |
|---|---|
| Military ... ... ... ... ... | 3,000 |
| Civil Buildings ... ... ... ... ... | 60,000 |
| Communications ... ... ... ... ... | 3,50,000 |
| Miscellaneous Public Improvements ... ... ... | 2,000 |

The grants under above heads except "Communications," have been cut down owing to the reduced budget grant, and the Superintending Engineers will be asked to regulate their requirements accordingly. Under "Communications," the usual allotment has been allowed in order to safeguard the efficiency of the several important Provincial roads, which have cost a very large outlay, and which would badly deteriorate if not properly maintained. Of the grant of 3½ lakhs provided under this head, Rs 3,04,400 are required for the annual maintenance of the 1,802½ miles of main and branch roads detailed in budget pages 56-59, and the balance, Rs. 45,600, has been reserved for special renovation of selected miles, and the maintenance of first and second class travellers' bungalows and Inspection Lodges all over the State. The Hiriyur-Marikanave road (11 miles in length), which was hitherto maintained from the District Funds, has, under orders of Government, been transferred to Provincial Fund for efficient maintenance, owing to increased traffic on this road since the starting of the Marikanave Project.

SPECIAL GRANT.

6. A grant of Rs. 14,00,000 has been assigned for extraordinary works against Rs. 18,58,000 allotted for 1899-1900, and the distribution of this amount by service heads is subjoined:—

| | Rs |
|---|---|
| Military ... ... ... ... ... | 8,000 |
| Civil Buildings ... ... ... ... ... | 5,10,000 |
| Communications ... ... ... ... ... | 18,000 |
| Miscellaneous Public Improvements ... ... ... | 87,000 |
| Irrigation ... ... ... ... ... | 3,99,000 |
| Establishment ... ... ... ... ... | 3,58,539 |
| Tools and plant ... ... ... ... ... | 19,161 |

The sum of Rs. 8,000 allotted under *Military*, is required for the Imperial Service Lines at Bangalore, to allow of all incomplete works which have been put in hand in anticipation of sanction being completed. The large allotment of Rs. 5,10,000 under *Civil Buildings*, is required for the two important works in progress, *viz.*, the re-construction of H. H. the Maharaja's Palace at Mysore and the new Victoria Hospital at Bangalore. For the former, Rs. 4,50,000 have been provided, in order to complete the building within the next two years, *i. e.*, before the installation of H. H. the Maharaja. The project for this work amounts to Rs. 13½ lakhs including the Ambavilas Durbar Hall and the third story since decided on, and it will be submitted to Government as soon as possible for formal sanction. For the latter, Rs. 60,000 have been allotted in order to complete the building as much as is now necessary for immediate use. The main building which is complete will be formally opened by H. E. the Viceroy and Governor General at his approaching visit to this State. A complete programme of all the subsidiary buildings and adjuncts required is under preparation, as ordered by Sir K. Sheshadri Iyer. Under *communications*, provision has been made for the three incomplete works of the previous year, *viz.*, the opening out of the new road at the Kolar Gold Fields, and the extension of the Avinhalli-Karur and Talguppa-Aralgode roads of the Sagar Malnad Series. Under *Miscellaneous*

*Public Improvements,* sums aggregating Rs. 75,000 have been provided for works detailed in Part III of Sanitary Works budget, in accordance with Government Proceedings (P. W.) No. 1109—6013, dated 28th November 1899, and Rs. 2,000 for improving the valve and other manhole cisterns on the Rising and Delivery Main of the Chamarajendra Water Works. An allotment of Rs. 10,000 has also been made for extending the Water-supply System in the Malleswaram extension of the Bangalore City, for which an estimate of Rs. 10,199 has since been sanctioned by Government. Under *Irrigation,* provision has been made for the following incomplete works, *viz.,* the Mavatur tank in Tumkur district, the Kalhalli, the Chikmadore, the Meersabihalli-Karikere, and the Parasarampur new tanks and the Marikanave Reservoir in Chitaldrug district. For the last work, which is in active progress on a sanctioned project of Rs. 39 lakhs, it is not possible to provide more than 3 lakhs, although a much larger amount is necessary to push it on to early completion. This will only allow of a monthly progress of about Rs. 18,000 on the work against Rs. 50,000 of the previous year, after making payment for the sluice shutters ordered from England.

## DISTRICT FUNDS.

7. The grants under this head represent the amounts sanctioned for the several districts by Government in the General Department for District Fund works to be carried out by the Public Works Department. They aggregate Rs. 3,72,525 against Rs. 3,88,413 of the previous year. The distribution of this amount by service heads and divisions is given in abstract pages 8 and 9.

## LOCAL FUNDS GENERAL.

8. The grant under this head has been ordered to be limited to what is actually required to complete the partly executed works from that source. On this account, the year's grant has been fixed at Rs. 47,200, *viz.,* Rs 40,000 for works and Rs. 7,200 for charges debitable on account of establishment and tools and plant. Eight works have been brought forward, of which items 130, 131, 132 and 135 are connected with the Bababudan Hill road extension scheme, and the remaining 4 works, *viz.,* (1) the opening out of Hanbal-Devarunda road in Hassan Division, (2) the bridging and gravelling of Tirthahalli-Hulikal road in Shimoga Division, (3) the metalling of Narve-Sringeri-Nemmar road, and (4) the metalling of Harihарpur-Kunnakki road in Kadur Division, are those which were previously carried out from this source. A programme of important bridges required in the Province has been sanctioned by Government for future adoption, but in the present financial condition, the allotments required therefor could not be granted. The Government, however, hope that two years hence, they may be able to begin carrying out this bridge programme from Local Funds General.

## IRRIGATION CESS FUND.

9. The total assets under "Irrigation Cess," available for expenditure during 1900-1901, are estimated at two lakhs, as intimated by the Comptroller. This amount has therefore been adopted as the grant for this budget, though it is feared it will fall far short of requirements, the previous year's grant of Rs. 2,43,000 having proved inadequate. Deducting Rs. 30,508 on account of proportionate charges for establishment and tools and plant, the balance available for works is only Rs. 1,69,492. Of this, Rs. 55,048 have been allotted for the annual maintenance of river channels enumerated in budget pages 73 and 74, Rs. 24,492 for the restoration of minor tanks under the Revenue Department, and the balance, Rs. 89,952, reserved for the annual maintenance of other irrigation works in the Province.

## PALACE FUND.

10. Under this head, a grant of Rs. 50,000 has been provided, *viz.,* Rs. 37,500 for the five major works detailed in the budget, Rs. 2,500 for minor works,

and Rs. 10,000 for repairs. Of the major works referred to above, the project for the formation of a new road at the Fern Hill Palace at Ooty, is under preparation, but the work is in progress under the orders of H. H. the Maharani-Regent. No provision has been made in this budget for the construction of the Swimming Bath at the Summer Palace at Mysore, for which a project of Rs. 26,057 was sanctioned in September 1898, as this work which has been ordered to be held in abeyance by Her Highness, is now stated by Sir K. Sheshadri Iyer to be not wanted.

## ESTABLISHMENT.

11. The total charges under this head (including the sum of Rs. 30,000 transferrable from the Sanitary Works budget, being proportionate charges on account of Government works shown in Part III of that budget, under Government Proceedings P. W. No. 1109—6013, dated 28th November 1899) aggregate Rs. 7,39,300. Deducting Rs. 7,165, being 5 per cent for "Direction and Accounts" chargeable to that budget under Government Proceedings P. W. No. 299-318—1819-1838, dated 5th May 1897, the net amount debitable to "Public Works Budget Proper" is Rs. 7,32,135 against Rs. 7,24,21 : for 1899-1900. The excess of Rs. 7,923 is chiefly due to provision made for Captain A. J. deLotbiniere, Deputy Chief Engineer, and Mr. W. McHutchin, Superintending Engineer, at the increased rate of pay sanctioned for them. But owing to the present financial pressure and the consequent reduction of the Provincial grant to 25 lakhs, the Superintending Engineers have been asked, under orders of Government, to review their temporary and work establishments and to cut them down to what is considered absolutely necessary for carring on the works provided in this budget. The savings thus effected will be reserved for any additional allotment that may be required for the budgetted works, and for any other unforeseen urgent works that may be found necessary during the course of the year.

The establishment charges, as they now stand, are 23·0 per cent on the total grant of Rs. 31,69,725 or 30·5 per cent on grant for works alone; and their distribution to the several budgets (Palace excepted, to which it is not usual to debit charges on account of establishment and tools and plant) is as noted below :—

| | Rs. | Percentage to works. |
|---|---|---|
| Provincial Fund ... ... .. | 6,40,249 | 35·0 |
| District Funds . . ... . | 55,225 | 17·5 |
| Local Funds General .. ... ... | 7,000 | 17·5 |
| Irrigation Cess Fund . .. | 29,661 | 17·5 |

## TOOLS AND PLANT.

12. Rupees 37,523 have been provided under this head to meet the ordinary requirements of the Divisions, as well as the grant of Rs. 20,000 required for the Marikanave Project. The distribution of this amount to the several budgets is as noted below :—

| | Rs. |
|---|---|
| Provincial Fund ... .. ... ... | 34,751 |
| District Funds ... .. ... ... | 1,725 |
| Local Funds General ... ... ... ... | 200 |
| Irrigation Cess Fund ... ... .. ... | 847 |

## GENERAL REMARKS.

13. As already approved by Government, a separate application for funds required for the Cauvery Electric Power Scheme at Sivasamudram will be submitted as soon as it is possible to decide what amount will be wanted to cover the year's outlay.

No. 910-34—5193-217, DATED BANGALORE, 31ST OCTOBER 1900.

ORDER THEREON—The Public Works budget estimates for 1900-1901 are sanctioned for a grant of Rs. 32,69,725 inclusive of the additional grant of one lakh applied for by the Chief Engineer, in his Memo of the 17th instant, for the marginally noted* urgent works.

*Proceedings of the Government of Mysore,*

READ—

Memorandum of proposals regarding alterations and promotions in the staff of the Mysore Geological Department, submitted by the Officiating State Geologist and Secretary to Government in the Geological Department, under dates the 2nd February 1899, 5th January 1900, 14th March 1900 and 31st August 1900.

No. 120-G.—1900-1901, DATED BANGALORE, 5—25TH OCTOBER 1900.

ORDER THEREON—In consequence of the retirement of Dr. John W. Evans, D. SC., LL. B., F. G. S., State Geologist, Chief Inspector of Mines and *ex-officio* Secretary to Government in the Geological Department, from the Mysore service on the 4th January 1900, the Government are pleased to sanction the following changes in the Geological Department:—

2. Mr. W. F. Smeeth, M. A., B. E., A. R. S. M., A. R. C. S., F. G. S., who has been officiating as State Geologist and Chief Inspector of Mines and *ex-officio* Secretary to Government in the Geological Department, is confirmed in those appointments with effect from the date of Dr. Evans's retirement, and will also be notified as Chief Inspector of Explosives. Mr. Smeeth's pay will be fixed at Rs. 1,200 rising by annual increments of Rs. 50 to a maximum of Rs. 1,400.

3. Mr. E. W. Wetherell, A. R. C. S., F. G. S., is appointed Second State Geologist and *ex-officio* Assistant Secretary to Government in the Geological Department and Lecturer in Geology in the Central College, Bangalore, on a salary of Rs. 600 rising by annual increments of Rs. 50 to a maximum of Rs. 800. Mr. Wetherell will continue his lecturing work in the Central College for six months in the year and devote the other six months to Geological Survey work.

4. The Government consider it unnecessary at present to make permanent arrangements for filling up the appointment of Third State Geologist. Should it become necessary to do so hereafter, the officer to be appointed should, in accordance with the view expressed by Government when sanctioning the establishment of the Department in 1894, be an officer of the local staff qualified by his training and general abilities to fill that office. Mr. Smeeth's attention will now be drawn to the marginally quoted Proceedings of Government, with a view to the local staff being trained accordingly. Till then the existing acting arrangements will continue.

Para 6 of Order No. 36-D. H. O.—M-1-90, dated the 26th November 1894.

5. Mr. V. S. Sambasiva Iyer, B. SC., L. C. E., Assistant Geologist, is promoted from the 3rd to the 2nd Class (on Rs. 250) and will continue to officiate until further orders as Third State Geologist with the usual acting allowance. He will, in addition, draw an allowance of Rs. 200 per mensem for the six months during which he is required to deliver lectures on Geology in the Central College.

6. The following Assistant Geologists are promoted from the 3rd to the 2nd Class (on Rs. 250), namely:—

Mr. H. V. Krishnaiya, B. A.,
Mr. B. Venkata Rao, B. A.,
and Mr. H. K. Slater.

The first two will, in future, be styled Assistant Chemists, 2nd Class.

7. Mr. G. Lavelle, Officiating Inspector of Mines, is appointed Deputy Inspector of Mines on his present pay of Rs. 500.

8. Mr. A. Primrose, Prospector, is allowed an increase of Rs. 50 per mensem to his present pay.

9. The suggestion that Mr. B. Subba Rao, Assistant Prospector, but actually doing office work, should be designated "Assistant Secretary" is one that does not commend itself to Government. All that is necessary to allow of his being employed on the office work of the Department is to change his present designation to that of "Registrar." Mr. Subba Rao is therefore appointed Registrar, Geological Department, on his present pay of Rs. 200.

10. The question of deputing one or more of the Assistant Geologists to Europe or America to undergo a special course of study bearing on their work in Mysore, is deferred for future consideration.

W. F. SMEETH,
*Secy. to Govt., Geological Dept.*

To—The Comptroller to the Government of Mysore.

## TABULAR STATEMENT OF MATTERS OF ROUTINE FOR OCTOBER 1900.

| Serial No. | Proceedings. | | | Subject and Order. |
|---|---|---|---|---|
| | No. | Date. | To whom sent. | |
| 1 | 170 M. | 1 | Comptroller ... | Inviting his attention to this office letter No. 97-M—1900-1901, dated 23rd August 1900, regarding the differences between the figures of the quantity and value of gold produced in the Mines in Mysore from April 1899 to March 1900, furnished by the Durbar to the Residency and those obtained by the Director General of Statistics in India from Messrs. Best & Co. of Madras; and requesting an early reply thereto. |
| 2 | 171 M. | 4 | First Asst. to Hon'ble the Resdt. | Informing him that the opinion of Messrs. John Taylor & Sons, London, on the provisions of the Amended Bill to Provide for the Regulation and Inspection of Mines in British India may be expected within the next fortnight. |
| 3 | 172 M. | 4 | Comptroller ... | Forwarding, for verification and early return, a statement relating to output of gold, &c., in the Mines in Mysore from 1881-82 up to the present year. |
| 4 | 173 M. | 9 | Dy. Comr., Chitaldrug | Inviting his attention to this office No. 291-M.—1899-1900, dated 15th—22nd May 1900 and subsequent reminders thereto and requesting him to expedite the submission of the statement of economic products of his district for the year 1899. |
| 5 | 174 M. | 9 | First Asst. to Hon'ble the Resdt. | Forwarding 50 printed copies of letter No. 167-M., dated 26th September 1900, about rates of royalty for Gold Mining Leases in Mysore. |
| 6 | 175 M. | 9 | Mr. Edwin C. Foot, Residency Road, Bangalore. | Informing him that his application for a prospecting license for mica over the whole of the Nangangud taluk will be specially considered at an early date. |

| Serial No. | Proceedings. No. | Date. | To whom sent. | Subject and Order. |
|---|---|---|---|---|
| 7 | 176 M. | 12 | Dy. Comr., Kolar .. | Inviting his attention to Government Proceedings No. 6521-3—R. F. 175-92, dated 17th March 1900, directing that the sale of the right of collecting corundum in those taluks which are not included in the license granted to Mr. A. Forrester be held in abeyance at least for one year until some information is available about the result of Mr. Forrester's work, and requesting that the notification of such sale in the Bowringpet taluk on the 20th October 1900 may be cancelled. |
| 8 | 178 M. | 9 | Saliah Makammad Casim Sait, Esq., 154, Commercial Street, Bangalore. | Informing him that the right of collecting corundum in the Bowringpet taluk will not be sold this year. |
